**La sociología en España** Fernández Esquinias, Manuel,Domínguez Amorós, Màrius,2022-03-01 Este libro ofrece un análisis integrado de la sociología española como disciplina científica y profesional organizada para la producción de saber sobre la sociedad. Se presenta como una panorámica de la situación de la sociología española en algunos aspectos transversales que moldean y, en algunas ocasiones, determinan las características, condicionantes y líneas de futuro de la disciplina sociológica. El libro reúne dieciocho contribuciones organizadas en seis partes temáticas que abarcan la historia institucional, los rasgos cognitivos, la universidad, la profesión, la producción científica y la presencia social. La aproximación a estos temas, novedosa en muchas de sus facetas, ha requerido la revisión y actualización de una extensa documentación, así como la recopilación y análisis sistemático de datos de diversa índole, estructurados en varios componentes metodológicos: fuentes, registros y legislación sobre el ámbito universitario; estadísticas oficiales del INE y del Sistema de Información Universitario; consultas a instituciones científicas y profesionales de la sociología; encuesta online a profesionales de la sociología; datos bibliométricos sobre la producción científica y las especialidades; e información sobre la presencia de la sociología en los grandes medios de prensa escrita y online. Este trabajo se ha afrontado como tarea colectiva y colaborativa entre instituciones y equipos: es iniciativa de la Federación Española de Sociología con motivo de la

conmemoración de su 40 aniversario. Ha contado con la colaboración del Centro de Investigaciones Sociológicas, a la que se han sumado varias instituciones y personas que han ido dando forma a los temas que, por primera vez, aparecen reunidos en una misma obra.

*Routledge Handbook of European Sociology* Sokratis Koniordos,Alexandros Kyrtsis,2014-09-04 The Routledge Handbook of European Sociology provides over forty original, groundbreaking state-of-the-art accounts, each expert contribution teasing out the distinctively European features of the sociological theme it explores. The Handbook is divided in four parts: intellectual and institutional settings, regional variations, thematic variations, and European concerns.

*INTRODUCCIÓN A LA SOCIOLOGÍA ACTUAL PARA TRABAJO SOCIAL* SÁNCHEZ MORALES, M<sup>a</sup>. Rosario ,DÍAZ MARTÍNEZ, José Antonio ,RODRÍGUEZ RODRÍGUEZ, Rosa María ,2022-10-03 Este es un libro de introducción a la Sociología. Desde el principio, comprobará el lector que la perspectiva sociológica no se asemeja al conocimiento común, sino que, por el contrario, trata de explicar con una metodología propia de las Ciencias Sociales por qué las cosas son como son. Es decir, la Sociología no solo describe la realidad social o cómo es un fenómeno social determinado, sino que trata de encontrar una explicación a ese acontecimiento o fenómeno social. Desde sus orígenes, la Sociología ha tenido esa pretensión científica de estudiar objetivamente la realidad social, de descubrir las regularidades o las leyes de la vida social. Ese es el enfoque que hemos dado a todos los capítulos de esta obra, a través de los cuales se aborda el estudio de los aspectos nucleares que caracterizan la compleja sociedad actual.

[\*\*Sociología rural y de la agricultura: nuevos avances en investigación social de los campos de la globalización agroalimentaria\*\*](#) Andrés Pedreño,Carlos de Castro Pericacho,2025-08-01 Este libro se sitúa dentro de la tradición de los estudios sociales agrarios y rurales que viene desarrollándose en España desde hace décadas desde una perspectiva crítica. La agricultura sigue siendo el sector económico que mayores implicaciones tiene para la gestión de territorio, por ello las ciencias agrosociales han sido también al mismo tiempo un retrato de la sociedad que sostiene esta economía. Si en los años setenta un buen número de publicaciones clásicas dieron cuenta del declive de la agricultura campesina y del éxodo rural-urbano, la entrada de España en la Comunidad Económica Europea y el desarrollo posterior del Mercado Único Europeo marcaron sendos hitos para atender a los nuevos cambios modernizadores en el agro español. Fue la primera oleada globalizadora de la agricultura española. Con el nuevo siglo, el binomio agricultura y sociedad ha experimentado nuevas

