**Always an Athlete** Jenne Blackburn,2023-11-03 Always an Athlete is a comprehensive study of the ways in which athletes climb what author Jenné Blackburn terms “The Mountain”—the journey from youth sports, through high school and college sports, to, finally, professional, and Olympic sports. This steady climb and success over a long period of time, however, sets up athletes for an inevitable fall off “The Cliff” upon their retirement from competition. To help athletes in transition, Blackburn identifies “Three Pillars of the Cliff”—Mental Health, Physical Health, and Athlete Identity—and describes the issues that athletes have in each of these areas after they retire. After training, sacrificing, and devoting years,

even decades, to a sport, athletes at every level will struggle within these three pillars. Blackburn believes that athletes must evolve from a competition mindset to a wellness mindset and match their new lifestyles in order to soften this transition into the real world. Fortunately, the “Inner Athlete” honed over many years of training and competition can show up as a “Parachute” as athletics recede, and other priorities rise to the forefront of their new life. Ultimately, Blackburn proposes cycling as a foundation and universal tool to help retired athletes resolve a lingering loss of identity, mental health issues, such as anxiety and depression, and complications due to unchanged diet and exercise habits when they transition out of a performance-purposed existence. She advocates for fun community bike rides adjacent to sporting events and franchises to bring sports communities together around this critical yet overlooked topic for all athletes: life after competitive sports.

**Cultures of Growth** Mary C. Murphy, 2024-03-12 'Required reading for anyone who has wondered how to create a culture that supports innovation, risk-taking, integrity and inclusion. I simply loved this book!' ANGELA DUCKWORTH, bestselling author of Grit In her multi-million-copy bestseller Mindset Carol Dweck coined the terms 'fixed' and 'growth' mindset, transforming our view of individual success. In a fixed mindset, talent and intelligence are viewed as predetermined

traits, while in a growth mindset, talent and intelligence can be nurtured, In *Cultures of Growth*, award-winning social psychologist Mary C. Murphy argues that mindset transcends individuals. Drawing on compelling examples from her work with Fortune 500 companies, startups and schools, she shows how we can all create a growth mindset culture. Murphy's original decade-long research reveals that organisations and teams more geared toward growth inspire deeper learning, spark collaboration, spur innovation, and build trust necessary for risk-taking and inclusion. They are also less likely to cheat, cut corners, or steal each other's ideas. And they're more likely to achieve top results. In these cultures, great ideas come from people from all backgrounds and at all levels - not just those anointed as brilliant or talented. In a world where success seems reserved for a chosen few, *Cultures of Growth* unveils a radically different approach to creating organisations that inspire learning, growth, and success at all levels.

**The Neurodivergent Job Candidate** Marcia Scheiner, Joan Bogden, 2021-11-10 This book provides guidance on recruiting, interviewing, and onboarding practices that will allow employers to successfully hire neurodivergent professionals into inclusive, competitive employment. Today, 35% of 18-year-olds with an autism spectrum diagnosis attend college, yet they have a 75-85% under-employment and unemployment rate after graduation. While organizations are looking to expand their diversity and inclusion hiring efforts to include neurodivergent professionals, current recruiting and interviewing practices in general are not well-suited to this. With over one-third of the US population identifying as neurodivergent, employers need to address how to attract this talent pool to take advantage of a meaningful segment of the workforce. Readers of this book will gain an understanding of how to guide their organizations through the creation of recruiting, interviewing, and onboarding processes tailored to neurodivergent professionals in any field. Written by authors with extensive experience working in the corporate world and consulting with Fortune 1000 companies on autism hiring efforts, this book is targeted at employers, acknowledging their perspective. Structured as a reference guide for busy recruiters,

hiring managers, and supervisors, this book can be read in its entirety, in relevant sections as needed, or used as a refresher whenever necessary. This book also provides a background on the thinking styles of autistic individuals, giving the reader a deeper understanding of how to best support neurodivergent jobseekers.

*As You Step Into Teaching* Joenel Dicen Coros, 2025-03-07 *As You Step into Teaching* showcases the importance of having the right perspectives--our way of looking at and understanding things as we take on the teaching role. The book broadens our understanding of our role as a teacher inside and outside the classroom and offers us insights on how we can achieve these perspectives. More so, it allows us to see the meaning of why we do what we do every day. Truly every teacher has a different perspective from one another, but there are three things common to them: First, All teachers desire that their students would love learning. Second, All teachers want the best for their students. Third, All teachers have affected the lives of those they touched in one way or another. These are undebatable. The author has drawn motivation to write this book from his opportunity and experiences in starting over again after eleven years of teaching. Hence, this book is especially helpful for first-year teachers, aspiring teachers, leaders and administrators who support first-year teachers, and seasoned teachers who are looking for insights to support those who are currently immersed in the experience. It is the author's hope that these perspectives guide those who get hold of it in their journey up to the path of their calling.
