Dissertation Research Methods Philip Adu,D. Anthony Miles,2023-09-11 Dissertation Research Methods: A Step-by-Step Guide to Writing Up Your Research in the Social Sciences focuses specifically on the methodology for planning, writing and submitting your dissertation thesis. Written by two methodology experts in the social sciences, the book provides a step-by-step guide through each stage of the dissertation process. It covers all aspects of the methodological considerations needed, from choosing a topic or research question, developing a literature review, identifying research gaps, accessing potential study participants, utilizing the right sampling strategies, analyzing data and writing up findings. Readers are introduced to the main research methods normally used in dissertations and their characteristics, and they are guided to choose an appropriate research method for their study, provide a substantial description of the selected method and articulate strong arguments in support of it. The book is filled with templates, exemplars and tools to help students write about methodology in their thesis and to equip readers to successfully troubleshoot any methodology challenges they may face. This compact book will be of use to all graduate students and their supervisors in the Social Sciences and Education and Behavioural Sciences who are looking for a guide to working with robust and defensible methodological principles in their dissertation research and theses.

**The State of Food and Agriculture 2000** ,2000 The past half century has seen spectacular progress in agricultural technology and productivity, but far from sufficient progress in poverty alleviation and food security, particularly in rural areas. This issue investigates some both the positive and negative changes that occurred in the second half of the twentieth century. It addresses the social and economic impact of agricultural modernization, the role of staple food production in

nutrition and food security, trends in productivity and the politics involved in preventing some population groups from the development process.

**Handbook on Teaching and Learning in Operations Management** Yufeng Zhang, 2024-05-02 This essential Handbook outlines the latest research on operations management teaching, and identifies new developments in the overall trends of (de)globalisation, sustainability and digitalisation. It highlights contemporary developments in teaching practice, providing theoretical insights into potential future pedagogical directions.

**Mathematical Entity Linking Methods and Applications** Philipp Scharpf, 2025-05-09 This research book explores the adaptation of traditional Entity Linking techniques to Mathematical Entity Linking (MathEL) for STEM disciplines, addressing the limitations of current Information Retrieval methods in handling mathematical expressions. By developing and evaluating novel MathEL approaches using AI, Machine Learning, and the Wikidata Knowledge Graph, significant progress is achieved in areas such as Formula Concept recognition, semantic formula search, mathematical question answering, physics exam question generation, and STEM document classification. The study also introduces a suite of open-source Wikimedia MathEL tools, including AnnoMathTeX, MathQA, and PhysWikiQuiz, designed to advance Mathematical Information Retrieval and support innovative applications in academic and educational contexts.

**Acceleration of Digital Innovation & Technology towards Society 5.0** Dian Puteri Ramadhani, Indira Rachmawati, Cahyaningsih, Nidya Dudija, Hani Gita Ayuningtias, Arien Arianti Gunawan, Dania Syanetta Dennyra, 2022-11-14 Sustainable Collaboration in Business, Technology, Information, and Innovation (SCBTII 2021) focused on Acceleration of Digital Innovation & Technology towards Society 5.0. This proceeding offers valuable knowledge on research-based solutions to accelerate innovation and technology by introducing economic transformation to solve various challenges in the economy slow-down during the post-pandemic era. The business sector should have the ability to gain sustainable competitive advantage, and quality growth by synergizing management capabilities, mastery of technology, and innovation strategies to adapt to external trends and events. This Proceeding is classified into four tracks: Digital-Based Management; Strategy, Entrepreneurship, Economics; Finance and Corporate Governance; and Accounting. This valuable research will help academicians, professionals, entrepreneurs, researchers, learners, and other related groups from around the world who have a special interest in theories and practices in the field of business and digital innovation and technology towards society 5.0.

*Career Ready Education Through Experiential Learning* Northrup, Pamela, Rasmussen, Karen, Colson, Robin, 2021-03-19 Despite the promise of competency-based education (CBE), learner-centered issues related to support, retention, and program completion rates remain problematic. In addition, the infrastructure for higher education, including issues related to faculty (intellectual property, workload, and curriculum), pose barriers and challenges in the design, development, implementation, and delivery of CBE. In response, administrators, faculty, designers, and developers of competency-based

experiences must incorporate innovative strategies that are foreign to the traditional institution. A strong emphasis on retention and graduation rates must surround the student with support, starting with the design and development of the CBE system. There are few resources that can help prepare instructional designers, advisors, academic administrators, and faculty to meet the many challenges of designing, developing, implementing, and managing CBE. *Career Ready Education Through Experiential Learning* is an essential reference book that includes strategies for design and development of competency-based education (CBE) programs, as well as administrative and delivery strategies as examples of how CBE can be implemented. Through a strong theoretical framework, chapters present the best practices, strategies, and practical tips as examples and scenarios that can be used in higher education settings. While highlighting education courses, programs, and lessons across various institutions and educational domains, this book is ideal for higher education administrators and policy designers/implementors, instructional designers, curriculum developers, faculty, public policy leaders, students in curriculum and instruction and instructional technology programs, along with researchers and practitioners interested in CBE and experiential learning in higher education.

