Maritime Security in East and Southeast Asia Nicholas Tarling, Xin Chen, 2017-04-21 This volume investigates the nature of threats facing, or perceived as facing, some of the key players involved in Asian maritime politics. The articles in this collection present case studies on Malaysia, Singapore, the Philippines, Thailand, Japan, China, and Southeast Asia as a whole and focus on domestic definitions of threats and conceptualisations of security. These studies map the differing understandings of danger in this region and explore how contending narratives of threats and security affect the national maritime security policy deliberations within the countries of this region. Those interested in maritime security and management in Asia will find this collection an invaluable addition to the literature on this topic.

Contemporary Maritime Piracy in Southeast Asia Adam J. Young, 2007-03-30 This book explores contemporary maritime piracy in Southeast Asia, demonstrating the utility of using historical context in developing policy approaches that

will address the roots of this resurgent phenomenon. The depth and breadth of historical piracy help highlight causative factors of contemporary piracy, which are immersed in the socio-cultural matrix of maritime-oriented peoples to whom piracy is still a thinkable option. The threats to life and property posed by piracy are relatively low, but significant given the strategic nature of these waterways that link the Pacific and Indian Oceans, and because piracy is emblematic of broader issues of weak state control in the littoral states of the region. Maritime piracy will never be completely eliminated, but with a progressive economic and political agenda aimed at changing the environment from which piracy is emerging, it could once again become the exception rather than the rule.

A History of Early Southeast Asia Kenneth R. Hall, 2010-12-28 This comprehensive history provides a fresh interpretation of Southeast Asia from 100 to 1500, when major social and economic developments foundational to modern societies took place on the mainland (Burma, Thailand, Cambodia, and Vietnam) and the island world (Indonesia, Malaysia, and the Philippines). Kenneth R. Hall explores this dynamic era in detail, which was notable for growing external contacts, internal adaptations of nearby cultures, and progressions from hunter-gatherer and agricultural communities to inclusive hierarchical states. In the process, formerly local civilizations became major participants in period's international trade networks. Incorporating the latest archeological evidence and international scholarship, Kenneth Hall enlarges upon prior histories of early Southeast Asia that did not venture beyond 1400, extending the study of the region to the Portuguese seizure of Melaka in 1511. Written for a wide audience of non-specialists, the book will be essential reading for all those interested in Asian and world history.

China and Southeast Asia Geoff Wade, James K. Chin, 2018-12-19 Spanning over a millennium of history, this book seeks to describe and define the evolution of the China-Southeast Asia nexus and the interactions which have shaped their shared pasts. Examining the relationships which have proven integral to connecting Northeast and Southeast Asia with other parts of the world, the contributors of the volume provide a wide-ranging historical context to changing relations in the region today - perhaps one of the most intense re-orderings occurring anywhere in the world. From maritime trading relations and political interactions to overland Chinese expansion and commerce in Southeast Asia, this book reveals rarely explored connections across the China-Southeast Asia interface. In so doing, it transcends existing area studies boundaries to present an invaluable new perspective to the field. A major contribution to the study of Asian economic and cultural interactions, this book will appeal to students and scholars of Chinese history, as well as those engaged with Southeast Asia.

Exploring the History of Southeast Asian Astronomy Wayne Orchiston, Mayank N. Vahia, 2021-06-30 This edited volume contains 24 different research papers by members of the History and Heritage Working Group of the Southeast Asian Astronomy Network. The chapters were prepared by astronomers from Australia, France, Germany, India, Indonesia, Japan, Malaysia, the Philippines, Scotland, Sweden, Thailand and Vietnam. They represent the latest understanding of cultural and

scientific interchange in the region over time, from ethnoastronomy to archaeoastronomy and more. Gathering together researchers from various locales, this volume enabled new connections to be made in service of building a more holistic vision of astronomical history in Southeast Asia, which boasts a proud and deep tradition.

The Making of Southeast Asia Amitav Acharya, 2013-02-22 Developing a framework to study what makes a region, Amitav Acharya investigates the origins and evolution of Southeast Asian regionalism and international relations. He views the Association of Southeast Asian Nations (ASEAN) from the bottom up-as not only a U.S.-inspired ally in the Cold War struggle against communism but also an organization that reflects indigenous traditions. Although Acharya deploys the notion of imagined community to examine the changes, especially since the Cold War, in the significance of ASEAN dealings for a regional identity, he insists that imagination is itself not a neutral but rather a culturally variable concept. The regional imagination in Southeast Asia imagines a community of nations different from NAFTA or NATO, the OAU, or the European Union. In this new edition of a book first published as *The Quest for Identity* in 2000, Acharya updates developments in the region through the first decade of the new century: the aftermath of the financial crisis of 1997, security affairs after September 2001, the long-term impact of the 2004 tsunami, and the substantial changes wrought by the rise of China as a regional and global actor. Acharya argues in this important book for the crucial importance of regionalism in a different part of the world.