transformaciones, tales como: la influencia de las grandes cadenas de distribución de ámbito global en la organización de la agricultura, emergencia de un vigoroso polo productivo a lo largo de la vertiente mediterráneo-atlántica dirigido hacia la exportación -especialmente en el subsector de las frutas y hortalizas en fresco-, nuevas estructuras de propiedad con una plena consolidación del modelo empresarial de agricultura intensiva, la reciente entrada de los fondos de inversión en los capitales agrícolas, nuevas regulaciones de la Política Agraria Comunitaria, desarrollo de una gobernanza público-privada a través de los estándares y certificaciones de calidad, el debate medioambiental y los sistemas alternativos de producción de alimentos, etc. Más de una veintena de investigadores e investigadoras de diferentes universidades españolas, latinoamericanas y europeas rastrean en este libro, desde diferentes ópticas teóricas y temáticas, las implicaciones del proceso de desagrarización y descampesinización, en marcha desde hace décadas en las sociedades rurales, como efecto de la globalización de la agricultura y del sistema alimentario. El abordaje crítico que se presenta da cuenta analíticamente de esos procesos simultáneos de desagrarización y globalización agroalimentaria, sin dejar de presentar las posibilidades de alternativas políticas al régimen alimentario global.

**From Franco to Freedom** Miguel Angel Ruiz Carnicer, 2018-11-01 This book brings together recent research by a group of specialists in history and sociology to provide a new reading of the late Franco dictatorship, especially in relation to its political culture. The authors focus on the election of local, trade union and national representatives, the work of the first Spanish sociologists, the struggle over administrative reform, the role of the media and the intellectuals, as well as the evolution of the dictatorships political class and its response to the regimes decline. Not only are the politics of the late dictatorship scrutinised, but also the mechanisms that were deployed to control the fast-changing society of the 1960s and 1970s. In examining the late Franco period, the contributors do not believe that it contained the seeds of Spains later democratisation, but maintain that certain sectorial regime initiatives -- electoral and political changes, an evolving discourse and an interest in political processes outside Spain -- made many Spaniards aware of the dictatorships contradictions and limitations, thereby encouraging its subsequent political and social evolution. This transformation is compared with the latter stages of the parallel dictatorship in Portugal. The great majority of Spaniards felt that the embrace of democratic freedoms and integration into the European Community was the only way forward during the Transition. But the shift from dictatorship to democracy from the 1960s onwards in Spain needs to be understood in relation to the multitude of political and social changes that took place -- despite the opposition of Franco and the bunker mentality of the regime. These changes manifested in a complex interaction between internal and external factors, which eventually resulted in the transformation of Spanish society itself.

Navarro,Alejandro Romero Reche,Alberto Vallejo Peña,2016-11-25 La sociedad desde la sociología constituye una obra novedosa y didáctica, pensada y diseñada para las generaciones de estudiantes del siglo XXI, cuyo objetivo es ofrecer una amplia, rigurosa introducción al apasionante mundo de la sociología a través de veinticuatro capítulos. Esta obra es fruto del trabajo docente y de las investigaciones de treinta y cuatro sociólogos. Teniendo como telón de fondo los cambios más relevantes de la sociedad española, esta obra pretende ubicar y exponer el significado y las herramientas metodológicas de la sociología en el marco de las ciencias sociales; estudiar la teoría sociológica como mapa de la realidad social; diferenciar los niveles de referencia en el análisis de la sociedad; analizar al individuo como actor y producto de la realidad social; atender a las instituciones sociales donde tiene lugar la vida social, observar las estructuras sociales como clave explicativa de la sociología, presentar el poder, la ideología y el conflicto en la vida social; y todo ello sin olvidar el cambio social, sus procesos y sus agentes. Además en esta aportación el lector podrá encontrar en cada capítulo un glosario de los conceptos fundamentales de la disciplina, el perfil biográfico de los sociólogos clásicos y contemporáneos más relevantes, textos escogidos de las obras más relevantes en el paisaje sociológico mundial, así como una serie de recursos que permitirán profundizar en la disciplina a través de Internet. También se ofrece recursos didácticos como diferentes preguntas para avanzar en el debate y reflexión, películas y documentales relacionados con cada temática, recursos bibliográficos específicos, prácticas de investigación, y lecturas para seguir avanzando en el conocimiento de la Sociología.

