**Susan L. Trollinger, William Vance Trollinger Jr.**

*Righting America at the Creation Museum* Susan L. Trollinger, William Vance Trollinger Jr., 2016-05-15 What does the popularity of the Creation Museum tell us about the appeal of the Christian right? On May 28, 2007, the Creation Museum opened in Petersburg, Kentucky. Aimed at scientifically demonstrating that the universe was created less than ten thousand years ago by a Judeo-Christian god, the museum is hugely popular, attracting millions of visitors over the past eight years. Surrounded by themed topiary gardens and a petting zoo with camel rides, the site conjures up images of a religious Disneyland. Inside, visitors are met by dinosaurs at every turn and by a replica of the Garden of Eden that features the Tree of Life, the serpent, and Adam and Eve. In *Righting America at the Creation Museum*, Susan L. Trollinger and William Vance Trollinger, Jr., take readers on a fascinating tour of the museum. The Trollingers vividly describe and analyze its vast array of exhibits, placards, dioramas, and videos, from the Culture in Crisis Room, where videos depict sinful characters watching pornography or considering abortion, to the Natural Selection Room, where placards argue that natural selection doesn't lead to evolution. The book also traces the rise of creationism and the history of fundamentalism in America. This compelling book reveals that the Creation Museum is a remarkably complex phenomenon, at once a "natural history" museum at odds with contemporary science, an extended brief for the Bible as the literally true and errorless word of God, and a powerful and unflinching argument on behalf of the Christian right.

**Medieval Tapestries in the Metropolitan Museum of Art** Metropolitan Museum of Art (New York, N.Y.), Adolph S. Cavallo, 1993 A study of the condition, subject, design, manufacture, ownership, and exhibitions for each tapestry or set of tapestries in the Museum's medieval tapestry collection. -- Metropolitan Museum of Art.

**Blood Theology** Eugene F. Rogers, Jr., 2021-03-25 The unsettling language of blood has been invoked throughout the history of Christianity. But until now there has been no truly sustained treatment of how Christians use blood to think with. Eugene F. Rogers Jr. discusses in his much-anticipated new book the sheer, surprising strangeness of Christian blood-talk, exploring the many and varied ways in which it offers a language where Christians cooperate, sacrifice, grow and disagree. He asks too how it is that blood-talk dominates when other explanations would do, and how blood seeps into places where it seems hardly to belong. Reaching beyond academic disputes, to consider how religious debates fuel civil ones, he shows that it is not only theologians or clergy who engage in blood-talk, but also lawmakers, judges, generals, doctors and voters at

large. Religious arguments have significant societal consequences, Rogers contends; and for that reason secular citizens must do their best to understand them.

*Relics of the Christ* Joe Nickell, 2007-03-16 Religious relics, defined as either portions of or objects connected with the body of a saint or other holy person, are among the most revered items in the world. Christian relics such as the Holy Grail, the True Cross, and the Lance of Longinus are also the source of limitless controversy. Such items have incited people to bloodshed and, some say, have been a source of miracles. Relics inspire fear and hope among the faithful and yet are a perennial target for skeptics, both secular and Christian. To research the authenticity of numerous Christian relics, Joe Nickell takes a scientific approach to a field of study all too often tainted by premature conclusions. In this volume, Nickell investigates such renowned relics as the Shroud of Turin, the multiple heads of John the Baptist, and the supposedly incorruptible corpses of saints, first examining the available evidence and documented history of each item. From accounts of true believers to the testimony of the relics' alleged fabricators, Nickell then presents all sides of each story, allowing the evidence to speak for itself. For each relic, Nickell evaluates both the corroborating and contradictory bodies of evidence and explores whether the relic and attributed miracles can be reconstructed. In addition to his own experiments, Nickell presents findings from the world's top scientists and historians regarding these controversial objects of reverence and ire, explaining the circumstances under which each case was examined. Radiocarbon dating and tests to determine the validity of substances such as blood or patina indicate a variety of possible origins. Nickell even reveals some of the techniques used to create archaeological forgeries and explains how investigators have exposed them. Each relic is a mystery to be solved; guided by the maxim, extraordinary claims require extraordinary proof, Nickell seeks only the truth.

Museums John E. Simmons, 2016-07-07 This comprehensive history of museums begins with the origins of collecting in prehistory and traces the evolution of museums from grave goods to treasure troves, from the Alexandrian Temple of the Muses to the Renaissance cabinets of curiosities, and onto the diverse array of modern institutions worldwide. The development of museums as public institutions is explored in the context of world history with a special emphasis on the

significance of objects and collecting. The book examines how the successful exportation of the European museum model and its international adaptations have created public institutions that are critical tools in diverse societies for understanding the world. Rather than focusing on a specialized aspect of museum history, this volume provides a comprehensive synthesis of museums worldwide from their earliest origins to the present. *Museums: A History* tells the fascinating story of how museums respond to the needs of the cultures that create them. Readers will come away with an understanding of: the comprehensive history of museums from prehistoric collections to the present the evolution of museums presented in the context of world history the development of museums considered in diverse cultural contexts global perspective on museums the object-centered history of museums museums as memory institutions A constant theme throughout the book is that museums have evolved to become institutions in which objects and learning are associated to help human beings understand the world around them. Illustrations amplify the discussions.