*Prophets of Computing* Dick van Lente, 2022-12-14 When electronic digital computers first appeared after World War II, they appeared as a revolutionary force. Business management, the world of work, administrative life, the nation state, and soon enough everyday life were expected to change dramatically with these machines' use. Ever since, diverse prophecies of computing have continually emerged, through to the present day. As computing spread beyond the US and UK, such prophecies emerged from strikingly different economic, political, and cultural conditions. This volume explores how these expectations differed, assesses unexpected commonalities, and suggests ways to understand the divergences and convergences. This book examines thirteen countries, based on source material in ten different languages—the effort of an international team of scholars. In addition to analyses of debates, political changes, and popular speculations, we also show a wide range of pictorial representations of the future with computers.

*Qualitative Inquiry—Past, Present, and Future* Norman K Denzin, Michael D Giardina, 2016-07-01 In this critical reader, the best writing of two dozen key figures in qualitative research is gathered together to help students to identify emerging themes in the field and the latest thinking of the leaders in qualitative inquiry. These groundbreaking articles are pulled from a decade of social justice-focused plenary volumes emanating from the annual International Congress of Qualitative Inquiry. These are the ideas that have helped shape the landscape of the field over the past decade. This work-brings together the

latest work of 25 leading figures in qualitative research from 4 continents;-addresses the central themes of the field over the past decade in theory, methodology, politics, and interventions;-includes contextualizing essays by the volume editors, who direct the Congress.

*Advances in Ceramic Armor* Swab,2009-09-28 Contains over 30 papers on the development and incorporation of ceramic materials for armor applications. Topics include impact and penetration modeling, dynamic and static testing to predict performance, damage characterization, non-destructive evaluation and novel material concepts.

Black Educational Choice Diana T. Slaughter-Kotzin,Howard C. Stevenson,Edith G. Arrington,Deborah J. Johnson,2011-11-08 This important book provides African American parents with the knowledge to diversify K-12 school choices beyond traditional neighborhood public schools in order to optimize the educational chances of their own children, and it will help educators and policymakers to close the black-white academic achievement gap throughout America. Closing the K-12 achievement gap is critical to the future welfare of African American individuals, families, and communities—and to the future of our nation as a whole. The black-white academic achievement gap—the significant statistical difference in academic performance between African American students and their white peers—is the single greatest impediment to achieving racial equality and social justice in America. Black Educational Choice provides parents, citizens, educators, and policymakers the critical knowledge they need to leverage the national trend toward increasing and diversifying K-12 school choice beyond traditional neighborhood public schools. Parents can use this information to optimize the success of their own African American children, while policymakers and educators can apply these insights to help close the black-white academic achievement gap throughout America. The book collects the interdisciplinary, multi-racial, and multi-ethnic perspectives of education experts to address the questions of millions of anxious African American families: Would sending our children to a private school or a charter school significantly better their chances of closing the achievement gap and becoming successful individuals? And if so, what kinds of challenges would they likely experience in these alternative educational settings?

**Communication Yearbook 19** Brant R. Burleson,2012-03-22 The Communication Yearbook annuals publish diverse, state-of-the-discipline literature reviews that advance knowledge and understanding of communication systems, processes, and impacts across the discipline. Sponsored by the International Communication Association, each volume provides a forum for the exchange of interdisciplinary and internationally diverse scholarship relating to communication in its many forms. This volume re-issues the yearbook from 1996.

**Minutes of Proceedings of the Institution of Civil Engineers** Institution of Civil Engineers (Great Britain),1923 Vols. 39-214 (1874/75-1921/22) have a section 2 containing Other selected papers; issued separately, 1923-35, as the institution's Selected engineering papers.

It embraces a wide range of issues related to ergonomics, reflecting the name change of the Ergonomics Society to the Institute of Ergonomics & Human Factors.

**Integration and Application of Business Graduate and Business Leader Competency-Models** Harper, Donta S., 2020-09-25 Utilizing a skill and ability-based competency approach can be used to develop both individuals and organizations. Whether the skills are developed through on-the-job training or trained through educational programs, to be proficient is to gain mastery in the defined area. These standards of proficiency separate the talented from those that have talent and utilize this talent. Competency-models, systematic integration, and application of competency-models are a focus in today's work environment to remain competitive and to attract quality talent. Therefore, focusing on the identification of management skillsets and the alignment of competency-models with organizational goals to achieve integration through the use of a system are essential to move from good to great management. *Integration and Application of Business Graduate and Business Leader Competency-Models* is a pivotal reference source that examines how educational competency-based programs and industry needs are being met, along with how best to meet and achieve desired strategic organizational outcomes through integration. By highlighting the organizational need for recruitment, development, and success through scalable approaches at all organizational levels, this book is ideally designed for business graduates, organizational leaders, managers, students, academicians, and researchers in the fields of leadership, social science, organizational development, and business management.
