Teaching Modern Arabic Literature in Translation Michelle Hartman, 2018-02-01 Understanding the complexities of Arab politics, history, and culture has never been more important for North American readers. Yet even as Arabic literature is increasingly being translated into English, the modern Arabic literary tradition is still often treated as other--controversial, dangerous, difficult, esoteric, or exotic. This volume examines modern Arabic literature in context and introduces creative teaching methods that reveal the literature's richness, relevance, and power to anglophone students. Addressing the complications of translation head on, the volume interweaves such important issues such as gender, the Palestinian-Israeli conflict, and the status of Arabic literature in world literature. Essays cover writers from the recent past, like Emile Habiby and Tayeb Salih; contemporary Palestinian, Egyptian, and Syrian literatures; and the literature of the nineteenth-century Nahda.

Birds of British Columbia, Volume 4 Wayne Campbell, Neil K. Dawe, Ian McTaggart-Cowan, John M. Cooper, Gary W. Kaiser, Michael C.E. McNall, 2011-11-01 This much-awaited final volume of The Birds of British Columbia completes what some have called one of the most important regional ornithological works in North America. It is the culmination of more than 25 years of effort by the authors who, with the assistance of thousands of dedicated volunteers throughout the province, have created the basic reference work on the avifauna of British Columbia. Volume 4 covers the last half of the passerines and describes 102 species, including the warblers, sparrows, grosbeaks, blackbirds, and finches. The text builds upon the authoritative format of the previous volumes and is supported by hundreds of full-colour illustrations, including detailed distribution maps, unique habitat shots, and beautiful photographs of the birds, their nests, eggs, and young. In addition, a species update lists and describes 27 species of birds new to the province since the first three volumes were published. The book concludes with Synopsis: The Birds of British Columbia into the 21st Century, which synthesizes data and information from all four volumes and looks at the conservation challenges facing birds in the new millennium. The four volumes in The Birds of British Columbia provide unprecedented coverage of the region's birds, presenting a wealth of information on the ornithological history, regional environment, habitat, breeding habits, migratory movements, seasonality and distribution patterns of 472 species of birds. It is the complete reference work for birdwatchers, ornithologists and naturalists.

Cultural Identity in Arabic Novels of Immigration Wessam Elmeligi, 2020-12-10 Cultural Identity in Arabic Novels of Immigration: A Poetics of Return offers a new perspective of migration studies that views the concept of migration in Arabic as inherently embracing the notion of return. Starting the study with the significance of the Islamic hijra as the quintessential

migrant narrative in Arabic culture, Elmeligi offers readings of Arabic narratives as early as Ibn Tufayl's Hayy ibn Yaqzan and as recent as Miral Al-Tahawy's 2010 Brooklyn Heights, and as varied as Egyptian novelist Naguib Mahfouz's short story adaptation of the ancient Egyptian Tale of Sinuhe and Yemeni novelist Mohammed Abdl Wali's They Die Strangers, including novels that have not been translated in English before, such as Sonallah Ibrahim's Amrikanli and Suhayl Idris' The Latin Quarter. To contextualize these narratives, Elmeligi employs studies of cultural identity and their features that are most impacted by migration. In this study, Elmeligi analyzes the different manifestations of return, whether physical or psychological, commenting not only on the decisions that the characters take in the novels, but also the narrative choices that the writers make, thus viewing narrativity as a form of performativity of cultural identity as well. The book addresses fresh angles of migration studies, identity theory, and Arabic literary analysis that are of interest to scholars and students.

Reading Arabia Andrew C. Long, 2014-02-21 Reading Arabia traces the evolving tradition of British Orientalism in the late nineteenth and early twentieth centuries, examining the role of mass print culture in constructing the British public's perception of "Arabia." Long brings together close readings and ideological analyses of primary texts by Richard Burton,

Charles Doughty, Robert Cunninghame Graham, Marmaduke Pickthall, and T. E. Lawrence, along with pamphlets, journalism and commentary, silent films, stage spectacles, and travel literature. Through these texts, Long examines the fantasy of the Orient and its constitutive function. Building on the pioneering work of Edward Said, *Reading Arabia* looks beyond foreign policy debates and issues of human rights to show how British Orientalism is rooted in words and phrases of a popular culture that shaped the way the public read and imagined the Arab world.

The Birds of Vancouver Island's West Coast Adrian Dorst,2018-04-01 The west coast region of Vancouver Island encompasses mountainous terrain, rainforest, mudflats, and ragged coastlines that bear the brunt of storms spawned by an immense ocean. Remote and inaccessible to birders until well into the twentieth century, the rugged beauty of this "wild west coast," attracts visitors from far and wide. And it also boasts a distinctive avian population that has made it one of Canada's premier bird-watching destinations. *The Birds of Vancouver Island's West Coast* is the essential guide to the region's birds. It presents accounts of all of the species thus far recorded as occurring there - 360 in total - and updates the 231 species recorded up to 1978. Each account includes a brief introduction to the species and an overview of its total range. Key to the book's detailed and authoritative accounts are first-hand observations and anecdotes recorded by the author over more than forty years. By far the most detailed and up-to-date account of the birds of this region, this book will inform, delight, and surprise amateur and professional birders alike.
