**Andrew Rowcroft**

**The City & The City** China Miéville, 2010-04-27 NAMED ONE OF THE BEST BOOKS OF THE YEAR BY THE LOS ANGELES TIMES, THE SEATTLE TIMES, AND PUBLISHERS WEEKLY When a murdered woman is found in the city of Beszel, somewhere at the edge of Europe, it looks to be a routine case for Inspector Tyador Borlú of the Extreme Crime Squad. To investigate, Borlú must travel from the decaying Beszel to its equal, rival, and intimate neighbor, the vibrant city of Ul Qoma. But this is a border crossing like no other, a journey as psychic as it is physical, a seeing of the unseen. With Ul Qoman detective Qussim Dhatt, Borlú is enmeshed in a sordid underworld of nationalists intent on destroying their neighboring city, and unificationists who dream of dissolving the two into one. As the detectives uncover the dead woman's secrets, they begin to suspect a truth that could cost them more than their lives. What stands against them are murderous powers in Beszel and in Ul Qoma: and, most terrifying of all, that which lies between these two cities.

**The City & The City** China Miéville, 2010-01-01 With shades of Kafka and Philip K. Dick, Raymond Chandler and 1984, the multi-award winning *The City & The City* by China Miéville is a murder mystery taken to dazzling metaphysical and artistic heights. 'You can't talk about Miéville without using the word brilliant.' - Ursula Le Guin, author of the *Earthsea* series. When the body of a murdered woman is found in the extraordinary, decaying city of Beszel, somewhere at the edge of Europe, it looks like a routine case for Inspector Tyador Borlú of the Extreme Crime Squad. But as he probes, the evidence begins to point to conspiracies far stranger, and more deadly, than anything he could have imagined. Soon his work puts him and those he cares for in danger. Borlú must travel to the only metropolis on Earth as strange as his own, across a border like no other. Adapted into the BBC Two series *The City And The City* starring David Morrissey.

**Art and Idea in the Novels of China Miéville** Carl Freedman, 2015-09-07 This book offers (in the first six chapters) critical readings of six novels by China Miéville, which are followed (in the seventh chapter) by a theoretical meditation on some of the conceptual issues raised by and engaged in the Miéville oeuvre. There comes a moment in *The City & the City*, though it is not necessarily the same moment for every reader, when you realise that Beszel and Ul Qoma are not separate realms but the same space divided. Likewise, art and idea are often subject to absurd partition, but then along comes an author such as China Miéville who shows them to be, in truth, indissoluble. So argues Freedman's inordinately readable and

just as rigorous account of Miéville's major novels. Highly recommended. (Mark Bould, University of the West of England)

Freedman offers a compelling interpretation of Miéville's novels informed equally by an impressive range of literary influences and a carefully documented exploration of historical antecedents. Seeing Miéville's genre hybridity as an illustration of the power of dialectical thinking, Freedman illuminates the complex utopian project of Miéville's fiction. Freedman is one of our finest critical voices on Miéville, one of the most important speculative writers of the 21st century. (Sherryl Vint, University of California, Riverside)

Unlocking Social Theory with Popular Culture Naomi Barnes, Alison Bedford, 2021-08-26 This book demonstrates how pop culture examples can be used to demystify complex social theory. It provides tangible, metaphorical examples that shows how it is possible to do philosophy rather than subscribe to a theorist by showing that each theorist intersects and overlaps with others. The book is embedded in the literary theory that tapping into background knowledge is a key step in helping people engage with new and difficult texts. It also acknowledges the important role of popular culture in developing comprehension. Using a choose your own adventure structure, this book not only shows students of social theory how various theories can be applied but also reveals the multitude of possible pathways theory provides for comprehending society.

