Thoughts of Life and Love Greg Moreland, 2016-01-22 Thoughts of life and love is a two volume poetry book about how I see life and love thru my eyes, and my vision on how I perceive the things around me. This book is my labor of life and the love I have for my parents and friends. I hope people can see what I am trying to convey to each person that reads the book. This has been written over the years and I finally put it in a book. I wrote about things that had an effect on my life and the people around me. I tried to write it in a way to not hurt anyone feelings but to get a point across about life. I am not perfect I make mistakes but I try to live a good life. I hope people get a list of what I am trying to relay to people who read this book and I hope everyone enjoy it.

It's Not Rocket Science Clive Whichelow, Hugh Murray, 2014-02-06 Over last thirty years, new technology, fashion, and social set-ups have spawned new cliches galore. Everything on the Internet is available at the 'click of a mouse', TV presenters ask the audience to 'give it up' when they want them to applaud, call centres tell us 'we value your call' even though 'all our operators are busy'. And if you're 'gobsmacked' by all this you may be told to 'get a life', 'chill out' or 'whatever'. *It's Not Rocket Science* sifts through all aspects of modern life to find the most prevalent, ubiquitous and downright irritating cliches of our age. This high-octane, caffeine-fuelled, dictionary of cliches highlights the freshly-hackneyed phrases we're being subjected to 24/7. So how good is that? And what's not to like?

Palmistry Julian Moore, One of the best, most practical guides for learning this ancient divination technique that's ever hit the market. **THIS BOOK IS A MUST!** - Craig Browning In his new book, 'Speed Learning ~ Palm Readings In Your Own Words', Julian Moore teaches the basics of palmistry using proven techniques which mean that you could be reading palms in less than 48 hours! This ebook and ten accompanying FLASH CARDS can get you up to speed quicker than you ever thought imaginable, while still creating your own style and being true to yourself without having to pretend that you're a great showman or anything other than yourself. 'Speed Learning ~ Palm Readings In Your Own Words' shows you how to give REAL readings that CONNECT with people. Most people who decide to learn palmistry are easily put off when they first pick up a palmistry book, there's so much information and more often than not, no clear description of even what ORDER to read the different elements of the hand in. This is not like those other books. It teaches you a step-by-step way of reading people's palms that's almost impossible to forget, and as it encourages you to create YOUR OWN way of describing what the lines and

fingers mean, the speed of learning is greatly increased. You're not just learning 'parrot style', you're creating your OWN versions of how to talk about the meanings of the hand, which makes them entirely memorable! REVIEWS No hype...just plain good! You can't go wrong if you just DO what Julian describes. I've always shied away from palmistry because I thought the system was too complicated. Julian has changed all that. And, the memory cues are an added bonus. It just can't get any easier. - Nicholas After reading Julian's book, and going through the flash cards a couple of times, I have a practical knowledge of palm reading that I didn't have 48 hours ago. My progress is clear and tangible. Today, I was able to improvise a palm reading session with one of my regular clients, and it went very well. I'm excited! That's why I'm writing this review, hoping that some of you also take advantage of this beautiful tool that Julian is sharing with us. - Enrique Enriquez - member of Kenton Knepper's S.E.C.R.E.T. school and co-author of the groundbreaking book 'Mind Reading' A very useful tool for both learning and reviewing palmistry basics. For learning you have taken the concept of flash cards and made the cue cards much more of a memory exercise; thereby, challenging the mind to create rather than just repeat. For the pro you have given some interesting slants on certain traits that add further dimension and depth to a reading. The cards provide an excellent review tool for all practicing palmists as it allows them to review traits and characteristics that may not appear commonly in their practice. - Charles Green & Eugene Bourgal An excellently laid out summation of the essence of palmistry, designed to teach you as you go along. I can certainly see how one can get this today and start giving mini-readings tomorrow night. Better yet, learn it all easily in a week and give real readings and be able to answer questions. This book actually teaches easily, speedily the essence of palmistry. Nice job. I'd recommend this to anyone starting out in the field. Well worth the money. - Tom Jorgenson OTHER KINDLE BOOKS IN THE SPEED LEARNING SERIES BY JULIAN MOORE Speed Learning: Graphology - The Art Of Handwriting Analysis Speed Learning: Cartomancy - A Playing Card Reading Primer Speed Learning: The James Bond Cold Reading

