Constitutional Pluralism in the European Union and Beyond Matej Avbelj, Jan Komárek, 2012-02-29 Constitutional pluralism has become immensely popular among scholars who study European integration and issues of global governance. Some of them believe that constitutionalism, traditionally thought to be bound to a nation state, can emerge beyond state borders - most importantly in the process of European integration, but also beyond that, for example, in international regulatory regimes such as the WTO, or international systems of fundamental rights protection, such as the European Convention. At the same time, the idea of constitutional pluralism has not gone unchallenged. Some have questioned its compatibility with the very nature of law and the values which law brings to constitutionalism. The critiques have come from both sides: from those who believe in the 'traditional' European constitutionalism based on a hierarchically superior authority of the European Union as well as from scholars focusing on constitutions of particular states. The book collects contributions taking opposing perspectives on constitutional pluralism - some defending and promoting the concept of constitutional pluralism, some criticising and opposing it. While some authors can be called 'the founding fathers of constitutional pluralism', others are young academics who have recently entered the field. Together they offer fresh perspectives on both theoretical and practical aspects of constitutional pluralism, enriching our existing understanding of the concept in current scholarship.

Leave Love with Me William Lawton, 2023-09-19 Desire for beauty is at the heart of human existence. Some find this meaning out of their religious or spiritual perspective. Some find it at the edge of their traditions. And others find it outside any recognizable tradition. This book speaks especially to the second and third groups of people. Desire releases us to explore difference, and to honor alternatives. Desire shapes our lives in unique ways. It centers our energies for personal and relational change, where difference can be debated, and variety permitted. We might transcend circumstances that limit us.

Desire is more than meaningfulness, it is captivation of mind and spirit to life's possibility. In my discovery, desire is an abandonment to beauty.

The UAW's Southern Gamble Stephen J. Silvia, 2023-05-15 The UAW's Southern Gamble is the first in-depth assessment of the United Auto Workers' efforts to organize foreign vehicle plants (Daimler-Chrysler, Mercedes-Benz, Nissan, and Volkswagen) in the American South since 1989, an era when union membership declined precipitously. Stephen J. Silvia chronicles transnational union cooperation between the UAW and its counterparts in Brazil, France, Germany, and Japan and documents the development of employer strategies that have proven increasingly effective at thwarting unionization. Silvia shows that when organizing, unions must now fight on three fronts: at the worksite; in the corporate boardroom; and in the political realm. The UAW's Southern Gamble makes clear that the UAW's failed campaigns in the South can teach hard-won lessons about challenging the structural and legal roadblocks to union participation and effectively organizing workers within and beyond the auto industry.

Incarceration Around the World Craig Russell, 2015-02-03 In one wing of Sweden's top-security prison, red drapes hang from the ceiling while small candles burn on an altar and men kneel in prayer; prisoners can apply to spend some of their sentence in religious meditation. Meanwhile, the guards at Jyderup State Prison in Denmark don't wear uniforms, and they don't carry guns. Prisons in the Congo, on the other hand, are so bad that, according to the New York Times, If there is a worse place on earth than a Congolese prison, stay well away. Incarceration Around the World describes prison conditions on every continent, from Malawi and Kenya in Africa to China and India in Asia, from Brazil and Venezuela in South America to European nations like Sweden and Denmark.

The Drama of Celebrity Sharon Marcus, 2020-08-11 Why do so many people care so much about celebrities? Who decides who gets to be a star? What are the privileges and pleasures of fandom? Do celebrities ever deserve the outsized attention they receive? In this fascinating and deeply researched book, Sharon Marcus challenges everything you thought you knew about our obsession with fame. Icons are not merely famous for being famous; the media alone cannot make or break stars; fans are not simply passive dupes. Instead, journalists, the public, and celebrities themselves all compete, passionately and expertly, to shape the stories we tell about celebrities and fans. The result: a high-stakes drama as endless as it is unpredictable. Drawing on scrapbooks, personal diaries, and vintage fan mail, Marcus traces celebrity culture back to its nineteenth-century roots, when people the world over found themselves captivated by celebrity chefs, bad-boy poets, and actors such as the divine Sarah Bernhardt (1844-1923), as famous in her day as the Beatles in theirs. Known in her youth for sleeping in a coffin, hailed in maturity as a woman of genius, Bernhardt became a global superstar thanks to savvy engagement with her era's most innovative media and technologies: the popular press, commercial photography, and speedy new forms of travel. Whether you love celebrity culture or hate it, *The Drama of Celebrity* will change how you think about one of the most important phenomena of modern times.

The European Union as Protector and Promoter of Equality Thomas Giegerich, 2020-07-06 This book considers the European Union as a project with a major antidiscrimination goal, which is important to remember at a time of increasing resentment against particularly exposed groups, especially migrants, refugees, members of ethnic or religious minorities and LGBTI persons. While equality and non-discrimination have long been core principles of the international community as a whole, as is made obvious by the UN Charter and the Universal Declaration of Human Rights, they have shaped European integration in a particular way. The concepts of diversity, pluralism and equality have always been inherent in that process, the EU being virtually founded on the values of equality and non-discrimination. The Charter of Fundamental Rights of the EU contains the most modern and extensive catalogue of prohibited grounds of discrimination, supplementing the catalogue enshrined in the European Convention on Human Rights. EU law has given new impulses to antidiscrimination law both within Europe and beyond. The contributions to this book focus on how effective and credible the EU has been in combatting discrimination inside and outside Europe. The authors present different (mostly legal) aspects of that topic and examine them from various intra- and extra-European angles.

Transforming Postsecondary Foreign Language Teaching in the United States Janet Swaffar, Per Urlaub, 2014-07-25 This volume addresses critical challenges and issues facing foreign language departments in colleges and universities across the U.S. It presents the insights of individuals who have built or are in the process of building foreign language curricula during a major transition period in postsecondary institutions. The authors of this volume come from various language departments and institutional experience from across the U. S., including private and public postsecondary foreign language teachers, researchers and administrators. The chapters address issues and provide templates for curricular change at all learning levels. The five sections of this book explore: Changing Perceptions about Foreign Language Learning; The Case for a Multi-literacy FL Curriculum in Concept and Assessment Praxis; Curricular Transformations: Historical Hurdles and Faculty Heuristics; Rethinking the Graduate Curriculum; Foreign Languages' Integration into the Interdisciplinary University. "This thought-provoking and timely volume addresses the question of how historic and current disciplinary, institutional and political conditions affect curricular transformation in collegiate foreign language programs. Responding to the issues raised in the 2007 MLA Report, this collection of nine essays presents a diversity of curricular models and approaches from different theoretical perspectives focusing on the integration of language and content. The book will undoubtedly be of great interest to a broad audience, such as foreign language educators, curriculum designers, administrators, graduate students and researchers." Michel Ocelot Laura Buono, 2023-12-01 This unique book examines the career of Michel Ocelot, from his earliest works to his latest research and productions, including an interview regarding his latest film *Le Pharaon, le Sauvage et la Princesse* (2022). The book highlights the director's role in the panorama of contemporary animated cinema and his relationship with the tradition, both artistic and cinematographic. The book carefully analyses the ethical and social nature of Ocelot's work to underscore the duality of the director's oeuvre, both artistic and social, using an interdisciplinary approach that blends film and aesthetic criticism with gender studies and decolonial thought.