**The City and the Hospital** Daniel Skinner, Jonathan R. Wynn, Berkeley Franz, 2023-11-07 In this project, sociologists Jonathan R. Wynn and Berkeley Franz and political scientist Daniel Skinner set out to examine why so many communities surrounding hospitals are economically distressed and medically underserved. On the one hand, hospitals anchor the communities that surround them often staying in their communities for decades. Hospitals craft strategies to engage with the surrounding community, many of them focused on buying and hiring locally. On the other hand, hospitals will often only provide care to the surrounding community through emergency rooms designed to manage crises quickly, reserving advanced medical care and long-term treatment for those who can pay for it. Many hospitals buy real estate in their neighborhoods and advocate for development programs that drive gentrification and displacement. To understand how urban health care institutions work with their communities, the authors address power, history, race, and urbanity as much as the workings of the medical field. The project focuses on three urban hospitals: Connecticut's Hartford Hospital, the crown jewel of the Hartford Healthcare system; the Cleveland Clinic, which coordinates with other providers for routine care while its main campus provides specialty care; and the University of Colorado Hospital, a rare example of an anchor institution that

moved out of its urban area. Through this examination, the authors recast urban hospitals in a new light: as not only medical institutions, but also a complex urban force--

**Alterity and Capitalism in Speculative Fiction** Tomás Vergara, 2023-10-04 Speculative fiction has been traditionally studied in Marxist literary criticism, following Darko Suvin's paradigmatic model of science fiction, according to a hierarchical division of its multiple subgenres in terms of their assumed inherent political value. By drawing on an alternative genealogy of Marxist criticism, this book presents a non-hierarchical understanding of the estrangement connecting all varieties of speculative fiction, outlining the political potential shared across the spectrum of speculative fiction, along with the specific narrative strategies by which it critically engages with its historical context of production. This study's main point of contention is that speculative fiction performs an estrangement effect on historical reality that can potentially render visible the role of fantasies in the organisation of capitalist social practice. This narrative effect enables an estranged perspective by which the novel interprets and conceptualises historical reality in a totalising manner.

**The Cambridge Companion to the City in Literature** Kevin R. McNamara, 2014-10-06 This Companion offers readers an accessible survey of the historical and symbolic relationships between literature and the city.

Deleuze and the City Helene Frichot, 2016-01-27 Defining the lives of a majority of the world's population, the question of 'the city' has risen to the fore as one of the most urgent issues of our time &quot; uniting concerns across the terrain of climate policies, global financing, localised struggles and multi-disciplinary research. *Deleuze and the City* rests on a conviction that philosophy is crucially important for advancing knowledge on cities, and for allowing us to envisage new forms of urban life toward a more sustainable future. It gathers some of the most original thinkers and accomplished scholars in contemporary urban studies, showing how Deleuze and Guattari's philosophical project is essential for our thinking through the multi-scalar, uneven and contested landscapes that constitute 'the city' today. Case studies range from the 'laboratory urbanism' of an Austrian ski resort and a 'sustainable' Swedish shopping mall to the 'urbicidal' refurbishments of Haifa.

*Space(s) of the Fantastic* David Punter, C. Bruna Mancini, 2020-12-29 This book provides a series of new addresses to the enduring problem of how to categorize the Fantastic. The approach taken is through the lens of spatiality; the Fantastic gives us new worlds, although of course these are refractions of worlds already in being. In place of 'real' spaces (whatever they might be), the Fantastic gives us imaginary spaces, although within those spaces historical and cultural conflicts are played out, albeit in forms that stretch our understanding of everyday location, and our usual interpretations of cause and effect. Many authors are addressed here, from a variety of different geographical and national traditions, thus demonstrating how the Fantastic - as a mode, a genre, a way of thinking, imagining and writing - continually traverses borders and boundaries. We hope to move the ongoing debate about the Fantastic forward in a scholarly as well as an engaging way.

*Fast Forward* Holly Willis, 2016-08-16 Cinema, the primary vehicle for storytelling in the twentieth century, is being reconfigured by new media in the twenty-first. Terms such as worldbuilding, virtual reality, and transmedia introduce new methods for constructing a screenplay and experiencing and sharing a story. Similarly, 3D cinematography, hypercinema, and visual effects require different modes for composing an image, and virtual technology, motion capture, and previsualization completely rearrange the traditional flow of cinematic production. What does this mean for telling stories? *Fast Forward* answers this question by investigating a full range of contemporary creative practices dedicated to the future of mediated storytelling and by connecting with a new generation of filmmakers, screenwriters, technologists, media artists, and designers to discover how they work now, and toward what end. From Chris Milk and Aaron Koblin's exploration of VR spherical filmmaking to Rebeca Méndez's projection and installation work exploring climate change to the richly mediated interactive live performances of the collective Cloud Eye Control, this volume captures a moment of creative evolution and sets the stage for imagining the future of the cinematic arts.