Agency and Self-awareness Johannes Roessler, Naomi Eilan, 2003 Leading philosophers and psychologists join forces to investigate a set of problems to do with agency and self-awareness, in seventeen specially written essays. In recent years there has been much psychological and neurological work purporting to show that consciousness and self-awareness play no role in causing actions, and indeed to demonstrate that free will is an illusion. The essays in this volume subject the assumptions that motivate such claims to sustained interdisciplinary scrutiny. Patients with Anarchic Hand syndrome

sometimes find their hands perform apparently goal-directed actions which the patients disown, yet seem to be unable to suppress (for example, reaching out for someone else's food in a restaurant). On the face of it, these patients lack the kind of control and self-awareness we ordinarily take ourselves to have when acting intentionally. Questions raised by this phenomenon include: What is involved in being aware of an action as one's own? What is the nature of the control these patients are lacking and which characterizes normal intentional actions? What is the relation between a priori explanations of consciousness and self-consciousness, on the one hand, and empirical work on the information-processing mechanisms involved in action control, on the other? Questions of action control and self-awareness tend to be treated separately in both philosophy and psychology. The central idea behind this volume is that outstanding unresolved issues on both topics, and in both disciplines, can only be resolved by an interdisciplinary examination of the relations between them. The editors' useful introductory essay offers a guide to cross-disciplinary reading of the contributions, and makes connections between them explicit. The book will be compulsory reading for psychologists and philosophers working on action explanation, and for anyone interested in the relation between the brain sciences and consciousness.

Talk to Her A. W. Eaton, 2008-10-27 Pedro Almodóvar is one of the most renowned film directors of recent years. Talk to Her is one of the most discussed and controversial of all his films. Dealing principally with the issue of rape, it also offers profound insights into the nature of love and friendship whilst raising important philosophical and moral questions in unsettling and often paradoxical ways. This is the first book to explore and address the philosophical aspects of Almodóvar's film. Opening with a helpful introduction by Noël Carroll that places the film in context, specially commissioned chapters examine the following topics: The relationship between art and morality and the problem of 'immoralism' Moral injury and its role in the way we form moral judgments, including the ethics of love and friendship The nature of dialogue, sexual objectification and what 'listening to' means in the context of gender Almodóvar's use of allusion and the unmasking of appearances to explore hidden themes in human nature. Including a biography of Almodóvar, Talk to Her is essential reading for students interested in philosophy and film as well as ethics and gender. It also provides an accessible and informative insight into philosophy for those in related disciplines such as film studies, literature and religion. Contributors: Noël Carroll,

The Intelligent Movement Machine Michael Graziano, 2009 In *The Intelligent Movement Machine: An Ethological Perspective on the Primate Motor System*, Michael Graziano offers a fundamentally new theory of motor cortex organization: the rendering of the movement repertoire onto the cortex. The action repertoire of an animal is highly dimensional, whereas the cortical sheet is two-dimensional. Rendering the action space onto the cortex therefore results in a complex pattern, explaining the otherwise inexplicable details of the motor cortex organization. This clearly written book includes a complete history of motor cortex research from its discovery to the present, a discussion of the major issues in motor cortex research, and an account of recent experiments that led to Graziano's action map view. Though focused on the motor cortex, the book includes a range of topics from an explanation of how primates put food in their mouths, to the origins of social behavior such as smiling and laughing, to the mysterious link between movement disorders and autism. This book is written for a general audience, and should be of interest to experts, students, and the scientific lay.

Don'T Talk to the Dunnyman James Palmer, 2018-08-31 All his life, John has been moving around. His father's job as a surveyor takes them all over Australia, but his most recent place of employment is in Queensland. The journey was hard what with all the flooding, but they eventually make it. While unloading the car, John hears a voice and makes an unexpected friend. Ceddy is a ten-year-old Aboriginal boy. Although their skin tones don't match, John and Ceddy become friends. Together, they face many challenges as they go up against dangers of the Outback and, even worse, small town racial prejudices. Despite difficulties, they have adventures, make other friends, and learn slowly how to become men. Author James Palmer, who, like John, spent his youth moving from place to place, tells this story with humour and heart. He draws a picture of the salty characters that were all around his own childhood and gives them life. John's story is one of tragedy, philosophy, folly, and bigotry, all differing aspects coming together to make a rich page-turner.
