ADMINISTRACIÓN HUMANISTA Carlos Arturo Téllez Bedoya,2018-08-01 La administración, a lo largo de su evolución, ha venido precedida de prácticas empíricas que han evolucionado a la aplicación de un modelo tecnocrático, expresado en la especialización, división del trabajo y búsqueda de maximización en la producción, a través de la eficacia.

Ello redundó en impactos negativos para las organizaciones, influenciando la pérdida del sentido de pertenencia de los colaboradores, altos niveles de rotación, enfermedades laborales, estrés y, al mismo tiempo, pérdida de rentabilidad para la empresa. Este texto presenta a través de un recorrido histórico, cómo la ciencia administrativa puede comprenderse a través de paradigmas teóricos diferenciales como el radical humanismo. En este contexto, también, se aborda la responsabilidad social empresarial, comprendiendo sus antecedentes como campo disciplinar administrativo y propuestas para repensar la organización, a través de una óptica crítica. Es de resaltar, ello se evidencia, en el estudio de caso de los sectores hotelero y cooperativo en Colombia, al igual que distinta información secundaria, que justificó el proceso investigativo. Así mismo, el lector complementará la comprensión del paradigma humanista, identificando las principales características en el desarrollo empresarial nacional e internacional y la caracterización actual de la hotelería, como objeto de estudio del turismo. El humanismo hoy, sin duda alguna, representa la oportunidad de repensar las organizaciones, de modificar el rol que generalmente se le ha atribuido a la administración y, a través de la gestión y la responsabilidad social empresarial, impactar decisivamente el tejido social y el entorno de las empresas.

Procesos de asociatividad como fuente de construcción de conceptos y modelos de gerencia en Colombia Luis Alberto Gutiérrez Mejía,2024-03-15 Analizar la asociatividad en Colombia para identificar su aporte en formular teoría e implementar prácticas gerenciales es el objeto del trabajo. Primero analiza el concepto de asociatividad y su aplicación; luego analiza el concepto de gerencia. Es un estudio que identifica el contenido expreso y el sentido latente del discurso gerencial en esas entidades y si ha contribuido a implementar teorías o estilos gerenciales. La fuente fue una muestra de entidades asociativas; a sus directivos se les hizo una entrevista semiestructurada basada en una guía con 17 ítems gerenciales, grabadas para su posterior análisis con Atlas-Ti. Se revisaron los estatutos de las entidades, su comunicación institucional y los temas centrales de los congresos ; a partir de eso se aislaron las palabras clave para análisis y con base en ello, identificar el modelo de gerencia que practican y predicen estas entidades. Al mismo tiempo, ello permitió vislumbrar hacia dónde se dirigen, mediante el análisis de tendencia. En un esfuerzo por evitar o controlar el sesgo, además de hablar con los directivos de las entidades asociativas, se habló con directivos y empleados de empresas asociadas a las primeras, siguiendo el mismo modelo de entrevista semiestructurada. Se pretendió considerar el sentido latente del discurso en cuanto tiene que

ver con el lenguaje aprehendido por los directivos a partir de los modelos, mediante la hermenéutica del discurso en sus aristas económica y política.

Voces del pensamiento ambiental Jaime Alberto Pineda, Carlos Alberto Chacón, Giovanie Soto, Andrés Alberto Arias, Samuel López, 2016-10-01 Estructurado como una composición musical, con un preludio y seis movimientos, este libro es un esfuerzo por entretejer voces críticas en torno al concepto y las realidades del desarrollo, tal y como es entendido por la cultura posindustrial occidental contemporánea, e intenta comprender las tensiones que se revelan entre aquél, las ciudades, la tierra, la naturaleza y la vida.

Lento crecimiento y caída del bienestar en la economía de Baja California Juan Manuel Ocegueda Hernández, Alejandro Mungaray Lagarda, Rogelio Varela Llamas, Ramón Amadeo Castillo Ponce, Antonio de Jesús Rosas Valenzuela, Natanael Ramírez Angulo, Rolando Daniels Pinto, Paulo Alfonso Carrillo Regino, Pedro Antonio Ramonetti Vega, Rosalba Fabiola Rodríguez Cerón, Sylvia Mónica Pérez Núñez, Ana Bárbara Mungaray Moctezuma, Belem Dolores Avendaño Ruiz, Gilberto Martínez Sidón, Ana Isabel Acosta Martínez, Mayra Yesenia Nava Rubio, Roberto Iván Fuentes Contreras, Martín Ramírez Urquidy, Germán Osorio Novela, Emilio Hernández Gómez, 2019-08-23 La profunda crisis de 2008 cambió por completo la relación entre sectores poblacionales y empresariales, compañías nacionales y extranjeras -grandes y pequeñas-, y entre empresarialidad y trabajo asalariado. Con la homologación del IVA y del salario, Baja California dejó de ser tratada diferente -a pesar de su vecindad fronteriza con California-, lo que trajo como consecuencia una falta de crecimiento en la entidad, desmotivó la llegada de inversiones externas y provocó que el estado cayera al lugar 25 en competitividad a nivel nacional. El crecimiento del comercio informal ha dado lugar a un panorama de desigualdad, con un ingreso per cápita 10% inferior al presentado en 2008. De esta forma, para el año 2016 se tiene que 30% de los bajacalifornianos con mayores ingresos concentró tan sólo 10%. Más aún, el 10% más rico y el 10% más pobre concentran, respectivamente, 32% y 2.2% de la riqueza. Aunado a ello, la economía informal ya concentra a alrededor de 40% de la población ocupada, debido a que el privilegiado sector moderno de exportación ha dejado de generar empleos decentes. En este sentido, la reciente política pública ha asumido la responsabilidad de crear un nuevo escenario para recuperar la economía de bienestar en Baja California, donde el derecho del trabajo decente para proveerse de bienestar a través de sus remuneraciones sea tan apreciado como el del capital para obtener ganancias razonables que premien su inversión, y el de los emprendedores de cualquier nivel económico y social para allegarse por sí mismos de ingresos. Un aumento salarial, la disminución del IVA e ISR, y la homologación de precios de energéticos apuntan en esa dirección.

