Transnational Latin American Television Nahuel Ribke,2020-12-28 This book examines the process of transnationalization of Latin American television industries. Drawing upon six representative case studies spanning the subcontinent's vast and diverse geo-political and cultural landscape, the book offers a unique exploration of the ongoing formation of interrelated cultural, technological, and political landscapes, from the mid-1980s to the present. The chapters analyse the international circulation of the genres and formats of entertainment television across the subcontinent to explore the main driving forces propelling the production and consumption of television contents in the region, and what we can learn about the cultural and social identities of Latin American audiences following the journey of genres, formats, and media personalities beyond their own national borders. Taking a contemporary interdisciplinary approach to the study of transnational television industries, this book will be of significant interest to scholars and students of television and film studies, communication studies, Latin American studies, global media studies, and media and cultural industries.

Tu hijo de 6 a 7 años Blanca Jordán,2014-05-12 El paso de los seis a los siete años es un momento idóneo para la educación de los niños. Conocer cómo es un niño a esta edad, qué planes de acción pueden acometerse, a qué problemas nos podemos enfrentar y otros muchos temas relacionados con esta edad, nos ayudarán a hacer de este momento una etapa muy fructífera que facilitará la entrada en la pre-adolescencia. Tu hijo de 6 a 7 años es un libro escrito desde la experiencia y el conocimiento de los niños de esta edad. Aborda todos los ámbitos de la vida del niño: el colegio, los amigos, la familia, los

estudios, etc. La crisis de los 6 años es como una miniadolescencia, dura muy poco tiempo, pero los niños la sufren con mayor o menor intensidad.

From Analog to Digital Television Dr. David K. Rehr, 2018-12-27 It was the largest and most important marketing campaign in the history of television - moving over thirty-four million American households from analog to digital over-the-air antenna television. Success meant seventy million televisions would continue to receive news, entertainment, and local events. Failure to succeed was unthinkable. This is the story of how the digital television transition (DTV) took place. It details how the campaign was initiated, the research-based strategy, the various interest groups engaged in educating their communities on how to transition so they would have continued access to television, and the behind-the-scenes tensions between the National Association of Broadcasters (NAB), media companies, the Federal Communications Commission (FCC) and the US Congress. The DTV campaign provides you with a detailed understanding of various communication tools and key insights into educating citizens on changing television technology in their homes, businesses, or anywhere a TV set could be turned on. The transition impacted all TV distribution channels, including cable, satellite, and over-the-air antenna television. The media companies involved in each distribution path had their own economic incentives to succeed, while also vying to improve their business at the expense of competitors. The transition extended through two presidential administrations, so you will read firsthand how politics, intrigue, and partisanship impacted this once in a lifetime technological change for America. Some of it is not pretty. This is a must-read for communicators, public relations experts, and those studying how to organize and execute a multipronged communications campaign with a strict deadline and immense consequence if not successful. You will learn specific lessons that will enable you to be more successful in your advocacy, communication, and public relation efforts.

LA IMAGEN TELE Carlos Obando Arroyave, 2011 Fotografía, cine, televisión, video y multimedia dibujan una trayectoria estética y tecnológica que va de la imagen fílmica a la electrónica, de la analógica a la digital, de la imagen racional, centrada y autónoma de la fotografía y el cine a la imagen compulsiva, descentrada, imperfecta y caótica de la televisión y el video. Tecno-estéticas, Neo-usos y Glocalidades en la sociedad digital son los temas divididos en tres capítulos que se deslizan por este texto en el que la imagen tele -visible en el universo de las pantallas- es entendida como aquella transmitida (tele)mediáticamente y que conjuga comunicación visual, telecomunicación e informática. No en vano, cine, televisión, video,

videoradio, son ahora las nuevas tecnologías que conviven en el abigarrado universo de la comunicación audiovisual de Internet. Con ellas asistimos a una complejidad de relatos (vuelta a la oralidad, a la lectura y la escritura) que permea hoy la cotidianidad y se expresa a través de multilenguajes en el mundo cibernético (Web, blogs, redes sociales) en una especie de idiolecto que des-estructura las gramáticas convencionales.

Te ve, mi amor, T.V. Dante Medina,2008 Este libro empezó siendo narrativa, y luego sentí que debía de ser teatro, necesité que alguien lo dijera en escena, que alguien lo hablara, de lo tan orales que me parecían estos cuentos, aunque se refirieran a objetos visuales. Si me lo hubiera permitido, habrían sido monólogos de teatro. Soledades sí son, eso sí. Palabras para querer estar acompañado estando solo. En suma: formas verbales, es decir, intentos de que nos acompañe alguien, un verbo, un diálogo, una frase, algo. Me fui metiendo en la escritura, y queriendo al hombre presente en los relatos, y amando a la mujer ausente en los relatos. De él no me llegó ningún cariño; de ellas, todos. Se saben hacer extrañar, las mujeres de estos cuentos, y el que vive esta ausencia lo vive, el desafortado, de la peor manera en que puede vivirse este sentimiento: en la carencia.

Televisiones autonómicas Juan CarlosMiguel,Miguel Ángel Casado,2012-01-01 A pesar de constituir una de las realidades televisivas más complejas de Europa, pocos trabajos han tomado la realidad de las televisiones autonómicas en su totalidad y la mayoría se han centrado en el estudio de casos concretos. Este libro pretende contribuir a colmar ese vacío a partir de un enfoque pluridisciplinar sobre la totalidad de las televisiones autonómicas. Como el resto del sistema audiovisual, los medios autonómicos públicos se encuentran en el medio de importantes cambios de diferente índole: reglamentarios (leyes), tecnológicos (TDT, Internet, redes sociales), gobernanza (transparencia, independencia, externalización, FORTA) que son analizados en diferentes capítulos del libro. Por su naturaleza, han de afrontar estos retos como televisiones públicas de proximidad, comprometidas con los contenidos y la industria local y, sometidas a una presión cada vez mayor a nivel económico. Sin olvidar la gestión, a veces ineficaz, otras veces directamente irresponsable, que ha puesto a varias de estas televisiones en situaciones límite.
