**The Art of Clothing: A Pacific Experience** Susan Kuchler, Graeme Were, 2014-05-22 The Art of Clothing: A Pacific Experience is a collection of richly textured and tremendously engaging empirical studies of cloth and clothing in colonial and post-colonial Pacific contexts. By challenging readers to reconsider the very nature of the materiality of clothing, the editors productively situate this volume at the intersection of a number of ongoing interdisciplinary projects that are coalescing around an interest in cloth and clothing. The book as a whole speaks lucidly to issues of current concern in a wide range of academic fields - including cultural studies, material culture, Pacific history, art history, history of religions, and museum studies.

**Clothing Poverty** Andrew Brooks, 2019-10-15 Have you ever stopped and wondered where your jeans came from? Who made them and where? Ever wondered where they end up after you donate them for recycling? Following a pair of jeans, Clothing Poverty takes the reader on a vivid around-the-world tour to reveal how clothes are manufactured and retailed, bringing to light how fast fashion and recycling are interconnected. Andrew Brooks shows how recycled clothes are traded across continents, uncovers how retailers and international charities are embroiled in commodity chains which perpetuate poverty, and exposes the hidden trade networks which transect the globe. In this new and updated edition, Brooks retraces his steps to look at the fashion industry today, and considers how, if at all, the industry has changed in response to mounting consumer pressure for more ethical clothing. Stitching together rich narratives, from Mozambican markets, Nigerian smugglers and Chinese factories to London's vintage clothing scene, TOMS shoes and Vivienne Westwood's ethical fashion lines, Brooks uncovers the many hidden sides of fashion.

**The Oxford Encyclopedia of Women in World History** Bonnie G. Smith,2008 The *Encyclopedia of Women in World History* captures the experiences of women throughout world history in a comprehensive, 4-volume work. Although there has been extensive research on women in history by region, no text or reference work has comprehensively covered the role

women have played throughout world history. The past thirty years have seen an explosion of research and effort to present the experiences and contributions of women not only in the Western world but across the globe. Historians have investigated women's daily lives in virtually every region and have researched the leadership roles women have filled across time and region. They have found and demonstrated that there is virtually no historical, social, or demographic change in which women have not been involved and by which their lives have not been affected. The Oxford Encyclopedia of Women in World History benefits greatly from these efforts and experiences, and illuminates how women worldwide have influenced and been influenced by these historical, social, and demographic changes. The Encyclopedia contains over 1,250 signed articles arranged in an A-Z format for ease of use. The entries cover six main areas: biographies; geography and history; comparative culture and society, including adoption, abortion, performing arts; organizations and movements, such as the Egyptian Uprising, and the Paris Commune; women's and gender studies; and topics in world history that include slave trade, globalization, and disease. With its rich and insightful entries by leading scholars and experts, this reference work is sure to be a valued, go-to resource for scholars, college and high school students, and general readers alike.
