Stephanie Burrows

**Die Entdeckung Amerikas** Urs Bitterli, 1999

*Bibliografia Colombina, 1492-1990*, 1990

**From Expressionism to Exile** Christa Spreizer, 1999 This is the first general study in English on the German Expressionist writer Walter Hasenclever (1890-1940) and the first that draws upon new materials found in his collected works, which were completed in 1997. It draws additionally on the author's archival research in eastern Germany. Spreizer's work deals with the life and writings of this major figure in the Expressionist literary movement, first known for his volume of Expressionist poetry *Der Jungling* (1913), and best known today for his groundbreaking Expressionist drama *Der Sohn* (1914).

*Adpositions* Claude Hagège, 2010-04-29 This pioneering study is based on an analysis of over 200 languages, including African, Amerindian, Australian, Austronesian, Indo-European and Eurasian (Altaic, Caucasian, Chukotko-Kamchatkan, Dravidian, Uralic), Papuan, and Sino-Tibetan. Adpositions are an almost universal part of speech. English has prepositions; some languages, such as Japanese, have postpositions; others have both; and yet others kinds that are not quite either. As grammatical tools they mark the relationship between two parts of a sentence: characteristically one element governs a noun or noun-like word or phrase while the other functions as a predicate. From the syntactic point of view, the complement of an adposition depends on a head: in this last sentence, for example, a head is the complement of *on* while *on* a head depends on *depends* and *on* is the marker of this dependency. Adpositions lie at the core of the grammar of most languages, their usefulness making them recurrent in everyday speech and writing. Claude Hagège examines their morphological features, syntactic functions, and semantic and cognitive properties. He does so for the subsets both of adpositions that express the relations of agent, patient, and beneficiary, and of those which mark space, time, accompaniment, or instrument. Adpositions often govern case and are sometimes gradually grammaticalized into case. The author considers the whole set of function markers, including case, that appear as adpositions and, in doing so, throws light on processes of morphological and syntactic change in different languages and language families. His book will be welcomed by typologists and by syntacticians and morphologists of all theoretical stripes.

*Cultural Encounters in the New World* Harald Zapf, Klaus Lösch, 2003

**Tucholsky and France** Stephanie Burrows, 2001 In his final 'Q-Tagebuch' report to Hedwig Muller dated 19 December 1935 Tucholsky declared: 'Dass ich mein Leben zerhauen habe, weiss ich. Dass ich nicht allein daran schuld bin, weiss ich aber auch. Mein Gott, ware ich in Frankreich geboren...!' Combining biographical investigation with an analysis of Tucholsky's published journalism, this study sets out to assess the significance of the contact with France and French culture in Tucholsky's life and work It shows the extent to which he was influenced by the French cultural and intellectual tradition, and by his first-hand experience of France. It provides new insights into Tucholsky's life in France, notably his involvement with French freemasonry and the importance of his contacts in French literary, pacifist, and political circles. This study also considers the role Tucholsky played, or attempted to play, in improving Franco-German relations, and reveals the extent of his efforts to promote rapprochement, not only in Germany, but also in France, through behind-the-scenes contact with politicians and diplomats, through lectures, and through his published journalism.

**German Film & Literature** Eric Rentschler, 2013-10-15 First Published in 1986. This collection of essays by an international team of scholars is the first sustained investigation in any language of the historical interactions between German film and literature. It is a book about adaptations and transformations, about why filmmakers adapt certain material at certain times. The major impetus at work is the desire to expand the field of adaptation study to include sociological, theoretical and historical dimensions, and to bring a livelier regard for intertextuality to the studies of German film and literature. It is concerned with the ways in which filmmakers in Germany- from Pabst and von Sternberg to Fassbinder, Herzog and Sanders-Brahms- have engaged and been engaged by, literary history.

