However, emerging economies have a long way to go before they achieve the same levels of competitiveness as a developed economy. Lack of firm institutions, inadequate infrastructure, and a lack of trust in the legal system are urgent and unavoidable factors that emerging economies must address. The Handbook of Research on Increasing the Competitiveness of SMEs provides innovative insights on integrating, adapting, and building models and strategies compatible with the development of competitiveness in small and medium enterprises in emerging countries. The content within this publication examines quality management, organizational leadership, and digital security. It is designed for policymakers, entrepreneurs, managers, executives, business professionals, academicians, researchers, and students.

Metodología de la Investigación Clínica Paulino Vigil-De Gracia, 2018-12-01 El primer paso de un investigador es su pregunta de investigación, es decir ¿Cuál es tu problema?, ¿Quéquieres saber? Cuando definas en forma sencilla pero muy clara tu pregunta damos el inicio a la investigación. Para poder ayudar a precisar más nuestra pregunta debemos leer lo publicado sobre ese tema de la pregunta y van a ocurrir dos posibilidades: Todo está muy claro y la duda era sólo mí falta de conocimiento o realmente sí se necesita investigar. En este libro aprenderás en cinco (5) módulos, a través de 27 capítulos como convertirte en investigador. Los 5 módulos desarrollados son: Lectura crítica de la literatura biomédica, Internet para investigadores, como desarrollar un protocolo de investigación, crear y analizar base de datos y publicación en revistas y libros.

Narrativas tributarias 4 Eleonora Lozano Rodríguez, 2023-03-01 Esta obra presenta siete narrativas tributarias escritas por estudiantes de la Maestría en Tributación de la Facultad de Derecho de la Universidad de los Andes. Son trabajos de grado que se realizaron a partir de una novedosa metodología que permite hacer un estudio de caso, resolver un problema concreto, plantear una alternativa de solución y a la vez acercar al lector no especializado a los temas de tributación. Cada texto tiene una escena (la universidad), un reparto (profesores, abogados, asesores pedagógicos), una trama, una línea de tiempo y una situación humana apremiante (las dificultades de enseñar y aprender tributación). En *Narrativas tributarias 4* se explican de forma didáctica situaciones que abarcan temas como el impuesto al consumo sobre bienes inmuebles, el manejo contable y tributario del seguro de gastos médicos y la tributación de los cónyuges en Colombia. Qué mejor para enseñar y aprender que hacer.

LGBTQ+ Affirmative Psychological Interventions Reynel Alexander Chaparro,Roberto L. Abreu,2023-06-12 This book presents descriptions of interventions, results of empirical research, and theoretical contributions developed by Latine/x psychologists based on affirmative approaches aimed at promoting acceptance and understanding of LGBTIQ+ people. Contributions in this volume bring together the work of Latine/x scholars, practitioners, and activists across five Latin American countries or territories (Argentina, Chile, Colombia, Mexico, and Puerto Rico) and in the United States, in an effort to provide multicultural perspectives to LGBTIQ+ affirmative psychological interventions that highlight local, regional and national particularities. Chapters in this volume go beyond contributions made by applied psychology fields (e.g., clinical and counselling psychology), where affirmative orientations are predominantly located, and include contributions from other fields of psychological research such as social and community psychology. The book is divided in two parts. Chapters in the first part focus on the experiences of trans and gender non-conforming people, with emphasis on contemporary systemic issues that affect gender identity among Latine/x communities and those who do not conform to hegemonic narratives about gender. Chapters in the second part focus on sexual identity among Latine/x LGBTIQ+ people and their families and communities. Contributions in this part present discussions about sexual orientation (grouped in LG/LGB identities), sex and gender dissidence, and the inclusion of intersex. LGBTQ+ Affirmative Psychological Interventions: A Latine/x Perspective will be of interest to both researchers and practitioners in different fields of psychology - such as clinical, counselling, social, and community psychology - interested in a multicultural perspective to understand and develop LGBTQ+ affirmative actions to fight against the repathologization of individuals, groups, families and diverse communities.

Discriminación por estereotipo de género Yamila González Ferrer,2023-12-08 No puede negarse que la cultura social ha sido esencialmente androcéntrica y patriarcal y hasta en la actualidad, en un momento en que se dice enfáticamente que hemos avanzado, personas de valía intelectual y reconocimiento en el mundo del Derecho no son capaces de ver los estereotipos que perviven e impregnán el razonamiento jurídico de la doctrina científica y se mantienen incólumes en las normas jurídicas con el pretexto - siempre 'valedero'- del respeto a las tradiciones culturales y a los cánones sociales, que no por ello dejan de seguir siendo tan patriarcales como siempre lo fueron. No cabe dudas que los civilistas debemos aprender a reconstruir las clásicas instituciones con las que hemos trabajado como orfebres durante años, desde esa nueva mirada. Solo a partir de su implementación podremos identificar prácticas inveteradas que dan al traste con los más elementales derechos de las mujeres como seres humanos. Nuevamente el peso de la tradición hace invisibles tales posiciones. Leonardo B. Pérez Gallardo.
