Gramática del griego moderno en español Víctor Valls Jové, 2023-06-20 Esta primera Gramática del griego moderno está pensada para los que no tienen conocimientos previos de griego y necesitan leer los comentarios gramaticales en su propia lengua. Pero también para agilizar el estudio del neogriego a los estudiantes de diversos niveles de lengua griega. Igualmente, numerosos y pertinentes ejemplos en griego, siempre traducidos al es-pañol, facilitan la comprensión de las estructuras gramaticales descritas y comentadas previamente. La gramática que aquí se presenta se basa en la variedad popular (dimotikí), que es la lengua oficial griega, que todo el mundo habla y se aprende en la escuela. Pero cuando conviene se hace referencia a la variedad arcaizante (katharévussa), parecida, pero no igual, a la lengua griega clásica, por su importante y permanente presencia en la lengua culta, formal y literaria de la lengua griega moderna. Esta gramática de Víctor Valls está especialmente dirigida a estudiantes en general, a universitarios del programa Erasmus que se desarrolla en Grecia, o también a personas que aprenden griego por motivos profesionales o personales. En definitiva, un libro imprescindible para adentrarse pedagógicamente en los meandros del griego moderno y para entenderlo mejor.
