Responsible Tourism David Leslie,2012 Tourism is one of the world's biggest industries. This book discusses responsible tourism as a whole, including the politics, policy and planning behind it, and the major subject sub-topics, such as poverty reduction, the environment, transport, governance, wildlife tours and heritage. It is suitable for university libraries and policy makers.

Atlas geográfico de la República Argentina Mariano Felipe Paz Soldán,1887

Pre-Inca and Inca Pottery Agustina Scaro,Clarisa Otero,Maria Beatriz Cremona,2017-03-20 This volume presents a collection of articles which offer different perspectives for archaeological pottery studies, regarding the understanding of pre-Hispanic social practices in Quebrada de Humahuaca, Argentina. The aim of this volume is to contribute to Quebrada de Humahuaca archaeological knowledge and its inclusion in current discussions about Andean and worldwide history of pottery

production. In 2003, Quebrada de Humahuaca was made a UNESCO World Heritage Site. Numerous tracks, roads and settlements testify to its pre-Hispanic and post pre-Hispanic history from pre-ceramic to colonial times. Due to its strategic position Quebrada de Humahuaca has been colonized by both the Inca and the Spaniards. It also has been a stage for many battles of the Argentine War of Independence. The richness and abundance of ceramic material evidence in the landscape of the Quebrada de Humahuaca has provided archaeologists information about human behaviour and social practices both in every and ritual activities. Quebrada de Humahuaca, in the province of Jujuy (the northernmost sector of Argentina) is one of the most widely recognized archaeological zones and one of the most widely studied. Through extensive excavations of the most conspicuous settlements, archaeologists managed to characterize these pre-Hispanic agricultural societies and construct chronologies of northwestern Argentina, and to elaborate models of trans-Andean population dynamics.

Water and Cities in Latin America Ismael Aguilar-Barajas, Jürgen Mahlknecht, Jonathan Kaledin, Marianne Kjellén, Abel Mejía-Betancourt, 2015-05-08 Approximately 80 per cent of the population of Latin America is concentrated in urban centres. Pressure on water resources and water management in cities therefore provide major challenges. Despite the importance of the issues, there has been little systematic coverage of the topic in book form. This work fills a gap in the literature by providing both thematic overviews and case study chapters. It reviews key aspects of why water matters in cities and presents case studies on topics such as groundwater management, green growth and water services, inequalities in water supply, the financing of water services and flood management. Detailed examples are described from Argentina, Brazil, Colombia, Ecuador, Mexico and Peru, and there is also a chapter comparing lessons which might be learnt from US cities. Contributing authors are drawn from both within and outside the region, including from the Inter-American Development Bank, OECD and World Bank to set the issues in a global context.

Catálogo general razonado de las obras adquiridas en las provincias argentinas á las que se agregan muchas otras más ó ménos raras Antonio Zinny, 1887

The Quintessential Naturalist Douglas A. Kelt, 2007-07-31 Oliver P. Pearson's studies on mammalian biology remain standard reading for ecologists, physiologists, taxonomists, and biogeographers. Reflecting this, the papers gathered here continue to expand our understanding of the ecology and evolution of subterranean mammals, and of ecology, taxonomy, and biogeography of Neotropical mammals, a group that was central to the latter half of Pearson's career.

Mineral Deposits at the Beginning of the 21st Century A. Piestrzynski, 2001-01-01 The Joint 6th Biennial SGA-SEG Meeting was held in Krakow in August 2001. This volume contains 274 extended abstracts, grouped thematically under 18 session titles covering topics such as lead-zinc deposits; metamorphism affecting mineral deposits; and the environmental aspects of mining.