Semiotic Approaches to Urban Space Federico Bellentani, Mario Panico, Lia Yoka, 2024-02-12 This book outlines the future of semiotic research in the study of urban spaces, with chapters authored by leading scholars in the field. It offers thought-provoking explanations of semiotic theory, methodology and applications with the goal of exploring recently developed approaches to the interpretive aspects of urban space. This title contains one or more Open Access chapters.

Red Metropolis Owen Hatherley, 2020-11-10 A polemical history of municipal socialism in London - and an argument for turning this capitalist capital red again. A polemical history of municipal socialism in London -- and an argument for turning this capitalist capital red again. London is conventionally seen as merely a combination of the financial centre in the City and the centre of governmental power in Westminster, a uniquely capitalist capital city. This book is about the third London - a social democratic twentieth-century metropolis, a pioneer in council housing, public enterprise, socialist design, radical local democracy and multiculturalism. This book charts the development of this municipal power base under leaders from Herbert Morrison to Ken Livingstone, and its destruction in 1986, leaving a gap which has been only very inadequately filled by the Greater London Authority under Livingstone, Boris Johnson and Sadiq Khan. Opposing currently fashionable bullshit about an imaginary metropolitan elite, this book makes a case for London pride on the left, and makes an argument for using that pride as a weapon against a government of suburban landlords that ruthlessly exploits Londoners.

*New Materialisms Ancient Urbanisms* Susan M. Alt, Timothy R. Pauketat, 2019-08-05 The future of humanity is urban, and knowledge of urbanism's deep past is critical for us all to navigate that future. The time has come for archaeologists to rethink this global phenomenon by asking what urbanism is and, more to the point, was. Can we truly understand ancient urbanism by only asking after the human element, or are the properties and qualities of landscapes, materials, and atmospheres equally causal? The nine authors of *New Materialisms Ancient Urbanisms* seek less anthropocentric answers to

questions about the historical relationships between urbanism and humanity in Africa, Asia, and the Americas. They analyze the movements and flows of materials, things, phenomena, and beings—human and otherwise—as these were assembled to produce the kinds of complex, dense, and stratified relationships that we today label urban. In so doing, the book emerges as a work of both theory and historical anthropology. It breaks new ground in the archaeology of urbanism, building on the latest ‘New Materialist’, ‘relational-ontological’, and ‘realist’ trends in social theory. This book challenges a new generation of students to think outside the box, and provides scholars of urbanism, archaeology, and anthropology with a fresh perspective on the development of urban society.

**The Hidden Globe** Atossa Araxia Abrahamian, 2024-10-08 ONE OF THE WASHINGTON POST'S TOP 10 BEST BOOKS OF 2024 A NEW YORK TIMES NOTABLE BOOK OF THE YEAR “Vivid, revelatory, and politically unpredictable...What bothers Abrahamian, in the end, isn’t the anarchic but the unfair; if capital is free, people deserve the same respect.” — Gideon Lewis-Kraus, *The New Yorker* A season of unrest looms ahead, and *The Hidden Globe* lays out the unvarnished truth in a luminous feat of reportage.”—Hamilton Cain, *Minneapolis Star Tribune* Borders draw one map of the world; money draws another. A journalist’s riveting account exposes a parallel universe that has become a haven for the rich and powerful. A globe shows the world we think we know: neatly delineated sovereign nations that grant or restrict their citizens’ rights. Beneath, above, and tucked inside their borders, however, another universe has been engineered into existence. It consists of thousands of extraterritorial zones that operate largely autonomously, and increasingly for the benefit of the wealthiest individuals and corporations. Atossa Abrahamian traces the rise of this hidden globe to thirteenth-century Switzerland, where poor cantons marketed their only commodity: bodies, in the form of mercenary fighters. Over time, economists, theorists, statesmen, and consultants evolved ever more sophisticated ways of exporting and exploiting statelessness, in the form of free trade zones, flags of convenience, offshore detention centers, charter cities controlled by foreign corporations, and even into outer space. By mapping this countergeography, which decides who wins and who loses in the new global order—and helping us to see how it might be otherwise—*The Hidden Globe* fascinates, enrages, and inspires.

