Challenges and Opportunities of mRNA Vaccines Against SARS-CoV-2 Siguna Mueller,2023-01-04 This book offers an analytical look at the much debated risks and benefits of the newly developed COVID-19 mRNA-vaccines. As such, it is one of the first books to give a comprehensive overview of mRNA vaccines against COVID-19 and the only one that addresses this topic from a broad multidisciplinary background. It brings together insights from various underlying disciplines on the challenges of developing and evaluating the most suitable vaccines for mass vaccination programs enrolled throughout the world - focusing on safety and efficacy. This book should not be missing on the shelf of any biomedical researcher, epidemiologist, public health professional or clinical researcher interested in SARS-CoV2 or virology and vaccine development in general.

mRNA Therapeutics Sarfaraz K. Niazi,2022-12-06 This book is the most comprehensive and complete treatise on nucleic acid therapeutic products, including mRNA vaccines, their manufacturing, formulations, and testing for safety and efficacy. Details include cGMP-compliant manufacturing and regulatory filing steps. A new concept of “biosimilar” mRNA vaccine is presented to secure fast approval of copies of mRNA vaccines. Projections of financial plans to establish RNA manufacturing facilities are provided, along with details of supply chain management. Finally, the future of nucleic acid products in gene therapy and other newer applications is presented, along with a perspective that all new vaccines will be the nucleic acid type that will further provide first-time prevention of autoimmune disorders. It is projected that both big pharma and start-ups will enter this field, and we can expect significant additions to our drug armamentarium soon.

The COVID-19 Pandemic Klaus Rose,2022-03-01 The COVID-19 Pandemic: A Global High-Tech Challenge at the Interface of Science, Politics, and Illusions discusses COVID-19 as the first pandemic in the Internet era and our current reality of continuous reports, news, and updates. Since its beginning, we were daily bombarded with news of what was happening around the world. There was no global political leadership. The United States was politically partially paralyzed. Russia and China hoped to gain diplomatic profile worldwide, but their vaccines are of limited efficacy, and trust in their clinical data is rightly low. The European Union did not order enough vaccines in time, but sued a large manufacturer for delivery delays. Now it is setting up yet another bureaucratic institution. At least the pharmaceutical or life science industry

paved the way out, but is not enthusiastically praised for it. It would be too easy and superficial to blame mistakes of governments and leaders on stupidity. Idiocy exists, but we have to go deeper to understand how illusions and blind spots in today's common perception and science, inertia, arrogance, conflicts of interest, competition of individuals, and states and institutions for public recognition have contributed to a multitude of flawed assessments and direct mistakes. Healthcare professionals and anyone interested in an in-depth understanding of humankind's response to the COVID-19 challenge will not get around the key conclusions of this book. - Outlines key elements of modern civilization, public health, and drug and vaccine development on the background of the COVID-19 pandemic - Discusses the historical roots of separate drug approval of vaccines and drugs in administratively classified children (of whom many are bodily mature long before their 16th or 18th birthday), and why the belated approval of vaccines against COVID-19 in minors is not based on science, but on blurs and conflicts of interest - Outlines key elements we need to address to become better prepared for future global health challenges. In the first place, we do not need new institutions, but to overcome intellectual barriers and blind spots

Lies My Gov't Told Me Robert W. Malone, 2022-11-15 A WALL STREET JOURNAL NATIONAL BESTSELLER *AS SEEN ON TUCKER CARLSON TODAY AND THE JOE ROGAN EXPERIENCE* A guide for the times—breaking down the lies about COVID-19 and shedding light on why we came to believe them. When he invented the original mRNA vaccine technology as a medical and graduate student in the late 1980s, Robert Malone could not have imagined that he would become a leader in a movement to expose the dangers of mRNA vaccines that billions of people have received—too often without being informed of the risks. For voicing opposition to the “mainstream” narrative, Dr. Robert Malone was censored by Big Tech and vilified by the media. But he continues to speak out and alert the world to the web of lies that we have all experienced. From vaccine safety and effectiveness to early treatments like ivermectin, to lockdowns, masks, and more, Dr. Malone is the signature dissident voice telling the other side of the story about COVID, the role of corporate media, censorship, propaganda, and the brave new world of transhumanism promoted by the World Economic Forum and its acolytes. What effect did the COVID policies have on lives, livelihoods, and democracies? How is it possible that the lies spread by governments would persist, and that our institutions would fail to correct them? *Lies My Gov't Told Me* takes a hard look at these questions and illustrates how data, information, and psychology have been distorted during the pandemic. Governments intentionally weaponized fear to mold behavior. The media smeared anyone who objected to the narrative. And Big Pharma—aligned with larger globalist interests exemplified by the likes of Bill Gates and the World Economic Forum—had captured the agencies that are supposed to regulate it long before the pandemic began. Dr. Malone explores these perverse connections between Pharma, government, and media, and tells us what can be done about it. With contributed chapters from other leading thinkers, such as Dr. Paul Marik and Professor Mattias Desmet, and drawing upon history, psychology, and economics, *Lies My Gov't Told Me* looks at COVID from numerous angles. Never satisfied with a simple answer or easy solution, Dr. Malone proposes multiple action plans for a better future. Dr. Malone calls on each of us to find our own solutions, our own ways to resist the control of fascist, corporatist, and totalitarian overlords. If we are to step out of the darkness—toward a world that defends the principles of the Constitution, upholds individual rights, and honors free speech—we all must play a part in the transition.

End-Time Prophecies Revelation Jimmy Poon, 2022-08-15 What happened in 2020 is just the beginning of a series of wakeup calls God is sending to mankind regarding the impending tribulations and judgments prophesied about in the Bible which will precede Jesus Christ's return to Jerusalem. The mysteries of raptures and jubilee cycles (the "seventy sevens" in Daniel 9) have been unsealed. The final seven years of this age, foretold in Daniel 9, will begin in 2025 when the Antichrist will sign a seven-year covenant with Israel. The fourth seal in Revelation 6, predicting massive death by war, violence, pestilence, and famine involving a quarter of the earth, is beginning to open. This book will open your eyes to biblical prophecies to see what has been sealed up until now. Following sound hermeneutic principles, Dr. Poon has decoded all the symbols and metaphors used in the books of Revelation and Daniel so that the events which will happen between now and 2032 have been written in plain language for all to understand. Through a Jewish perspective, he explains how Old Testament prophecies are fulfilled in Revelation, even digging into the original text on certain key words. This is a must-read for our generation.
