They are promised freedom in exchange for completing the exercise. In return they must endure 30 days without sleep, fuelled by Gas 76-IA. The longer the experimentees endure insomnia, the more they deteriorate. Words and pleasantries break down until they turn on each other. Researchers look on, neutral, and take notes for the super soldier applications possible with this new, wonder drug. One researcher, Luka, stands alone in believing the experiment needs to be stopped before irreversible damage is done but is he too late? The Subjects no longer want the Gas switched off...
