There's Nothing Like This Kevin Evers, 2025-04-08 A smart, page-turning exploration of the business and creative decisions that transformed Taylor Swift into an unprecedented modern cultural phenomenon. Named one of Thirty books we're excited to read in the first half of 2025 by The Sydney Morning Herald Named to the Financial Times What to Read in 2025 list Singer-songwriter. Trailblazer. Mastermind. The Beatles of her generation. From her genre-busting rise in country music as a teenager to the economic juggernaut that is the Eras Tour, Taylor Swift has blazed a path that is uniquely hers. But how exactly has she managed to scale her success—multiple times—while dominating an industry that cycles through artists and stars like fashion trends? How has she managed to make and remake herself time and again while remaining true to her artistic vision? And how has she managed to master the constant disruption in the music business that has made it so hard for others to adapt and endure? In *There's Nothing Like This*, Kevin Evers, a senior editor at Harvard Business Review, answers these questions in riveting detail. With the same thoughtful analysis usually devoted to iconic founders, game-

changing innovators, and pioneering brands, Evers chronicles the business and creative decisions that have defined each phase of Swift's career. Mixing business and art, analysis and narrative, and pulling from research in innovation, creativity, psychology, and strategy, *There's Nothing Like This* presents Swift as the modern and multidimensional superstar that she is—a songwriting savant and a strategic genius. Swift's fans will see their icon from a fresh perspective. Others will gain more than a measure of admiration for her ability to stay at the top of her game. And everyone will come away understanding why, even after two decades, Swift keeps winning.

Semi-Famous Josh Sundquist, 2022-07-19 In this laugh-out-loud funny” book (Hank Green, New York Times bestselling author), social media star and comedian Josh Sundquist takes readers on his hilarious journey to the fringes of viral stardom to discover if it's possible to be both very famous and very happy As a semi-famous internet creator, Josh Sundquist knows what it's like to chase fame, but he also knows that more fame usually means more stress. So he set out on a pseudo-scientific investigation to find out if there is any way for fame and happiness to overlap. He attempts to define the word “fame”—hint: it's harder than you'd think. He turns back time to identify the first facially-recognizable celebrity (you might know his former BFF Brutus). He digs into the numbers to debunk urban legends associated with stardom (ever heard of the 27 Club?). He talks to other semi-famous people (from K-pop sensations to former child stars) and asks them: Is this fame thing making you happy? If not, why are you doing it? If so, what's your secret? All while recounting funny stories about his own cringy fame-seeking (like his many attempts, and failures, to get onto MTV). Packed with playful diagrams, fascinating insights from celebrities, and embarrassing truths from Josh's experience with semi-fame, this is a must-read for anyone who has ever dreamed of becoming famous...or at least going viral on TikTok.

Ascending the Fourteener of Recovery KC Tillman, Bryn Tillman, 2022-09-15 Mother and daughter, KC and Bryn detail their two-year battle with the eating disorder anorexia nervosa. *Ascending the Fourteener of Recovery* was written to offer hope and inspiration to others embarking on their own arduous, ever-changing path to healing. As the mother-daughter duo lead others through their descent into the hellacious trenches of a mental disorder with the highest mortality rates, KC reveals how she stopped at nothing to find help and save her daughter's life. Bryn discloses how the power of her mind first guided her into the darkness of an unhealthy relationship with food, and then led her out into the light of recovery thanks, in part, to FBT (Family Based Treatment). When KC Tillman gave birth in 2000, she never imagined that her precious bundle of joy would become embroiled in a fight for her life just sixteen years later. She shares the difficulties of parenting a teen with a stigmatized mental illness. Bryn Tillman grew up setting impossibly high expectations for herself that produced feelings of inadequacy, imperfection, and failure. She mistakenly believed that everyone else also hated their reflection in the mirror and constantly strived to be a better physical being like she did. Little did Bryn know how wrong she was. *Ascending the Fourteener of Recovery* is the moving story of a teenager's battle with anorexia and her mother's tenacity in beating it while

holding on tightly to hope.

Teaching Media Literacy with Social Media News Roy S. Whitehurst, 2024-08-30 Featuring tools, activities, and insightful stories from a CIA analyst and instructor with 30+ years' of experience, this practical and engaging book supports busy educators to teach the lifelong skills of news and media literacy to their students. Based on existing curriculum and teaching standards, this guidebook shows how social studies and English language arts (ELA) teachers can build students' confidence with social media evaluation skills, which are critical to engaging in civic discourse and building a stronger democracy. In Part 1, Whitehurst gives an overview of the media evaluation techniques based on those you would learn as a CIA analyst, including understanding how our biases and mindset make us vulnerable to disinformation, learning how media tries to persuade us, checking facts, and spotting disinformation. Part 2 dives deeper by showing teachers how learners can check if an argument on social media is valid, and how fallacies and manipulation tactics in online arguments can complicate this important skill. It is illustrated by examples from social media and contemporary popular culture in different mediums, including videos, photos, memes, and AI-generated content. You can also find fresh and updated social media examples on the author's website, News Literacy Sleuth. Packed with practical classroom resources, examples from popular culture, and engaging insights into the CIA analyst role, this book is designed to support middle and high school teachers with news and media literacy in social studies, civic education, and ELA.

