Culturas y artes de lo poshumano Lucia Santaella,

Desculturar la cultura Víctor Vich, 2019-11-22 En el campo de la cultura, se dice que los que hacen no reflexionan y los que reflexionan no hacen. Esta disociación entre los responsables de la gestión cultural y los académicos se convierte en un obstáculo para que la cultura funcione no sólo como un espacio de trabajo, sino también de intervención y compromiso social. En esa área cada vez más afianzada, no se pueden elaborar políticas sin saber a quiénes afecta la exclusión social y quiénes se movilizan para desafiarla, qué cambios se han operado en el mundo actual, en las instituciones y en las distintas tramas de poder en la sociedad. ¿Cómo proponer políticas culturales transformadoras, que contemplen los diversos espacios de constitución de los sujetos, desde la calle y la televisión hasta los libros y el mundo digital? ¿Cómo pensarlas desde los aportes del pensamiento crítico y los estudios culturales? ¿Cómo construir un proyecto democratizador e integrador, que se distancie del puro activismo tecnocrático? Este libro aborda estas preguntas con decisión política. Escrito con una prosa clara y de fácil acceso, propone que la cultura se involucre transversalmente en las políticas laborales, de vivienda, seguridad o salud, dado que de ellas dependen aspectos tan cruciales como la calidad de vida, la generación de una mayor libertad individual y la disponibilidad de tiempo libre. Y debate largamente con un intelectual de la talla de Mario Vargas Llosa, para esclarecer los vínculos entre cultura, mercado e industrias del entretenimiento. Pensado como un puente entre la academia y la gestión, Desculturar la cultura es una herramienta fundamental para que profesionales, técnicos, artistas, activistas e investigadores articulen esfuerzos y talentos y logren, finalmente, que las políticas culturales impulsen procesos de transformación social en la vida cotidiana.

The Critique of Coloniality Rita Segato, 2022-03-30 This translation of Rita Segato's seminal book *La crítica de la colonialidad en ocho ensayos* offers an anthropological and critical perspective on the coloniality of power as theorized by the Peruvian thinker Aníbal Quijano. Segato begins with an overview of Quijano's conceptual framework, emphasizing the power and richness of his theory and its relevance to a range of fields. Each of the seven subsequent chapters presents a scenario in

which a persistent colonial structure or form of subjectivity can be identified. These essays address urgent issues of gender, sexuality, race and racism, and indigenous forms of life. They set the decolonial perspective to work, and are connected by two central preoccupations: the critical analysis of coloniality and the effort to reimagine anthropology as responsive anthropology, a practice at once answerable and useful to the communities previously regarded as the objects of ethnographic thought. The Critique of the Coloniality makes important and original contributions to our understanding of colonial and decolonial processes, drawing on the author's experience of feminist and antiracist movements and struggles for indigenous and human rights. This book will appeal to students and scholars working in anthropology, Latin American studies, political theory, feminist and gender studies, indigenous studies, and anticolonial, post-colonial, and decolonial thought.

Los desafíos a las televisiones en América Latina : cultura política, comunicación pública e innovación Simone María Rocha, Fabio López de la Roche, 2021-08-02 Pensar la relevancia de la televisión hoy significa abordar los desafíos democráticos que ella enfrenta respecto a las coyunturas políticas, el contexto de convergencia mediática, el papel de los medios públicos y los procesos de innovación y ruptura en la ficción y en los géneros informativos. Todo esto en contextos complejos de polarización política, agudas crisis sociales y presiones a favor del replanteamiento del modelo neoliberal y de sus exclusiones e inequidades. En Los desafíos a las televisiones en América Latina dieciséis especialistas de distintos países del continente estudian el panorama actual y algunos procesos y experiencias en Argentina, Brasil, Chile, Colombia y México. Este libro busca estimular el debate y el desarrollo de estudios críticos sobre la televisión y el ecosistema mediático en su relación con las culturas políticas, las políticas públicas y la innovación en temas, narrativas y formatos, asumiendo los retos como oportunidades de cambios de rumbo y creación de nuevos derroteros para la producción, circulación y recepción crítica del medio televisivo.

