Heritage, Conservation and Communities Gill Chitty,2016-12-01 Public participation and local community involvement have taken centre stage in heritage practice in recent decades. In contrast with this established position in wider heritage work, public engagement with conservation practice is less well developed. The focus here is on conservation as the practical care of material cultural heritage, with all its associated significance for local people. How can we be more successful in building capacity for local ownership and leadership of heritage conservation projects, as well as improving participative involvement in decisions and in practice? This book presents current research and practice in community-led conservation. It illustrates that outcomes of locally-led, active participation show demonstrable social, educational and personal benefits for participants. Bringing together UK and international case studies, the book combines analysis of theoretical and applied approaches, exploring the lived experiences of conservation projects in and with different communities. Responding to the need for deeper understanding of the outcomes of heritage conservation, it examines the engagement of local people and communities beyond the expert and specialist domain. Highlighting the advances in this important aspect of contemporary heritage practice, this book is a key resource for practitioners in heritage studies, conservation and heritage management. It is also relevant for the practising professional, student or university researcher in an emerging field that overarches professional and academic practice.

World Heritage, Tourism and Identity Laurent Bourdeau,Maria Gravari-Barbas,2016-03-09 The remarkable success of the 1972 UNESCO Convention Concerning the Protection of World Cultural and Natural Heritage is borne out by the fact that

nearly 1,000 properties have now been designated as possessing Outstanding Universal Value and recognition given to the imperative for their protection. However, the remarkable success of the Convention is not without its challenges and a key issue for many Sites relates to the touristic legacies of inscription. For many sites inscription on the World Heritage List acts as a promotional device and the management challenge is one of protection, conservation and dealing with increased numbers of tourists. For other sites, designation has not brought anticipated expansion in tourist numbers and associated investments. What is clear is that tourism is now a central concern to the wide array of stakeholders involved with World Heritage Sites.

World Heritage Sites Takamitsu Jimura, 2018-12-06 This book reviews the important interrelations between the industry, local communities and conservation work, bringing together the various opportunities and challenges for a destination. Proper heritage management and conservation activities are always vital. Reviewing new areas of development, such as Historic Urban Landscapes, Intangible Cultural Heritage, Memory of the World and Global Geoparks, it includes global case studies to relate theory into practice and covers a worldwide industry of over 1,000 cultural and natural heritage sites.

National Geographic Visual Atlas of the World National Geographic Society (U.S.), 2009 A comprehensive, up-to-date atlas encompasses more than three hundred thematic maps, along with more than six hundred color photographs, illustrations, charts, and graphs, that document the world's natural and cultural wonders.

The SAGE Handbook of Modern Japanese Studies James D Babb, 2014-12-15 A welcome addition to any reading list for those interested in contemporary Japanese society. - Roger Goodman, Nissan Professor of Modern Japanese Society, University of Oxford I know no better book for an accessible and up-to-date introduction to this complex subject than *The SAGE Handbook of Modern Japan Studies*. - Hiroko Takeda, Associate Professor, Organization for Global Japanese Studies, University of Tokyo Pioneering and nuanced in analysis, yet highly accessible and engaging in style. - Yoshio Sugimoto, Emeritus Professor, La Trobe University *The SAGE Handbook of Modern Japanese Studies* includes outstanding contributions from a diverse group of leading academics from across the globe. This volume is designed to serve as a major interdisciplinary reference work and a seminal text, both rigorous and accessible, to assist students and scholars in understanding one of the major nations of the world. James D. Babb is a Senior Lecturer in the School of Geography, Politics and Sociology at Newcastle University.

Tourism in Japan Arthur Asa Berger, 2010-02-17 This book deals with tourism, popular culture and everyday life in Japan. It offers some interesting statistics about Japanese life and society, discusses popular kinds of tours in Japan, considers images of Japan found in guidebooks about the country, and discusses the pleasures people get from travel in Japan. The book interprets various aspects of Japanese culture and provides an analysis of popular visitor destinations. It is written in an accessible style and thus will be of interest to tourists considering visiting Japan, Japanophiles, social scientists

and humanities scholars with interests in Japan, and students taking courses in tourism, Japanese culture, cultural studies and consumer culture.

Managing Cultural Landscapes Ken Taylor,Jane Lennon,2012-02-13 One of our deepest needs is for a sense of identity and belonging. A common feature in this is human attachment to landscape and how we find identity in landscape and place. The late 1980s and early 1990s saw a remarkable flowering of interest in, and understanding of, cultural landscapes. With these came a challenge to the 1960s and 1970s concept of heritage concentrating on great monuments and archaeological locations, famous architectural ensembles, or historic sites with connections to the rich and famous. Managing Cultural Landscapes explores the latest thought in landscape and place by: airing critical discussion of key issues in cultural landscapes through accessible accounts of how the concept of cultural landscape applies in diverse contexts across the globe and is inextricably tied to notions of living history where landscape itself is a rich social history record widening the notion that landscape only involves rural settings to embrace historic urban landscapes/townscapes examining critical issues of identity, maintenance of traditional skills and knowledge bases in the face of globalization, and new technologies fostering international debate with interdisciplinary appeal to provide a critical text for academics, students, practitioners, and informed community organizations discussing how the cultural landscape concept can be a useful management tool relative to current issues and challenges. With contributions from an international group of authors, Managing Cultural Landscapes provides an examination of the management of heritage values of cultural landscapes from Australia, Japan, China, USA, Canada, Thailand, Indonesia, Pacific Islands, India and the Philippines; it reviews critically the factors behind the removal of Dresden and its cultural landscape from World Heritage listing and gives an overview of Historic Urban Landscape thinking.

