Gender(ed) Identities Tricia Clasen, Holly Hassel, 2016-08-25 This volume brings together diverse, cross-disciplinary scholarly voices to examine gender construction in children's and young adult literature. It complements and updates the scholarship in the field by creating a rich, cohesive examination of core questions around gender and sexuality in classic and contemporary texts. By providing an expansive treatment of gender and sexuality across genres, eras, and national literature, the collection explores how readers encounter unorthodox as well as traditional notions of gender. It begins with essays exploring how children's and YA literature construct communities formed by gender, ethnicity, sexuality, and in face-to-face and virtual spaces. Section II's central focus is how gendered identities are formed, unpacking how texts for young readers ranging from Amish youth periodicals to the blockbuster *Divergent* series trace, reproduce, and shape gendered identity socialization. In section III, the essential literary function of translating trauma into narrative is addressed in classics like *Anne of Green Gables* and *Pollyanna*, as well as more recent works. Section IV's focus on sexuality and romance encompasses fiction and nonfiction works, examining how children's and young adult literature can serve as a regressive, progressive, and transgressive site for construction meaning about sex and romance. Last, Section IV offers new readings of paratextual features in literature for children -- from the classic tale of *Cinderella* to contemporary illustrated novels. The key achievement of this volume is providing an updated range of multidisciplinary and methodologically diverse analyses of critically and commercially successful texts, contributing to the scholarship on children's and YA literature; gender, sexuality, and women's studies; and a range of other disciplines.

As We Are Tanisha Singh ,2025-01-23 As We Are Description: As high school draws to a close, Samyukta Sam Raghuwanshi finds herself at a crossroads—caught between the familiar comfort of friendship and the uncertainty of new emotions. The last year of high school should be filled with excitement, yet for Sam, it's marked by something much more complex: a growing, unspoken bond with her best friend, Ekaksh Eki Singh Ranawat. They've shared countless memories, inside jokes, and secrets, but now, as they approach adulthood, something between them is changing—and neither of them knows how to navigate it. As Sam and Eki's relationship deepens, their tight-knit friend group, including the ambitious Riya, the humorous Karan, and the artistic Tara, begins to shift under the weight of unspoken desires, jealousy, and the looming pressure of college decisions. Every glance, every moment shared between Sam and Eki feels loaded with potential, but the fear of ruining their lifelong friendship keeps them both at a standstill. When misunderstandings, jealousy, and external pressures start to fray their connection, Sam and Eki are forced to confront not only their feelings for each other but also their individual aspirations and dreams for the future. From a fateful fall festival to the uncertainties of their senior year, their relationship faces its greatest test yet—one that will either forge an even deeper bond or drive them apart forever. As We Are is a heartfelt exploration of love, friendship, and the intricate emotions that come with growing up. It's a journey of self-discovery, where Sam and Eki must learn that the greatest risk of all is the one taken when you choose to love—not just the person standing next to you, but also the person you're becoming. As they navigate the blurry line between friendship and romance, they will discover that the future may not be as predictable as they once thought—but with each other by their side, it could be the adventure of a lifetime. A poignant tale of finding yourself, letting go of fear, and embracing change, this novel reminds us that some relationships—whether romantic or platonic—are worth fighting for, no matter what the future holds.

But let's make a short introduction and let you know what you are going to buy. Momonafe and Momonaf Momonafe ue Momonaf Mom+mona+afe, Mom - blue Mona - star Afe - land The concept of Momonaf comes from Momonafe. Momonafe is a lovely planet in the orbit of a blue star named Momona. It is the seventh biggest planet in the solar system of the Momona Star System -MMA, (memea)- Momona Mona Aloa. Momonafe has a good climate with some special sub climates. There are four big oceans on the planet. One divides the total continents vertically. There are six continents and five big islands that are big as Germany, UK, and Turkey. There are three continents that have borders with each other along some big rivers. The other three continents are giant islands on the oceans. The planet's oceans are mostly blue but the big ocean that is named Memaio has an ice surface in the north that is mostly turquoise. The white glaciers are as high as mountains in the north. There is no land in the north but the swimming giant ice glaciers. They are so big that if one sees them for the first time in his life he will think that they are actually frozen lands. In this planet the air is totally clean. There is no pollution on the planet. The inhabitants of the planet are human like living beings. They are mostly taller than humans of the planet Earth.

And they are very peaceful explorer people. They have a very high-level technology. They have created sea fields along the continents that provide energy from their sun to make efficient energies for their daily lives. In Momonafe one can travel freely everywhere on the planet. To travel in space is also free but one needs to have an educational space program. It is actually not difficult. Because they have evolved in technology long ago. Momonef is the general name of the people of Momonafe. They came to this planet from another planet of the same solar system. Since they have colonized the planet they created amazing things. One of them is Momonaf. As you can see this language is from a different place in this universe. I hope you enjoy it while learning. Let's get started!

The Girl-Positive Library Mary Ann Harlan, 2018-12-07 Providing a model of critique useful in readers advisory, collection development, and book clubs, this title encourages the inclusion of young adult titles advancing a positive representation of girls in programming and instruction. Even in an era in which there are multiple and wide-ranging conversations about representations of diverse groups in literature, the depiction of girls in young adult literature has received inadequate attention. This text provides a model for understanding how girls are represented in young adult literature that will aid school and youth services librarians in their personal understanding and awareness as they build collections and create programming. It provides practical suggestions for how to use and implement a feminist lens while reading, discussing, and reviewing titles. Included are a list of recommended annotated titles and discussion questions for use in developing appropriate instructional and interesting programs that explore concepts of girlhood, media literacy programs, and diverse collections.

Library Programs and Services for New Adults Kyla Hunt, 2017-10-06 Addressing the needs of new adults—those ages 18-29—in the library is an important challenge. This book explains the needs and wants of new adults in the public library

setting and identifies their preferences in physical space, programming, and technology. According to the Pew Research Center's 2015 Libraries at the Crossroads Report, 52 percent of people between the ages of 16 and 29 visited a bookmobile or library within the past year. Yet many public libraries' programming and outreach skip over this demographic, jumping from teen services to older adults. Library Programs and Services for New Adults provides a road map for including new adults into the family of the small public library and offers a variety of resources and programming ideas that librarians can use immediately. Author Kyla Hunt—a library technology and trends specialist—explains why the needs of new adults are typically overlooked at public libraries, defines who new adults are, and explains why serving their needs is key to the success of today's public libraries. Readers will come away with an in-depth understanding of the mindset and needs of patrons who are 18 to 29 years old and be able to cater to their preferences as they pertain to physical space, programming, technology, and marketing.
