The Secret Law of Attraction as Explained By Napoleon Hill Napoleon Hill, 2008-06-24 IT ALL STARTED WITH CARNEGIE AND HILL Few things in recent history have had the impact of The Secret. Created by Rhonda Byrnes, the video program and book have taken the ideas of the New Thought Movement that flourished in America at the turn of the twentieth century and made them as intriguing as The Da Vinci Code and as up-to-date as this morning's headlines. This book, The Secret Law of Attraction as explained by Napoleon Hill, focuses its attention on two of the most famous names mentioned as keepers of the secret--Andrew Carnegie and Napoleon Hill--and on how Carnegie conveyed his understanding of this Secret Law of Attraction to Hill--who, in turn, transformed those concepts into the best-selling success book in the history of publishing: Think and Grow Rich. THE COMPLETE SECRET IN ONE BOOK For the first time, Napoleon Hill's books have been carefully analyzed to identify those passages dealing with the Law of Attraction as well as the lesser-known of Carnegie's laws that govern personal achievement and success. These key sections have been brought together between the covers of this one book, The Secret Law of Attraction

Law Of Attraction Zachariah Albert,2019-04-05 Are you ready to manifesting anything you want into your life? Looking closely at our everyday life, you will realize that the law of attraction is present all the time. Most people do not notice the connection because of the time lag between their thoughts and the manifestation of their thoughts. However, there are some things that happen to us that we feel happened as a result of a coincidence, not knowing it is the law of attraction that is at work. For instance, have you ever thought of calling a friend, and the friend calls you around that time? Or have you ever thought of picking up your phone, and your phone rings at that instance? These experiences are not coincidences; they are a result of the law of attraction. We get more of what we focus on in life. That is why you need to get more creative with your thoughts. In this book, I am going to show you how you can consciously and deliberately attract good things into your life by aligning your thoughts in the right way. Focusing more on things that make you happy increases your chances of attracting things that make you happy. The other side of this is the negative side which is when you focus on things you are not happy about, you tend to attract things that will make you sad. For instance, if you focus on wealth and good health, you attract wealth and good health. However, if you focus on poverty, you will attract a situation that will rob you of the little things you have gathered. Law of Attraction Daniel D'Apollonio, 2016-12-09 The law of attraction is something almost everyone has experienced, on a conscious or subconscious level at one time or the other. Even as we speak, you have experienced the law of attraction at some point in your life. Do you doubt this immutable fact? Consider this: Look back to all those times when you were thinking about someone, your phone started ringing with the person you were thinking of on the other end of the line, or the time when you were thinking about someone, and out of nowhere, you bump into the person on the street. You may choose to label these things mere 'coincidences, ' 'luck, ' or 'fate' because a part of you finds it difficult to accept the existence of energy in sync with your thoughts, an energy capable of attracting the things you want. This energy is the universal energy. You can tap into this energy to transform every aspect of your life and attract everything you desire. How do you do that; how do you tap into this power? Well, you use the law of attraction. What is the law of attraction? This book will teach you everything about the law of attraction, how it works, and then detail how you can consciously begin to use it to get the things you want whether these things are the ideal relationship, a good job, better health, money, you name it.