Routledge Handbook of Cultural Landscape Practice Steve Brown,Cari Goetcheus,2023-02-14 Cultural landscapes, which in the field of heritage studies and practice relates to caring for and safeguarding heritage landscapes, is a concept embedded in contemporary conservation. Heritage conservation has shifted from an historical focus on buildings, city centres, and archaeological sites to encompass progressively more diverse forms of heritage and increasingly larger geographic areas, embracing both rural and urban landscapes. While the origin of the idea of cultural landscapes can be traced to the late-19th century Euro-American scholarship, it came to global attention after 1992 following its adoption as a category of 'site' by the UNESCO World Heritage Committee. Today, cultural landscape practice has become increasingly complex given the expansion of the values and meanings of heritage, the influence of environmental challenges such as

human induced climate change, technological advancements, and the need to better understand and interpret human connections to place and landscapes. The aim of this handbook is to strike a balance between theory and practice, which we see as inseparable, while also seeking to achieve a geographical spread, disciplinary diversity and perspectives, and a mix of authors from academic, practitioner, management, and community backgrounds.

Cultural Heritage and Tourism in Japan Takamitsu Jimura, 2021-08-16 This book offers a comprehensive understanding of cultural heritage in Japan and its relationship with both domestic and international tourism. Japan has witnessed an increase in tourism, with rising visitor numbers to both established destinations and lesser known sites. This has generated greater attention towards various aspects of Japanese culture, heritage and society. This book explores these diverse aspects of everyday life in Japan and their interconnections with tourism. It begins with a conceptual framework of key theories related to heritage and tourism, serving as a useful apparatus for further discussions in the following chapters. Each chapter studies a specific aspect of Japan's cultural heritage, from the history of Japan, the development of war sites, such as Hiroshima and Nagasaki, to tourist destinations, indigenous communities and their places of residence, festivals such as matsuri, to popular culture and media. Each chapter discusses a certain type of cultural heritage first in a global context and then examines it in a Japanese context, aiming to demonstrate the relation between these two different contexts. In each chapter, furthermore, how a particular kind of Japan's cultural heritage is utilised as tourism resources and how it is perceived and consumed by international and domestic tourists are discussed. Finally, the book revisits the conceptual framework to suggest future directions for cultural heritage and tourism in Japan. Written in an informative and accessible style, this book will be of interest to scholars, students and practitioners in the fields of tourism, cultural studies and heritage studies.

Routledge Companion to Global Heritage Conservation Vinayak Bhanu, Trudi Sandmeier, 2019-02-12 The act of identifying, protecting, restoring, and reusing buildings, districts, and built landscapes of historic and cultural significance is, at its best, a reflective and consequential process of urban and socio-economic reform. It has the potential to reconcile conflicting memories, meanings, and cultural tensions, bridging and expanding the perceived boundaries of multiple disciplines towards bigger aspirations of city-making and social justice. How and where do such aspirations overlap and differ across nations and societies across the world? In places with different histories, governance structures, regulatory stringency, and populist dispositions, who are the specific players, and what are the actual processes that bring about bigger

and deeper change beyond just the conservation of an architectural or urban entity of perceived value? This collection of scholarly articles by theorists, academics, and practitioners explores the global complexity, guises, and potential of heritage conservation. Going from Tokyo to Cairo, Shenzhen to Rome, and Delhi to Moscow, this volume examines a vast range of topics – indigenous habitats, urban cores, vernacular infrastructure, colonial towns, squatters, burial sites, war zones, and modern landmarks. It surfaces numerous inherent issues – water stress, deforestation, social oppression, poverty, religion, immigration, and polity, expanding the definitions of heritage conservation as both a professional discipline and socio-cultural catalyst. This book argues that the intellectual and praxis limits of heritage conservation – as the agency of reading, defining, and intervening with built heritage – can be expansive, aimed at bigger positive change beyond a specific subject or object; plural, enmeshed with multiple fields and specializations; and empathetic, born from the actual socio-political realities of a place.

Cereal Drying Racks Klaus Zwerger, 2020-09-21 Following his seminal book *Wood and Wood Joints*, an essential reference on solid timber constructions for more than two decades, now in its third edition, Klaus Zwerger presents a study of the cultural history, construction and typology of a special building type: cereal drying racks. These structures were used to dry harvested crops in agrarian cultures all over the world and evolved over the centuries into buildings of great beauty that are as sophisticated and individual as they are functionally efficient. On countless expeditions, the author tracked down the remaining buildings, documenting and analyzing them in the context of their cultural and building history through detailed descriptions, line drawings and photographs, rendered in duotone, by the author.