**The Discovery of Columbus** Richard D. Bean, 1980

**A Companion to Twentieth-Century German Literature** Raymond Furness, Malcolm Humble, 2003-09-02 Containing entries on over four hundred authors of fiction, poetry and drama from Germany, Austria and Switzerland, this invaluable work of reference presents material of a range and depth that no other book on the subject in English attains. For the second edition, the entries have been updated to include the most recent works of German literature. A number of new entries have been added, dealing in particular with the East German literary scene and the changing literary landscape after reunification. In addition to basic biographical facts, the Companion offers summaries, information on involvement in literary groups and political developments, schools and movements, critical terms and aspects of the other arts, including film.

**The Drama of German Expressionism** Claude Hill, Ralph Ley, 2020-05-01 Originally published in 1960, this bibliography with more than five thousand items provided an indispensable tool for those interested in the German expressionist plays. The volume contains a general bibliography on German expressionistic drama and as well as sixteen

leading German playwrights: Barlach, Brecht, Bronnen, Goering, Hasenclever, Jahn, Johst, Kaiser, Kokoschka, Kornfeld, Rubiner, Sorge, Sternheim, Toller, Unruh, and Werfel.

*Encyclopedia of German Literature* Matthias Konzett, 2015-05-11 Designed to provide English readers of German literature the opportunity to familiarize themselves with both the established canon and newly emerging literatures that reflect the concerns of women and ethnic minorities, the Encyclopedia of German Literature includes more than 500 entries on writers, individual work, and topics essential to an understanding of this rich literary tradition. Drawing on the expertise of an international group of experts, the essays in the encyclopedia reflect developments of the latest scholarship in German literature, culture, and history and society. In addition to the essays, author entries include biographies and works lists; and works entries provide information about first editions, selected critical editions, and English-language translations. All entries conclude with a list of further readings.

*Das Konfessionelle Zeitalter* Harm Klueting, Europa zwischen Renaissance und Frühaufklärung, Religion und Kirche, Glaube und Unglaube, Politik und materielle Kultur vom 15. bis 17. Jahrhundert - das ist Gegenstand der großen kirchengeschichtlichen und allgemeingeschichtlichen Monographie, deren erster Band einen Rezensenten an Fernand Braudels *La Méditerranée et le monde méditerranéen à l'époque de Philipp II* erinnerte, der meinte, in Kluetings Werk so etwas ähnliches für die Kirchengeschichte vor sich zu haben. Band 1 des Werkes erschien 2007 im Primus Verlag Darmstadt und als Lizenzausgabe bei der Wissenschaftlichen Buchgesellschaft Darmstadt. Band 2 im Lit Verlag erschließt die internationale Forschungsliteratur, die für dieses Werk, das sich über ganz Europa erstreckt und die außereuropäischen Missionsräume einbezieht, vor allem auf Deutsch, Englisch, Französisch, Italienisch und Spanisch vorliegt. Berücksichtigt wird aber u.a. auch Literatur in niederländischer, russischer, polnischer und portugiesischer Sprache.

**Colonial Fantasies** Susanne Zantop, 1997-09-10 Since Germany became a colonial power relatively late, postcolonial theorists and histories of colonialism have thus far paid little attention to it. Uncovering Germany's colonial legacy and imagination, Susanne Zantop reveals the significance of colonial fantasies—a kind of colonialism without colonies—in the formation of German national identity. Through readings of historical, anthropological, literary, and popular texts, Zantop explores imaginary colonial encounters of Germans with natives in late-eighteenth- and early-nineteenth-century literature, and shows how these colonial fantasies acted as a rehearsal for actual colonial ventures in Africa, South America, and the Pacific. From as early as the sixteenth century, Germans preoccupied themselves with an imaginary drive for colonial conquest and possession that eventually grew into a collective obsession. Zantop illustrates the gendered character of Germany's colonial imagination through critical readings of popular novels, plays, and travel literature that imagine sexual conquest and surrender in colonial territory—or love and blissful domestic relations between colonizer and colonized. She looks at scientific articles, philosophical essays, and political pamphlets that helped create a racist colonial discourse and

demonstrates that from its earliest manifestations, the German colonial imagination contained ideas about a specifically German national identity, different from, if not superior to, most others.