**Robert Michels, Political Sociology and the Future of Democracy** Juan Linz,2017-07-05 These essays by the brilliant historian of political science Juan Linz comprise a remarkable intellectual review of the life and work of Robert Michels, his major book Political Parties, and the dimensions of democracy as a functioning system.Linz elucidates the importance of Michels in a way that offers more than a mechanical view of political parties as some sort of precisely ordered system of authority and influence. Instead, Michels offers a view of politics that is bottom up and untidy, what he calls a reciprocal deference structure. Michels is not simply the father of the iron law of oligarchy, but the idea of politics as a less than orderly network of responsiveness, responsibility, and accountability. Linz demonstrates, with magisterial power, why Michels must be ranked as a foremost thinker in classical political sociology. The remaining three segments of the volume

cover areas with which Linz has also long been identified. Each in its own way illuminates aspects of Michels as well. Time and Regime Change articulates differences between change within a regime and change of a regime--sometimes hard to identify because of the elongated time frames involved. The next essay explains why Spain is neither a traditional society nor a successful modern nation. The reliance upon central authority displaced the hoped for evolution of a society based on representative democratic institutions. The final section. Freedom and Autonomy of Intellectuals and Artists is a topic that gripped Michels and Linz alike. Freedom as a goal of the intelligentsia has been frustrated by those who provide ideological justification for repression of ideas and actions in the name of higher values. This segment provides a bridge between Michels and Weber--not to mention both of these major figures with Linz himself. The role of state power in mediating intellectual freedom is the leitmotif that blankets the twentieth century. The work is graced by a full-length bibliography o

**History of Sociology in Chile** Juan Jesús Morales Martín,Justino Gómez de Benito,2022-09-26 This book provides a comprehensive overview of the rich and diverse tradition of social thought in Chile over the last century. The authors emphasize the close relationship between sociology and society, and address large issues such as the institutionalization of sociology in the face of an open modernization process following WWII, the key role played by Chile in the regionalization and internationalization of sociology and social sciences in Latin America from the late 1950s until the 1973 Coup d'état, and the radicalization of sociology and the boom of dependency theories during that time. The analysis extends to independent academic centers that kept sociological thought, social intervention and the democratic dream alive within an authoritarian context, and the role of academic and professional sociology since the return to democracy, which has been attentive to accompanying and interpreting the development of a changing Chilean society. Framed within the country's cultural, economic, historical, social and political experience, this overview of the debates, dissemination, networks, and educational programs associated with sociology, will be of interest to students and scholars of Latin American studies and historical sociology.

*Legado y futuro de la sociología* Manuel Pérez Yruela,2021-03-24 Con motivo del 50.<sup>º</sup> aniversario de la implantación de los estudios de Sociología en la Facultat d'Economia de la Universitat de València, se llevaron a cabo diversas actividades para ahondar en el conocimiento de la institucionalización de esta como disciplina científica y como profesión. Uno de los principales actos fue la conferencia impartida por Manuel Pérez Yruela, cuyo contenido, ampliado, es el texto sobre el que se articula este libro, donde su autor reconstruye cómo se ha afianzado la sociología -«de dónde venimos»; «cómo hemos llegado hasta aquí»-, pero también las limitaciones de este proceso, sobre todo en su consideración como profesión. También se incluye un texto en el que José Beltrán y Rosario Fernández-Coronado exponen retos que se derivan de las reflexiones efectuadas a la luz del texto de Pérez Yruela y de su experiencia como profesores y miembros comprometidos con el

asociacionismo local y nacional de la sociología desde hace años.