**The Woman with the Blood Flow (Mark 5:24-34)** Barbara Baert, Niels Schalley, 2014 This publication starts from a particular passage in the New Testament that tells the story of a woman with an issue of blood. The gospel relates how the so-called Haemorrhissa is healed the very moment she touches Christ's garment. This publication forms the first - and so far the only - interdisciplinary study of this particular biblical motif from an exegetical, art-historical and anthropological point of view. Contributing scholars interpret the impact of this biblical miracle on Christian texts, material culture and healing archetypes in the Middle Ages and Early Modernity. The story and its *Nachleben* in literary commentaries and various iconographies unveil a particular energy in Christendom related to ideas about the female body, the role of textile, and the magical impact of touch. This volume contributes to all research in the humanities concerned with gender, the sensorium, Judeo-Christian attitudes towards blood and taboo, and early Christian material culture in the East and West. Its trajectory ultimately reveals the crucial mystery at the heart of image-making as such.

*Blood Men* Paul Cleave, 2010-05-01 A suspense-filled novel from the internationally acclaimed crime writer. Edward Hunter is a family man with a beautiful wife and daughter, a great job, a bright future, and a very dark past. Edward's father is a man of blood. He's been in jail for twenty years and he's never coming out. Edward has struggled his entire life to put that all behind him, but it's hard when everybody knows you're the son of a serial killer. Then, a week out from Christmas, Eddie's world is turned upside-down. Suddenly he's going to need the help of his father, a man he hasn't seen since he was a boy. Is Edward destined to be just like his father, to become a man of blood? Most people come back from New Zealand talking about the breathtaking scenery and the amazing experiences. I came back raving about Paul Cleave. These are stories that you won't forget in a while: relentlessly gripping, deliciously twisted and shot through with a vein of humour that's as dark as hell. Anyone who likes their crime fiction on the black and bloody side should move Paul Cleave straight to the top of their must-read list. - Mark Billingham.

**Back to Blood** Tom Wolfe, 2012-10-23 A big, panoramic story of the new America, as told by our master chronicler of the way we live now. As a police launch speeds across Miami's Biscayne Bay -- with officer Nestor Camacho on board -- Tom Wolfe is off and running. Into the feverous landscape of the city, he introduces the Cuban mayor, the black police chief, a wanna-go-muckraking young journalist and his Yale-marinated editor; an Anglo sex-addiction psychiatrist and his Latina nurse by day, loin lock by night-until lately, the love of Nestor's life; a refined, and oh-so-light-skinned young woman from Haiti and her Creole-spouting, black-gang-banger-stylin' little brother; a billionaire porn addict, crack dealers in the 'hoods, de-skilled conceptual artists at the Miami Art Basel Fair, spectators at the annual Biscayne Bay regatta looking only for that night's orgy, yenta-heavy ex-New Yorkers at an Active Adult condo, and a nest of shady Russians. Based on the same sort of detailed, on-scene, high-energy reporting that powered Tom Wolfe's previous bestselling novels, *Back to Blood* is another brilliant, spot-on, scrupulous, and often hilarious reckoning with our times.

**Heavenly Bodies** Andrew Bolton, Barbara Drake Bohem, Marzia Cataldi Gallo, C. Griffith Mann, David Morgan, Gianfranco Cardinal Ravasi, David Tracy, 2018-05-07 Since antiquity, religious beliefs and practices have inspired many of the world's greatest works of art. These masterworks have, in turn, fueled the imaginations of fashion designers in the 20th and 21st centuries, yielding some of the most innovative creations in the history of fashion. *Heavenly Bodies: Fashion and the Catholic Imagination* explores fashion's complex and often controversial relationship with Catholicism by examining the role of spirituality and religion in contemporary culture. This two-volume publication connects significant religious art and artifacts to their sartorial expressions. One volume features images of rarely seen objects from the Vatican —ecclesiastical garments and accessories—while the other focuses on fashions by designers such as Cristobal Balenciaga, Domenico Dolce and Stefano Gabbana, John Galliano, Jean Paul Gaultier, Madame Grès, Christian Lacroix, Karl Lagerfeld, Jeanne Lanvin, Claire McCardell, Thierry Mugler, Elsa Schiaparelli, and Gianni Versace. Essays by art historians and leading religious authorities provide perspective on how dress manifests—or subverts—Catholic values and ideology.

**Six Days** Ken Ham, 2013-11-01 Discover how many evangelical leaders, willingly or unwittingly, are undermining the authority of God's Word by compromising the Bible in Genesis Learn how allowing for an old/universe of billions of years unlocks a door of compromise Heed the wake-up call to the Church to return to the authority of God's Word, beginning in

Genesis. Today, most Bible colleges, seminaries, K-12 Christian schools, and now even parts of the homeschool movement do not accept the first eleven chapters of Genesis as literal history. They try to fit the supposed billions of years into Genesis, and some teach evolution as fact. Our churches are largely following suit. Ken Ham, international speaker and author on biblical authority, examines how compromise starting in Genesis, particularly in regard to the six days of creation and the earth's age, have filtered down from the Bible colleges and seminaries to pastors—and finally to parents and their children. This erosive legacy is seen in generations of young people leaving the Church—2/3 of them. Get the facts, discover God's truth, and help bring a new reformation to the Church by helping to call it back to the authority of God's Word.
