Summary of H. G. Bissinger's Friday Night Lights Everest Media,2022-07-16T22:59:00Z Please note: This is a companion version & not the original book. Sample Book Insights: #1 On August 1, the first day of practice for the 1988 season, Coach Gary Gaines delivered his team a new rallying cry: Coin to State in eighty-eight. His words could have come from any high school coach renewing the ritual of sport. #2 Odessa, Texas, was founded in the 1880s by a group of men from Zanesville, Ohio. They saw a great opportunity to make money if they could get people to travel to Odessa. They promoted it as a utopian health spa with a \$12,000 college and a public library. #3 The town of Odessa, Texas, was founded in 1886 by a syndicate of investors who wanted to create a utopian community. However, it was not a good match for the Methodists who arrived to try and fit in with the ranchers and cowboys who were already there. #4 Odessa was a boom town in Texas, and it was enmeshed in the cycles of the boom-and-bust oil town. It became a transient town, a place to come to and make money when the boom was on, and then get as far away from it as possible with the inevitable bust.

A Friday Night Lights Companion Leah Wilson,2011-08-02 Called one of the best shows on TV by more than a dozen media publications, including Time and Entertainment Weekly, Friday Night Lights is not just one of the most critically acclaimed shows on air, it's also one of the most watchable. Despite its focus on high school football, its masterfully crafted characters and honestly portrayed relationships make its portrait of small town Texas life compelling and relatable in ways that have nothing to do with field goals or touchdowns. Love, Loss, and Dillon Football: A Friday Night Lights Companion explores the victories and pitfalls of Dillon, Texas – both the town itself and those who live and love there. Because Friday Night Lights is so much more than just a teenage football drama: it's about the struggle to not get trapped in the circumstances one is born into. It's about love, it's about loss, and, yes, it's even about football.

Sport im Film Robert Gugutzer, Barbara Englert, 2014-10-01 Lange Zeit von den Sozial- und Kulturwissenschaften ignoriert und als bloße Mainstream-Unterhaltung stigmatisiert, erlangt der Sportfilm zunehmend wissenschaftliche Aufmerksamkeit. Der interdisziplinär angelegte Band verdeutlicht das vielfältige und vielschichtige, gleichwohl noch nicht annähernd ausgeschöpfte wissenschaftliche Analyse- und Reflexionspotenzial des Sportfilms. Die Beiträge der national und international renommierten Autorinnen und Autoren fokussieren im Besonderen den Sportspielfilm mit seinen zahlreichen Subgenres wie Football-, Basketball-, Box-, Olympia- und Kampfsportfilm. Das steigende Interesse am Sportfilm resultiert aus der wachsenden Einsicht, dass es sich hierbei um ein Genre handelt, das pointiert gesellschaftliche Zustände, kulturelle Ideologien sowie politisch-ökonomische Strukturen reflektiert und kritisiert. Der Sportfilm thematisiert historische Ereignisse, gesellschaftliche Entwicklungen wie auch individuelle und kollektive (Anti-)Helden. Er gibt Aufschluss über kulturspezifische Besonderheiten des Sports und dessen Verflechtung mit anderen gesellschaftlichen Handlungsfeldern. Darüber hinaus inszeniert er zeitgeisttypische und zugleich allgemeingültige (Körper-)Ideale, Werte, Konflikt- und Handlungsmuster. Der Sportfilm reproduziert damit nicht nur gesellschaftliche und sportliche Wirklichkeit, sondern konstruiert sie im Medium einer emotional wirkmächtigen Bildsprache gleichermaßen mit.

The SAGE Encyclopedia of Communication Research Methods Mike Allen,2017-04-11 Communication research is evolving and changing in a world of online journals, open-access, and new ways of obtaining data and conducting experiments via the Internet. Although there are generic encyclopedias describing basic social science research methodologies in general, until now there has been no comprehensive A-to-Z reference work exploring methods specific to communication and media studies. Our entries, authored by key figures in the field, focus on special considerations when applied specifically to communication research, accompanied by engaging examples from the literature of communication, journalism, and media studies. Entries cover every step of the research process, from the creative development of research topics and questions to literature reviews, selection of best methods (whether quantitative, qualitative, or mixed) for analyzing research results and publishing research findings, whether in traditional media or via new media outlets. In addition to expected entries covering the basics of theories and methods traditionally used in communication research, other entries discuss important trends influencing the future of that research, including contemporary practical issues students will face in communication professions, the influences of globalization on research, use of new recording technologies in fieldwork, and the challenges and opportunities related to studying online multi-media environments. Email, texting, cellphone video, and blogging are shown not only as topics of research but also as means of collecting and analyzing data. Still other entries delve into considerations of accountability, copyright, confidentiality, data ownership and security, privacy, and other aspects of conducting an ethical research program. Features: 652 signed entries are contained in an authoritative work spanning four volumes available in choice of electronic or print formats. Although organized A-to-Z, front matter includes a Reader's Guide grouping entries thematically to help students interested in a specific aspect of communication research to more easily locate directly related entries. Back matter includes a Chronology of the development of the field of communication research; a Resource Guide to classic books, journals, and associations; a Glossary introducing the terminology of the field; and a detailed Index. Entries conclude with References/Further Readings and Cross-References to related entries to guide students further in their research journeys. The Index, Reader's Guide themes, and Cross-References combine to provide robust search-and-browse in the e-version.

The New Plantation B. Hawkins,2010-02-15 The New Plantation examines the controversial relationship between predominantly White NCAA Division I Institutions (PWI s) and black athletes, utilizing an internal colonial model. It provides a much-needed in-depth analysis to fully comprehend the magnitude of the forces at work that impact black athletes

experiences at PWI s. Hawkins provides a conceptual framework for understanding the structural arrangements of PWI s and how they present challenges to Black athletes academic success; yet, challenges some have overcome and gone on to successful careers, while many have succumbed to these prevailing structural arrangements and have not benefited accordingly. The work is a call for academic reform, collective accountability from the communities that bear the burden of nurturing this athletic talent and the institutions that benefit from it, and collective consciousness to the Black male athletes that make of the largest percentage of athletes who generate the most revenue for the NCAA and its member institutions. Its hope is to promote a balanced exchange in the athletic services rendered and the educational services received.

Teaching in the 21st Century Joanne Pauley, 1995 Among the issues facing teachers as the 21st century approaches are: the prevalence of violence, growing racial and socioeconomic divisions in society, and lack of parental involvement. Activities gathered from articles in educational journals are suggested to help children voice their experiences, thoughts, and concerns about violence. Some of these activities are: inviting a police representative to visit the classroom, having children become aware of violence on a favorite television program and then rewriting the show without violence, and helping children feel safe by assisting them in writing the names of people and places to which they can go when feeling scared. Teachers must be aware of not passing on cultural stereotypes; while elementary school children are not able to conceptualize socioeconomic

differences in terms of profession and status, in the current consumer-oriented world, the advantages of wealth and disadvantages of poverty soon become evident to them. Also, teachers should learn as much as possible about the dynamics of their communities and recognize the messages that children are absorbing in their daily experience. Suggestions for promoting parental involvement include recruiting a volunteer to become a liaison between teacher and parents, showing respect for parents by treating them as co-workers rather than as free help, asking for parents' input, and thanking them for their participation.
