The Buy-In Advantage Dave Garrison, 2025-06-03 Employees who buy into a company's purpose and goals are the key to driving sustainable bottom-line improvements. Here's how to get lots of them. Most leaders would love to get their people to do more than just show up and do only what's asked. They want employees who also bring their best talents, ideas, and enthusiasm to accomplish what's truly important to the organization. Unfortunately, most leaders have never been shown how to create a culture of genuine and sustainable buy-in. As a result, they miss out on the amazing advantages that widespread buy-in can deliver, including easier hiring, lower turnover, smarter strategies, and more consistent execution. Dave Garrison is renowned for helping companies foster a culture of high engagement, even in the face of adversity or rapid expansion. In The Buy-In Advantage, he now offers a practical playbook that will help leaders in any industry or any size company get much better at: Recruiting and retaining the right talent. Tapping the collective genius of their people. Prioritizing the few things that really count, which prevents burnout. Solving problems without drama. And much more. By

sharing true stories from companies he's led as a CEO and advised as a strategist, Garrison shows how to implement these strategies without significant cost, extra effort, or disruption to core activities. His approach leads to immediate improvements as well as long-term cultural change. The result is a powerful guide to building teams that get things done, care about outcomes, and solve problems on their own initiative.

Joining the Dialogue: Practices for Ethical Research Writing Bettina Stumm, 2021-07-08 Joining the Dialogue offers an exciting new approach for teaching academic research writing to introductory students by drawing on communication ethics. Holding to the current view that academic writing means situating ourselves in a research community and learning how to join the research conversations going on around us, Joining the Dialogue proposes that how we engage in dialogue with other

researchers in our community matters. We not only read, acknowledge, and build on the research of others as we compose our work; we also engage openly, attentively, critically, and responsively to their ideas as we articulate our own. With this in mind, *Joining the Dialogue* is geared to helping students discover the key ethical practices of dialogue—receptivity and response-ability—as they join a research conversation. It also helps students master the dialogic structure of research essays as they write in and for their academic communities. Combining an ethical approach with accessible prose, dialogic structures and templates, practical exercises, and ample illustrations from across the disciplines, *Joining the Dialogue* teaches students not only how to write research essays but also how to write those essays ethically as a dialogue with other researchers and readers.

Leader-Member Exchange and Organizational Communication Leah M. Omilion-Hodges, Jennifer K. Ptacek, 2021-04-14 It is hard to overstate the importance of the leader-member exchange relationship. Employees who share a high-quality relationship with their leader are more likely to earn a higher salary, climb the ranks more quickly, and report higher life satisfaction levels than their peers who have a less copasetic leader-member relationship. While Leader-Member Exchange Theory (LMX) research addresses the impact that the leader-member relationship has on the individual employee experience, much of this scholarship overlooks or obscures the vital role that communication plays in the development and maintenance of workgroup relationships. Much of extant literature also glosses over the role that communication plays in workgroup collaboration. Using a communicative lens, this text illustrates the complex theoretical underpinnings of LMX theory, such as the importance of social interaction and relationship building and maintenance necessary to achieve organizational goals. We explore how an employee's relationship with their leader also shapes their peer relationships and their overall standing within their workgroup. Further, the text examines the potential dark side of LMX theory, such as the tendency towards demographic and trait and state similarity. Employing a communicative perspective emphasizes the extent of position and personal power both leaders and members have in engineering the quality of the relationship they desire. Integrating and applying once disparate lines of academic literature, this book offers employees, students, and teacher-scholars pragmatic yet research-based insights into developing and maintaining successful, healthy workplace relationships.

Connecting Spirituality and Social Justice Michael Sheridan, 2016-04-08 Jim Wallis, well-known justice advocate and author, has stated that the two great hungers in the world today are for spirituality and social justice. Although social work and related fields have increasingly recognized the importance of addressing spirituality within clinical practice, less attention has been paid to the role of spirituality in promoting social justice or supporting social change within macropractice. The contributions in this edited collection highlight current developments in this area, including emerging conceptual frameworks, practice applications and research findings. Theoretical approaches to understanding the link between spirituality and justice are explored in analyses of alternative models of social justice and justice orientations of major faith traditions. The critical role of spirituality in larger system change is illustrated through exemplars of research on vulnerable populations, community practice, legislative advocacy, development of social movements, and ecological social work. The importance of including content on religion and spirituality in professional curricula is explored through research on students' attitudes toward spirituality and social advocacy. Noting the resonating themes within all of these contributions, the volume concludes with an overview of emerging principles for spiritual activism. This book aims to stimulate further development in the vital connection between spirituality and social justice. It was originally published as a special issue of the Journal of Religion & Spirituality in Social Work.

Connecting Equity, Literacy, and Language Althier M. Lazar, Kaitlin K. Moran, Shoshanna Edwards-Alexander, 2023 This book shows literacy professionals how to develop the dispositions and actions associated with advocacy-focused

teaching. While portraits of culturally conscious literacy teachers are now readily available, becoming such a teacher continues to be a challenge. Drawing from 60+ years of experience working with teacher candidates and teachers in the city of Philadelphia, the authors argue that becoming an advocacy-focused literacy teacher requires making moral commitments to students and developing professional competencies that fuse literacy, language, and equity studies. Recognizing that educators can be overwhelmed trying to match the realities they face daily with the theory behind good practice, *Connecting Equity, Literacy, and Language* packs a lot of big ideas into one readable, concise book that is perfect for use in literacy methods courses. The text includes definitions and examples of equity concepts, relatable teacher vignettes, and “Pause and Reflect” boxes to encourage reflection and classroom conversation. Book Features: Examines the central problems of students’ disconnection with school, spirit murdering, and the teacher education gap. Looks at inequities that have become normalized in classrooms and schools through standardized testing, literacy teaching routines and structures, and deficit-laced language about students and families. Discusses literacies and languages as cultural practices and the need to be vigilant about the linguistic violence that occurs when students’ languages are delegitimized. Describes critically and culturally centered teaching frameworks. Provides vivid examples of advocacy-focused teaching.