Southeast Asian Affairs 2008 Daljit Singh, Tin Maung Maung Than, 2008 Since its inception in 1974, Southeast Asian Affairs (SEAA) has been an indispensable annual reference for generations of policy-makers, scholars, analysts, journalists, and others. Succinctly written by regional and international experts, SEAA illuminates significant issues and events of the previous year in each of the Southeast Asian nations and the region as a whole. *Southeast Asian Affairs 2008* provides an informed and readable analysis of the events and developments in the region in 2007. In the regional section, the first two articles provide the political and economic overview of Southeast Asia. They are followed by an article on India's geopolitics and Southeast Asia, and two articles on ASEAN. Eleven country reviews as well as four country-specific thematic chapters follow, delving into domestic political, economic, security, and social developments during 2007 and their implications for countries in the region and beyond.

Southeast Asian Affairs 2009 Daljit Singh, 2003-08-01 *Southeast Asian Affairs 2009* provides an informed and readable analysis of events and developments in the region in 2008. In the regional section of the volume, the first two articles give the political and economic overview of Southeast Asia, the third discusses the use of mediation as a means for conflict resolution, while the fourth examines regional cooperation in maritime security arena. Eleven country reviews as well as well as six special theme articles follow, covering political, economic, security and social developments in the various countries and their implications for the region.

Lost Kingdoms: Hindu-Buddhist Sculpture of Early Southeast Asia Guy, John, 2014-04-07 A fresh and exciting exploration of Southeast Asian history from the 5th to 9th century, seen through the lens of the region's sculpture

Early Southeast Asia O. W. Wolters, 2018-08-06 A collection of the classic essays of O. W. Wolters, reflecting his radiant and meticulous lifelong study of premodern Southeast Asia, its literature, trade, government, and vanished cities. Included is an intellectual biography by the editor, which covers Wolters's professional lives as a member of the Malayan Civil Service and, later, as a scholar. This volume displays the extraordinary range of Oliver Wolters's work in early Indonesian, Vietnamese, Cambodian, and Thai history.

Southeast Asia in a New Era Rodolfo C Severino, Elspeth Thomson, Mark Hong, 2010 This book is about Southeast Asia in a new era. This new era began with a new century and a new millennium posing great challenges to the region and to each country in it. It has a chapter on each of the ten countries in the region, covering both the politics and the economic aspects. It has one on the region as a whole, and one on the Association of Southeast Asian Nations. It has a thoughtful afterword that is a summary of its contents but is more than the sum of the individual chapters. Many books and chapters of books have been written on Southeast Asia, usually by external observers. Aside from being up-to-date, this book is different from most of them in several ways. Most of the chapters are written by Southeast Asians; indeed, most of the country-chapters are written by natives of those countries. This means that the perspectives are based on local insights, which provide nuance and sensitivity. The book is addressed primarily to the young people of Southeast Asia, so that they can get to know their neighbours better. Each chapter has a guide to further reading and a series of questions to provoke further research and deeper inquiry.--publisher.

Southeast Asia: The Long Road Ahead (2nd Edition) Chong Yah Lim, 2004-02-04 Latest Edition: Southeast Asia: The Long Road Ahead (3rd Edition) Southeast Asia is going through tremendous changes. The market-oriented economies of Brunei, Indonesia, Malaysia, the Philippines, Singapore and Thailand have been showing robust growth, particularly before the Asian financial crisis of 1997/98. The transitional economies of Cambodia, Laos, Myanmar and Vietnam are also exhibiting signs of economic awakening and revival after years of internal political and social turmoil. Despite these encouraging signs, the region still has a long road ahead to achieve developed nation status. Southeast Asia: The Long Road Ahead is a serious and concise study on various important economic aspects of Southeast Asia. Existing economic studies on the region are mainly topical in nature. Most of the publications only attempt to offer a partial treatment of the issues and fail to examine these issues in a holistic manner. The objective of this book is to provide a more complete cross-country discussion on the economic issues and problems facing Southeast Asia. Besides critically examining the multiple facets of changes and problems that have been and will be encountered by Southeast Asia, the book also presents a lucid exposition on the prospects of the region. However, it does not stop there. It moves on to provide pointers and suggestions on how

Southeast Asian countries should proceed with their development options and processes. The book should be of interest to economists, graduate students on Southeast Asia and all those who want to have a better knowledge and understanding of the important Southeast Asian region.

In this latest edition, data were updated and new emerging trends explored. A significant portion of the text was redrafted so as to make this edition more compact and concise than the earlier ones. New “Suggested Discussion Topics” are added, and contemporary issues such as the Global Financial Tsunami, Asian economic integration and Michael Spence's World Bank Report are also dealt with.

Piracy in Southeast Asia Derek Johnson, Mark J. Valencia, 2005 Beyond providing a solid foundation for the analysis of maritime piracy in Southeast Asia, the book also gives considerable attention to the challenges of regional co-operation.