La era del globalismo Octavio Ianni, 1999 Éste es un libro sobre algunas de las contradicciones fundamentales de la sociedad global en formación al finalizar el siglo XX. Revela las tensiones que se producen con los desarrollos de la globalización. Son tensiones y contradicciones que atraviesan no sólo las sociedades nacionales, sino también los modos de vida y pensamiento de individuos y colectividades, que abarcan tribus, naciones y nacionalidades en todo el mundo. En grado diferente el mundo es desafiado por las desigualdades sociales, económicas, políticas y culturales generadas o agravadas por la globalización. En ese escenario se forma la ciudad global, resurge y se instala el racismo, se agrava la cuestión social en escala mundial, se sacude la soberanía nacional y emergen estructuras globales de poder. Son muchas las transformaciones que se producen con la globalización, y que desafían las más diversas formas de actuar y resolver problemas, así como los más diferentes estilos de pensamiento. Sí, la era del globalismo ya comenzó. Junto al localismo, al nacionalismo y al regionalismo, así como al imperialismo, se desarrolla el globalismo. A partir del éste se hace posible comprender las dudas y

los horizontes que se abren para el mundo al final del siglo XX, cuando ya se anuncia el siglo XXI. Es ése el nuevo escenario de la historia, y éste es un libro sobre ese nuevo escenario

Culturas híbridas Néstor García Canclini, 2012-08-01 García-Canclini ha sido uno de los principales antropólogos que ha tratado la posmodernidad y la cultura desde la perspectiva latinoamericana. En las actuales condiciones de globalización, encuentro cada vez mayores razones para emplear los conceptos de mestizaje e hibridación. Pero al intensificarse la interculturalidad migratoria, económica y mediática se ve que no hay solo fusión, cohesión, ósmosis, sino confrontación y diálogo. En este tiempo en que las decepciones de las promesas del universalismo abstracto han conducido a las crispaciones particularistas (Laplanche-Nouss), el pensamiento y las prácticas mestizas son recursos para reconocer lo distinto y elaborar las tensiones de las diferencias. La hibridación, como proceso de intersección y transacciones, es lo que hace posible que la multiculturalidad evite lo que tiene de segregación y pueda convertirse en interculturalidad. Las políticas de hibridación pueden servir para trabajar democráticamente con las divergencias, para que la historia no se reduzca a guerras entre culturas. Podemos elegir vivir en estado de guerra o en estado de hibridación. Es útil que se advierta sobre las versiones demasiado amables del mestizaje. Por eso, conviene insistir en que el objeto de estudio no es la hibridez, sino los procesos de hibridación. Así puede reconocerse lo que contienen de desgarramiento y lo que no llega a ser fusionado. Una teoría no ingenua de la hibridación es inseparable de una conciencia crítica de sus límites, de lo que no se deja o no quiere o no puede ser hibridado. Al estudiar movimientos recientes de globalización advertimos que estos no solo integran y generan mestizajes; también segregan, producen nuevas desigualdades y estimulan reacciones diferencialistas. Néstor García Canclini recibió por esta obra, traducida al inglés, italiano y portugués, el Premio Iberoamericano Book Award de la Latin American Studies Association como mejor libro sobre América latina publicado en el período 1990-1992. Esta nueva edición añade un texto en el que el autor analiza los debates sobre hibridación de la última década.

Introducción a la comunicología Francisco Sierra Caballero, 2019-01-21 La comunicación -escribe Daniel Bogueux- prolonga el campo de reflexión de la filosofía actualizando las grandes cuestiones tradicionales sobre lo real, el lazo social, el imaginario, las representaciones y el mito de la cultura. La consideración de esta máxima se nos antoja estratégica cuando abordamos el estudio de la Comunicología. No es posible, en fin, eludir las cuestiones fundamentales de la actual revolución epistemológica, que tiene lugar en la difícil encrucijada que hoy afecta por igual a las ciencias sociales y humanas y a las ciencias naturales, sin referencia al problema de la mediación social, y ello implica, congruentemente, toda una revolución del conocimiento, como consecuencia de la multiplicación de los sistemas de información científico-técnicos, y la propia intensificación del ciclo de innovación y aplicación de las ideas y avances del saber sobre el universo natural y social, que hace necesaria una mirada pausada sobre las bases epistémicas que deben ser tomadas como referencia en la fundamentación de una materia teórica como de la que aquí nos vamos a ocupar. Pero para ello, permita el lector enmarcar

En busca de la seguridad perdida ,1990 La noción de seguridad nacional no es una categoría absoluta, objetiva o universal; es relativa, subjetiva o socialmente condicionada. Tiene que construirse con base en un examen de los contextos sociohistóricos, los valores culturales y las necesidades, percepciones y expectativas de pueblos y estados específicos. En esta obra se presentan los análisis de varios investigadores sobre el concepto, su evolución en México y algunos de los temas y problemas que se desarrollarían en una agenda para futuras investigaciones.

Technological Innovations, Multinational Corporations and the New International Competitiveness Jos Molero,2013-12-19 The aim of this book is to contribute to a better understanding of those intermediate countries with specific reference to two relevant international areas; those countries of southern Europe whose dynamic is very much influenced by the phases of European construction, and in countries of Latin America where the opening up process has changed the traditional role played by multinational corporations.