Motivation Myth Busters Wendy S. Grolnick, Benjamin C. Heddy, Frank C. Worrell, 2024-06-18 What does science tell us about motivation? This book challenges common myths about motivation and offers readers strategies for successfully motivating themselves and others. Many unscientific and inaccurate ideas about motivation persist because they seem so logical, simple, or appealing. For example, we may say that someone is "unmotivated" and assume that this is just part of their personality, whereas in reality everyone is motivated and it's more likely that their inaction is related to their interests or to their environment. This book reveals the scientific truth about motivation. Readers will learn to identify and debunk ten persistent myths about motivation—for example, that visualizing success leads to success, that competition increases motivation for everyone, and that rewards are the best way to enhance motivation—and replace those myths with accurate

knowledge that will help them take positive steps toward their goals. Each chapter uses cutting-edge psychological research and theory to offer scientifically supported strategies for boosting motivation in a variety of contexts including school, work, health, and parenting.

How Not to Become a Grumpy Old Bugger Geoff Hutchison,2025-07-29 They are the unhappy husbands, the disengaged grandfathers and the angry 'letters to the editor' writers. They sneer at generational change, know exactly where that bloody apostrophe should go and gather in sad groups bemoaning the modern world. They are Grumpy Old Buggers. Geoff Hutchison became determined not to turn into one himself upon retirement from a career in journalism. So he wondered: what is it about ageing that tends to have this effect on Australian men, and what can be done to arrest that development? Consulting a wide range of experts and mining his own experience and that of the other men in his life, Geoff has discovered how we can all live a happier, healthier and less grumpy life.

Tomato Bisque for the Brain David A. Wright MD MM MBA MHSA,2021-05-04 Tomato Bisque for the Brain is a book of wisdom, abundance, empowerment, prosperity and success. Tomato Bisque for the Brain is the best way to increase your self-improvement, self-development, self-motivation, self-reflection, self-actualization, self-determination, self-transformation

and self-enhancement on a daily basis! The book's purpose is to help individuals move forward in life in positive ways through increased self-improvement, self-development, self-motivation, self-reflection, self-actualization, self-determination, self-transformation and self-enhancement. In addition to carrying 2/3rds of a year's worth of motivational quotations and inspirational self-affirmations (in Chapter 7), this book also helps to enable you to move forward in positive, transformational ways by presenting you with techniques, methods and strategies for helping you control your mood, create success, sideswipe negativity, escape emotional and behavioral ruts, and reset your mindset when needed. At its core, Tomato Bisque for the Brain illustrates the concept that pills alone will not solve most mental, emotional and/or psychological problems. The idea for this book came from watching Super Soul Sundays (R) on the Oprah Winfrey Network (OWN) (R). Watching the show has been such an inspiration for me. Tomato Bisque for the Brain's been a teacher. Oprah's Thought for Today newsletter (R) has also been a great inspiration. As an MD with two Abundance, Empowerment, Mind-setting and Prosperity Practices, MLC Of Greater Atlanta [MLCOGA], and Atlanta Coaching and Hypnotherapy Associates [ACHA], I help my clients to realize that there are motivations, inspirations and moments of insight that are readily available to them. In practice, I found myself continually sending my clients to other sources to find concepts, affirmations, quotes and statements that would help empower them and fuel their meditations on a daily basis. So, I decided to create one for them so that I wouldn't have to necessarily send them elsewhere. Together, the chapters of this book will empower you with success-driving techniques while also providing you with the basic concepts, underpinnings and foundation for the formation of the habits upon which healthy mindsets and success are built. David A. Wright, MD, MM, MBA, MHSA "Tomato Bisque for the Brain is inspiring. Tomato Bisque for the Brain taps into the very essence of self-esteem building and affirmation. Dr. Wright manages to boost the spirits of readers by employing short, straight-to-the-point quotes that are enabling, timely, emotionally tranquilizing, and useful for readers. These quotes are spiritually rich in nature and can, like a hot bowl of tomato bisque soup, indeed lift your spirits, allay your cravings, and comfort you." Dr. Bettye Dunn-Wright University of Arkansas at Pine Bluff Associate professor, School of Education, Curriculum and Instruction Past School District Superintendent & Elementary School Principal "Tomato Bisque for the Brain is an outstanding addition to the motivational self-help field as we have been awaiting a compendium of practical self-help quotes and positive affirmations. Individuals struggling with stress, anxiety, life direction, or challenges and obstacles will find this immensely valuable. I have known Dr. Wright for over ten years. He is an intelligent, observant, levelheaded, practical, and innovative thinker in the mental health field. This should be required reading for all individuals who struggle with purpose and direction!" Todd M. CryptoSchool Joachim von zur Gathen,2015-11-20 This book offers an introduction to cryptology, the science that makes secure communications possible, and addresses its two complementary aspects: cryptography---the art of making secure building blocks---and cryptanalysis---the art of breaking them. The text describes some of the most important systems in detail, including AES, RSA, group-based and lattice-based cryptography, signatures, hash functions, random generation, and more, providing detailed underpinnings for most of them. With regard to cryptanalysis, it presents a number of basic tools such as the differential and linear methods and lattice attacks. This text, based on lecture notes from the author's many courses on the art of cryptography, consists of two interlinked parts. The first, modern part explains some of the basic systems used today and some attacks on them. However, a text on cryptology would not be complete without describing its rich and fascinating history. As such, the colorfully illustrated historical part interspersed throughout the text highlights selected inventions and episodes, providing a glimpse into the past of cryptology. The first sections of this book can be used as a textbook for an introductory course to computer science or mathematics students. Other sections are suitable for advanced undergraduate or graduate courses. Many exercises are included. The emphasis is on providing reasonably complete explanation of the background for some selected systems.
