**Music Fundamentals for Musical Theatre** Christine Riley,2020-01-09 Musical theatre students and performers are frequently asked to learn musical material in a short space of time; sight-read pieces in auditions; collaborate with accompanists; and communicate musically with peers, directors, music directors and choreographers. Many of these students and performers will have had no formal musical training. This book offers a series of lessons in music fundamentals, including theory, sight-singing and aural tests, giving readers the necessary skills to navigate music and all that is demanded of them, without having had a formal music training. It focuses on the skills required of the musical theatre performer and draws on musical theatre repertoire in order to connect theory with practice. Throughout the book, each musical concept is laid out clearly and simply with helpful hints and reminders. The author takes the reader back to basics to ensure full understanding of each area. As the concepts begin to build on one another, the format and process is kept the same so that

readers can see how different aspects interrelate. Through introducing theoretical ideas and putting each systematically into practice with sight-singing and ear-training, the students gain a much deeper and more integrated understanding of the material, and are able to retain it, using it in voice lessons, performance classes and their professional lives. The book is published alongside a companion website, which offers supporting material for the aural skills component and gives readers the opportunity to drill listening exercises individually and at their own pace. Music Fundamentals for Musical Theatre allows aspirational performers - and even those who aren't enrolled on a course - to access the key components of music training that will be essential to their careers.

**Songwriters of the American Musical Theatre** Nathan Hurwitz, 2016-09-01 From the favorites of Tin Pan Alley to today's international blockbusters, the stylistic range required of a musical theatre performer is expansive. Musical theatre roles require the ability to adapt to a panoply of characters and vocal styles. By breaking down these styles and exploring the output of the great composers, *Songwriters of the American Musical Theatre* offers singers and performers an essential guide to the modern musical. Composers from Gilbert and Sullivan and Irving Berlin to Alain Boublil and Andrew Lloyd Webber are examined through a brief biography, a stylistic overview, and a comprehensive song list with notes on suitable voice types and further reading. This volume runs the gamut of modern musical theatre, from English light opera through the American Golden Age, up to the mega musicals of the late Twentieth Century, giving today's students and performers an indispensable survey of their craft.

**Experiencing Broadway Music** Kat Sherrell, 2016-09-29 *Experiencing Broadway Music: A Listener's Companion* explores approximately the last century of American musical theater, beginning with the early-twentieth-century shift from European influenced operettas and bawdy variety shows to sophisticated works of seamlessly integrated song and dance that became uniquely American. It concludes with an examination of current musical trends and practices on Broadway. As a musician who works on Broadway and in developmental musical theater, Kat Sherrell draws on her knowledge both as a historian of Broadway musical form and as a professional Broadway musician to offer an insider's perspective on the development and execution of the past and present Broadway scores. Despite its enormous breadth, and given the historical significance of the musical in modern popular culture, *Experiencing Broadway Music* provides listeners—whether they know musical theater well or not at all—with the tools and background necessary to gain an understanding of the highly variegated structure and character of the Broadway musical over the past century.

*Hollywood Sings!* Susan Sackett, 1995 The musical history of Hollywood and the Academy Awards goes back to 1934, when *The Continental* from *The Gay Divorcee* won the first Oscar for Best Original Song. Since then, Oscar-nominated songs have come from every genre, including dance numbers, serious compositions, and rock and roll. Author Sackett lists the songs nominated each year through 1993, listing lyricists and composers, the film each appeared in, and historical information and inside anecdotes. Appendixes list title songs, films that songs have been nominated from, most Oscar nominations by lyricist (first is Sammy Cahn with 26) and by composer (James Van Heusen, 14), and other Oscar factoids.