*Spatial Justice in the City* Sophie Watson, 2019-11-04 In the context of increasing division and segregation in cities across the world, along with pressing concerns around austerity, environmental degradation, homelessness, violence, and refugees, this book pursues a multidisciplinary approach to spatial justice in the city. Spatial justice has been central to urban theorists in various ways. Intimately connected to social justice, it is a term implicated in relations of power which concern the spatial distribution of resources, rights and materials. Arguably there can be no notion of social justice that is not spatial. Philippopoulos-Mihalopoulos has argued that spatial justice is the struggle of various bodies – human, natural, non-organic, technological – to occupy a certain space at a certain time. As such, urban planning and policy interventions are always, to some extent at least, about spatial justice. And, as cities become ever more unequal, it is crucial that urbanists address

questions of spatial justice in the city. To this end, this book considers these questions from a range of disciplinary perspectives. Crossing law, sociology, history, cultural studies, and geography, the book's overarching concern with how to think spatial justice in the city brings a fresh perspective to issues that have concerned urbanists for several decades. The inclusion of empirical work in London brings the political, social, and cultural aspects of spatial justice to life. The book will be of interest to academics and students in the field of urban studies, sociology, geography, planning, space law, and cultural studies.

Onto-Cartography Levi R. Bryant, 2014-03-17 Defends and transforms naturalism and materialism to show how culture itself is formed by nature. Bryant endorses a pan-ecological theory of being, arguing that societies are ecosystems that can only be understood by considering nonhuman material agencies such as rivers and mountain ranges alongside signifying agencies such as discourses, narratives and ideologies.

**The Crisis of Capitalism in the Contemporary Novel** Andrew Rowcroft, 2024-02-16 This book explores the role of radical ideas in contemporary fiction by nine critically acclaimed authors--Jonathan Lethem, Dana Spiotta, China Mieville, Thomas Pynchon, Rachel Kushner, Teddy Wayne, Colson Whitehead, Jacqueline Woodson, and Kim Stanley Robinson. All of them share interests in the politics of the left, the problems of protracted economic crisis, and the potentiality of post-capitalist ideas. Novels by these authors, this book argues, are defined by an imperative to confront current anxieties in left-thought, while, at the same time, evincing a nuanced degree of self-consciousness about the legacy of political radicalisms, the costs they accrue, and where they have led.

*The Way to the Spring* Ben Ehrenreich, 2016-06-14 From an award-winning journalist, a brave and necessary immersion into the everyday struggles of Palestinian life Over the past three years, American writer Ben Ehrenreich has been traveling to and living in the West Bank, staying with Palestinian families in its largest cities and its smallest villages. Along the way he has written major stories for American outlets, including a remarkable New York Times Magazine cover story. Now comes the powerful new work that has always been his ultimate goal, *The Way to the Spring*. We are familiar with brave journalists who travel to bleak or war-torn places on a mission to listen and understand, to gather the stories of people suffering from extremes of oppression and want: Katherine Boo, Ryszard Kapuściński, Ted Conover, and Philip Gourevitch among them. Palestine is, by any measure, whatever one's politics, one such place. Ruled by the Israeli military, set upon and harassed constantly by Israeli settlers who admit unapologetically to wanting to drive them from the land, forced to negotiate an ever more elaborate and more suffocating series of fences, checkpoints, and barriers that have sundered home from field, home from home, this is a population whose living conditions are unique, and indeed hard to imagine. In a great act of bravery, empathy and understanding, Ben Ehrenreich, by placing us in the footsteps of ordinary Palestinians and telling their story with surpassing literary power and grace, makes it impossible for us to turn away.
