Pencils Down! Paula Greene, 2012-09 *Pencils Down!* has been forty-five years in the making. It is hoped that by sharing classroom experiences, the reader will be entertained, enlightened, and educated. The ideas presented are written for all educators: veteran, novice, substitute and student teachers, parents who homeschool, college and university professors, as well as for anyone who has a child in his or her care. The guide offers the fruit of my experiences, gleaned from a lifetime in the classroom. Writing this book has been a labor of love, and it is my sincere hope that all educators reading this book will find some fresh insight into the wonderful profession of teaching. *Pencils Down!* will take you on a journey whose itinerary begins in elementary school and spans more than four decades. I have taken that journey at the head of the class. Many an author has written a book on education without ever having stepped into a real classroom. I have stepped into many classrooms, many times, over many years, and now feel qualified to write my first book. Having successfully survived as a teacher forty-five years in the public and private sectors of both the New York and Nevada school systems prompted me to write this book, a book packed with lessons that work, school humor, enrichment activities, and sage advice ready to be used by anyone who desires to instill a love of learning in a child. You may wish to do many of the lessons with your students. Most of the text deals with activities based on beloved children's books. I have selected more than fifty children's books I most enjoyed reading and teaching my students. Although some of these books never achieved Newbery Medal award status, each book teaches something of life's lessons, and each is a gem. My first priority was selecting excellent children's books. I have

selected a broad and diverse collection of children's books with the hope that by using these books daily with all elementary school children, each child can learn to love books and appreciate the extended benefits of lifelong literacy. To give you a true flavor of what is covered, a summary of each part follows. Welcome to Pencils Down! Part One: School Humor You are reading this either because you are contemplating a career in teaching or are curious to find out whether a veteran teacher can still be sane after spending forty-five years in the classroom. Part One presents the humorous side to an otherwise serious profession. You will get a glimpse of nineteenth and early twentieth century rules for teachers and peruse a copy of the contract teachers were made to sign. Both will make you wonder why anyone would consider a career in education. You will find out what teachers make and be privy to the public's low opinion of teachers' salaries. If you survive the reality show for educators, you may continue reading the book. School anecdotal incidents, accrued from many years in the classroom, will be shared. You will learn why God created the teacher and will be introduced to the new school policy. A test designed for preschoolers will challenge you. Answers from kindergartners and first graders as to why we read and write will be sure to surprise and amuse you. Actual student test answers and parental notes are included, both good for a chuckle. The difference between an educator and a teacher will be clarified. Today's schools, vs. schools in the 50's and 60's, will make you wish you were teaching in a simpler era and make you wonder if schools are still teaching math. An Australian school's answering machine will make you smile, as will the eleven things you did not and will not learn in school. Part Two: Getting to Know You Getting to know you, Getting to know all about you.

The Teacher from the Black Lagoon, Shrinking Violet: Find out what happens when the shyest girl in the class gets the big part in the school play.

Learning for Keeps Rhoda Koenig, 2011-03-30 Learning for Keeps answers the questions teachers frequently ask about how to provide the explicit strategy instruction that supports the higher-level skills students need to meet the rigorous demands of the Common Core Standards. Teachers recognize that students often do not come to our classrooms with the skills necessary for the activities and projects that require solving problems, reading deeply, responding to higher levels of text complexity, communicating well-developed ideas, and performing the many cognitive behaviors necessary for long-term intellectual development. Here's a highly practical book that gives teachers the specific knowledge and larger vision needed to demystify essential strategies with explicit instruction. The reader will come away with a tutorial in breaking down complex strategies into incremental parts; models of scripted explicit strategy lessons; examples of coaching transactions that mediate students' application of strategies; and scaffolded activities that integrate content and process. Learning for Keeps is an indispensable tool for enabling all students to independently select and apply the behaviors needed for becoming highly literate and thoughtful citizens prepared for college and 21st century careers.

Exploring Teachers in Fiction and Film Melanie Shoffner, 2016-03-31 This book about teachers as characters in popular media examines what can be learned from fictional teachers for the purposes of educating real teachers. Its aim is twofold: to examine the constructed figure of the teacher in film, television and text and to apply that examination in the context of teacher education. By exploring the teacher construct, readers are able to consider how popular fiction and film have influenced society's understandings and views of classroom teachers. Organized around four main themes—Identifying with the Teacher Image; Constructing the Teacher with Content; Imaging the Teacher as Savior; The Teacher Construct as Commentary—the chapters examine the complicated mixture of fact, stereotype and misrepresentation that create the image of the teacher in the public eye today. This examination, in turn, allows teacher educators to use popular culture as curriculum. Using the fictional teacher as a text, preservice—and practicing—teachers can examine positive and negative (and often misleading) representations of teachers in order to develop as teachers themselves.