*Translocal Ruralism* Charlotta Hedberg, Renato Miguel do Carmo, 2011-10-05 Rural areas are often viewed as isolated and stagnating areas and urban areas as their opposites. Against such a backdrop, this book seeks to unveil a set of dynamics that view rural areas as 'translocal' in the sense that they are 'changing' and 'interconnected'. Social transformations take place in rural areas as the result of intense exchanges between different people, settings and geographies. Accordingly, rural-urban but also rural-rural interrelations on international and national scales are strongly contributing to rural change. Translocal ruralism is exemplified through the analysis of local and global migratory flows, the activities of rural firms in national and global arenas, the spread of different forms of transportation and dislocation, and the growing information society, which enables rural spaces to be connected to the world and improves new ways of interconnection and sociability practices. The book is structured into two parts, which intertwine the dynamics of rural spaces. The first part, 'Linking nodes: people and networks connecting places', is concerned with mobilities such as migration and commuting, and the establishment of national and global networks. The second part, 'International mobilities: a tension between scales', analyses the dynamics of international migration and mobilities in rural areas.

*Trayectorias en Sociología y Ciencia Política* Centro de Investigaciones Sociológicas, 2021-11-24 Desde el año 2002 el Centro de Investigaciones Sociológicas ha promovido el Premio Nacional de Sociología y Ciencia Política, un reconocimiento a la trayectoria académica y científica de las más relevantes figuras de la Sociología y la Ciencia Política de España. Hasta la fecha de publicación de esta obra catorce han sido los galardonados, que sitúan a ambas disciplinas en niveles de excelencia y reflejan las diversas escuelas que han colaborado en el estudio de la evolución de nuestra sociedad y sus tendencias. *Trayectorias en Sociología y Ciencia Política* es un homenaje a las personas premiadas con esta distinción, que se han dedicado a analizar algo tan sutil y complejo de estudiar como son las relaciones sociales y los comportamientos políticos. El libro incluye una semblanza de cada uno de los premiados, realizada por alguno de sus discípulos o colaboradores más cercanos, así como uno de sus trabajos más significativos y una selección bibliográfica final que repasa su producción científica. El Centro de Investigaciones Sociológicas espera que este libro contribuya a destacar la labor de algunos de los sociólogos y polítólogos españoles más distinguidos y el destacado papel de ambas disciplinas.

**Sociology in Ecuador** Philipp Altmann, 2022-11-23 This Palgrave Pivot presents a concise yet comprehensive history of sociology in Ecuador. The case of Ecuador is especially interesting, as Ecuadorian sociology oscillated between theoretical debates—some of them out of time—and a constant search for ways of applying them to the local reality. In the decades after its formal creation in 1915, early academic sociology in Ecuador worked creatively with already outdated theories around positivism and organicism to understand the indigenous population's position, the regional fragmentation, and the formation

of a coherent nation-state in Ecuador. After a short attempt of installing a more technical sociology in the 1960s, those topics were taken up and re-read by Marxist-inspired critical sociology after the 1970s, leading to the nation-wide institutionalization of one particular tradition that could connect to continental debates. This book engages with several relevant debates in social sciences and humanities, particularly by adding to the thriving research on social sciences and the role of the university and higher education in Latin America. Furthermore, it touches some recently influential topics in sociology: Ecuadorian sociology can be read as Southern Theory or engaged with from a postcolonial or decolonial perspective; the research on how ideas travel, are diffused or localized is vital for understanding sociology in Ecuador; the relation between academia and politics; and more.
