Exercising lightens your mood, sharpens your mind, and quickens your reflexes. Your digestion improves, your skin takes on a healthy glow, and that swimsuit ceases to be the enemy.

Muscle Myths Michael Matthews, 2012-03 If you've ever felt lost in the sea of contradictory training and diet advice out there and you just want to know once and for all what works and what doesn't—what's scientifically true and what's false—when it comes to building muscle and getting ripped, then you need to read this book. Let me ask you a question. Do any of the following claims sound familiar? "I have bad genetics—I'm a 'hardgainer.'" "You have to work your abs more to get a six-pack." "When doing cardio, you want your heart rate in the 'fat burning zone.'" "You have to do cardio for 20 minutes before your body starts burning fat." "Don't eat at night if you want to lose weight." "Steroids make you look great." "I'm overweight because I have a slow metabolism." You've probably heard one or more of these statements before, and the sad truth is lies like these have ruined many people's fitness ambitions. There are many, many more. Thanks to the overwhelming amount of fitness pseudo-science and lies being pushed on us every day by bogus magazines and self-styled "gurus," it's

becoming harder and harder to get in shape. Muscle Myths was written to debunk the most commonplace and harmful gimmicks, fads, myths, and misinformation in the health and fitness industry. Here are just some of the things you'll learn in this book: Why you don't have to cut carbohydrates (carbs), or fat, or eat weird combinations of food to lose weight. The truth about supplements and why 99% of them are a complete waste of money (and the few that are actually scientifically proven to work). What it actually takes to "tone up"—and it's not doing "shaping exercises" (these don't exist) or doing a million reps every workout. Why women shouldn't be training differently than men if they want the lean, toned, and sexy type of body that they see in magazines, TV shows, and movies. The scientific secrets of getting a six-pack. Forget 6-minute gimmicks, doing endless crunches, and hours of grueling cardio—it's actually pretty easy when you know what you're doing. Training and diet methods that will completely shatter any perceived "genetic barriers" that you think are holding you back from building a muscular, lean physique that you love. The proper way to stretch so you don't sap your strength and risk injury. (Most people do this wrong and suffer the consequences without even realizing it.) And much more. With the information in this book, you can save the money, time, and frustration of buying into misleading diet plans and products that promise unattainable results. You can become your own personal trainer and start getting real results with your diet and exercise. Scroll up and click the "Buy" button now to learn the no-BS truth of how to look good and feel great without having to endure tortuously restrictive diets or long, grueling exercise routines.

How to Be Richer, Smarter, and Better-Looking Than Your Parents Zac Bissonnette, 2012-04-24 Striking out on your own for the first time is exhilarating. But in a culture full of bad advice, predatory banks, and splurge-now-pay-later temptations, it can also be extremely dangerous—leading you to make financial decisions that could hurt you for years to come. Combine this with a slumped economy, mounds of student loans, and dubious examples from reality TV stars to politicians to your own parents, and it's no wonder so many twenty-somethings are struggling. Twenty-three-year-old Zac Bissonnette—the author of *Debt-Free U*—knows exactly what you're going through. He demystifies the many traps young people fall victim to in their post-college years. He offers fresh insights on everything from job hunting to buying a car to saving for retirement that will give you a foundation for a secure, stable, and happy life. In the process, he reveals why FICO scores are overrated, online job applications are a waste of time, car loans are for suckers, and credit card rewards are a scam. With detours to discuss wine connoisseurs, Really Broke Housewives, and Lenny Dykstra, Zac shows you how to make better choices today so you can be richer, smarter (and better-looking!) for years to come.

Out Online: Trans Self-Representation and Community Building on YouTube Tobias Raun, 2016-05-05 Trans people are increasingly stepping out of the shadow of pathologization and secretiveness to tell their life stories, share information and to connect with like-minded others, using YouTube as a platform. *Out Online: Trans Self-Representation and Community Building on YouTube* explores the digital revolution of trans video blogging, addressing 'trans' in its many meanings and

configurations to examine the different ways in which the body in transformation and the vlog as a medium intersect. Drawing on rich, virtual ethnographic studies of trans video blogging, the author sheds light on the ways in which the video blog (or 'vlog') as a multimodal medium enables trans people to tell their stories with the use of sound, text, music, and pictures - thus offering new ways to construct and archive bodily changes, and to revise the story endlessly. A groundbreaking study of the intersection between trans identity and technology, Out Online explores the transformative and therapeutic potential of the video blog as a means by which trans vloggers can emerge and develop online, using the vlog as a site for creation, intervention, community building and resistance. As such, it will appeal to social scientists and scholars of cultural and media studies with interests in gender, sexuality and embodiment.

The Black Hole of the Camera J. J. Murphy,2012-04-03 Andy Warhol, one of the twentieth century's major visual artists, was a prolific filmmaker who made hundreds of films, many of them—Sleep, Empire, Blow Job, The Chelsea Girls, and Blue Movie—seminal but misunderstood contributions to the history of American cinema. In the first comprehensive study of Warhol's films, J.J. Murphy provides a detailed survey and analysis. He discusses Warhol's early films, sound portraits, involvement with multimedia (including The Velvet Underground), and sexploitation films, as well as the more commercial works he produced for Paul Morrissey in the late 1960s and early 1970s. Murphy's close readings of the films illuminate Warhol's brilliant collaborations with writers, performers, other artists, and filmmakers. The book further demonstrates how Warhol's use of the camera transformed the events being filmed and how his own unique brand of psychodrama created dramatic tension within the works.