Political Regimes in the Arab World Ferran Izquierdo Brichs, 2012-11-27 One of the implications of Orientalism is that the Arab world, as a homogenous entity, is often analysed as an anomaly within the international system. This book argues that, despite their differences, societies across the globe ultimately construct their own history according to very similar dynamics

and tensions. The methodological approach of this book, using different countries within the Arab world as models, offers the reader an analysis of relations between the elites and their opposition in a variety of settings. A definition of the political structure of each country is drawn from this analysis before potential future scenarios, as according to country specific experts, are proposed. This model provides a useful contribution to students and scholars of political science and international relations. Through providing a comparative study of the political regimes currently operating in the Arab world; their elites, civil society, power resources and political resistance, this book illustrates that despite the image of homogeneity sometimes portrayed by the Arab world, it is the multiplicity of models and heterogeneity of regimes that constitute reality.

Governance as a Catalyst for Public Sector Sustainability Baporikar, Neeta,2023-03-27 Proper implementation and the practice of governance in the public sector improve organizational performance through increased efficiency, productivity, quality, and innovation. Ultimately, governance helps organizations make better decisions, streamline processes, and reduce re-work, whilst also increasing integrity by bringing transparency and greater collaboration among stakeholders. Governance as a Catalyst for Public Sector Sustainability examines the concepts that have powerfully influenced development policy and investigates the role of governance in these institutions and how they have affected current development discourse. Covering topics such as public health sector sustainability, institutional participatory governance, and human resource information systems, this premier reference source is an excellent resource for government officials, policymakers, students and educators of higher education, librarians, researchers, and academicians.

Leadership and Organizational Sustainability Elia Socorro Díaz Nieto,David Israel Contreras Medina,Roberto Tuda Rivas,2023-06-27 The book presents a new type of leadership focused on sustainable human development and organizational sustainability, which is based on the self-realization of the person of the leader, which means the satisfaction of their needs, according to the scale of Abraham Maslow, through integral human development in all aspects of life. Because the term leader appears to refer to anyone with the authority to confer a position with subordinates, the reality within organizations has shown that a leader must go further and demonstrate commitment, awareness, and concern for the common good. Which person has these characteristics? People who have had more opportunity to develop in different areas of their being, resulting in them being conceived as more educated. The qualities in a person are the basis of leadership. Education and practice are much more important than all hereditary and genetic codes. This volume explores the various ways of making explicit the dimensions of social, economic, and environmental sustainability through knowledge management that addresses the identification, collection, processing, circulation, use, exchange, and preservation of knowledge within operating systems and the context of organizations, considering issues that contribute to sustainability - human and organizational - where the leader is the main actor and the means is knowledge management.

Administración pública electrónica: hacia el procedimiento administrativo electrónico Rincón Cárdenas, Erick,Vergara, Camilo,2017-04-18 Una vez aprobada el 12 de junio de 1996 la Ley Modelo sobre Comercio Electrónico y de Firma Electrónica por parte de la Comisión de las Naciones Unidas para el Derecho Mercantil Internacional —CNUDMI— nace el principio de equivalencia funcional, al cual se le dedica éste análisis. Se expone durante el trabajo, cómo el principio de equivalencia funcional ha contribuido a darle vida al derecho sustancial preexistente por medio del uso y la implantación de las nuevas tecnologías de la información y las telecomunicaciones dentro de cada uno de los diferentes marcos jurídicos de los estados. Asimismo, se realiza una descripción sobre cómo algunos países han incorporado dentro de su marco jurídico interno este principio, generando el reconocimiento de validez jurídica y probatoria a los mensajes de datos electrónicos. Este reconocimiento legal ha permitido que las funciones y fines estatales sean optimizados y mejorados por medio del uso de las nuevas tecnologías emergentes. El estudio ha demostrado que gracias al principio de equivalencia funcional se ha logrado armonizar e incorporar al interior de su legislación el uso de nuevas tecnologías y dotar a estas últimas de atributos jurídicos, que para el caso de estudio en concreto, demuestra la mejora en la relación Administración y ciudadanos por medio del procedimiento administrativo electrónico.
