Ideology and Power of Literary Criticism Samiran Kumar Paul, 2020-07-02 This book is mainly focused on inter-disciplinary studies in English literature and language. All streams of evolutionary and civilization theories and practices have been discussed. The forgotten Marxists and Marxism have been re-discussed with theories from other disciplines such as Freudian and psychoanalytical. This is very interesting to walk in the corridor of literature, economics, political science, society and socialism, science and technology, democracy to bio racy, from simple to super and over. Modern smile, cry, glamour and sex. That literature now has created an empire by raising philosophical questions from science and religion; from society to sociology and social science.

200 Themes for Devising Theatre with 11-18 Year Olds Jason Hanlan, 2024-02-22 Shortlisted for Outstanding Drama Education Resource at the 2025 Music & Drama Education Awards A unique resource for drama teachers providing 200 stimuli and age-appropriate individual topics within those to help inspire and guide young people in devising performance. It contains useful information on devising techniques, workshops, schemes and lesson ideas for introducing devising and guidance on how to analyse the work and give feedback. Following on from his successful book 200 Plays for GCSE and A-Level Performance, author Jason Hanlan has once again solved one of drama teachers' most frequently encountered problems: how to unlock the best devised performance with their students. Devising as a group requires a level of collaboration, which - without a strong framework - often descends into wild flights of fancy and a myriad of dead ends. Excellent ideas can be lost or diluted in an often-awkward attempt to tie it all together to fit a narrative. The main body of this book is a unique numbered listing of 200 stimuli, designed to both inspire and focus the mind, with an example of a possible topic and 'ways in' that would be suitable for each level: Civil rights Each stimuli is given its own page dedicated to exploring its possibilities as a piece of devised theatre for different age groups, and offering suggestions for plays, films and books to look at; artefacts and images to examine; ideas to consider; and further research you can draw on.

Writing Themes About Literature Edgar V. Roberts, 1969

The Midwestern Novel Nancy L. Bunge, 2014-12-12 With Huckleberry Finn, American fiction changed radically and shifted its setting to the middle of the country. A focus on social issues replaced the philosophic and psychological explorations that dominated the work of Melville and Hawthorne. Colloquial speech rather than elevated language articulated these fresh ideas, while common folk rather than dramatic characters like Ahab and Hester Prynne played central roles. This transformation of American literature has been largely ignored, while during the 130 years since Huckleberry Finn the Midwest has continued to produce writers whose work, like Twain's, addresses injustice by portraying the decency of ordinary people. Since the end of the 19th century, Midwestern authors have dismissed the elite and celebrated those whom the power structure typically excludes: children, women, African-Americans and the lower classes. Instead of wealth and power, this literature values authenticity and compassion. The book explores this literary tradition by examining the work of 30 Midwestern writers including F. Scott Fitzgerald, Willa Cather, Ernest Hemingway, Richard Wright, Saul Bellow, Toni Morrison, Jonathan Franzen, Jane Smiley and Louise Erdrich.

From Yahweh to Yahoo! Doug Underwood, 2010-10-01 Presenting religion as journalism's silent partner, From Yahweh to Yahoo! provides a fresh and surprising view of the religious impulses at work in contemporary newsrooms. Focusing on how the history of religion in the United States entwines with the growth of the media, Doug Underwood argues that American journalists draw from the nation's moral and religious heritage and operate, in important ways, as personifications of the old religious virtues. Underwood traces religion's influence on mass communication from the biblical prophets to the

Protestant Reformation, from the muckraker and Social Gospel campaigns of the late nineteenth and early twentieth centuries to the modern age of mass media. While forces have pushed journalists away from identifying themselves with religion, they still approach such secular topics as science, technology, and psychology in reverential ways. Underwood thoughtful analysis covers the press's formulaic coverage of spiritual experience, its failure to cover new and non-Christian religions in America, and the complicity of the mainstream media in launching the religious broadcasting movement.

Heroes, Antiheroes and Dolts Ashton D. Trice,Samuel A. Holland,2017-07-06 This book is a discussion of 75 of the most popular films in America from 1921 through 1999 and the changes that have taken place in how masculinity is portrayed in the movies over that period of time. Traditionally in popular films, men have met challenging tasks, but what they accomplish and how successful they are have been drastically changed since the early 1920s. Prior to World War II, men were most often presented within the context of a family. After the war, men were presented as concerned with issues beyond their immediate families, and after 1970, they were portrayed as being overwhelmed by their situations. Recently, popular films have tended to focus on the relationships between men. This work documents these changes over eight decades, using the movies as vehicles to illustrate the major transformations.

The Essential Films of Ingrid Bergman Constantine Santas,James M. Wilson,2018-09-15 Ingrid Bergman was not only an incomparable beauty but one of the finest actresses of cinema's Golden Age. She made her start in modest productions in Sweden before Hollywood beckoned and soon became one of film's brightest stars. She appeared in many acclaimed films including *Casablanca*, *For Whom the Bell Tolls*, and *Gaslight*. While her personal life was briefly tainted by an affair and a consequent falling out with the American public, Bergman was eventually able to return to Hollywood, and eventually earned two of her three Academy Awards. In *The Essential Films of Ingrid Bergman*, Constantine Santas and James Wilson look at the most notable performances of the award-winning actress's career. From her early work in Swedish films to her final role in the mini-series *A Woman called Golda*, this book analyzes the entirety of Bergman's on-screen career, paying special attention to those aspects of her acting that made her stand out most—her undeniable range of emotion, her stunning

vulnerability, and her indisputable beauty. Among the films discussed in this volume are *Casablanca*, *Gaslight*, *Spellbound*, *The Bells of St. Mary's*, *Notorious*, *Indiscreet*, and *Murder on the Orient Express*. This volume looks at each of Bergman's most significant films, covering nearly five decades of film making, from Swedish productions to her final films. Each entry provides production history, plot summaries, film highlights, and major award details. Highlighting more than twenty productions, *The Essential Films of Ingrid Bergman* is a must-have for every fan of the legendary actress.

Orchestral "Pops" Music Lucy Manning, 2013-10-10 In this second edition of *Orchestral "Pops" Music: A Handbook*, Lucy Manning brings forward to the present her remarkable compendium of information about this form of orchestral music. Since the appearance of the first edition in 2008, this work has proven critical to successful "pops" concert programming. With changes in publishers and agents, the discontinuation of the publication of certain original material or, worst of all, presses going out of business, music directors, orchestra conductors, and professional instrumentalists face formidable challenges in tracking down accurate information about this vast repertoire. This revised handbook alleviates the time-consuming task of researching these changes by offering a list of works for orchestral "pops" concerts that is comprehensive, informative, and current. Manning's emphasis on clarity and accuracy gives users an indispensable tool for gathering vital information on the style, instrumentation, and availability of the repertoire listed, as well as notes on its performance. The user-friendly appendices include expanded instrumentation choices, easy-to-find durations, and handy title cross-references. In addition to corrections and updates, this new edition of *Orchestral "Pops" Music* includes at least 1,000 new title listings. *Orchestral "Pops" Music: A Handbook* is the ideal tool for working conductors and orchestral librarians, as well as music program directors at colleges, conservatories, and orchestras.

Roberto Gerhard Monty Adkins, Rachel E. Mann, 2022-11-10 Marking the 125th anniversary of the birth of Roberto Gerhard, this work views the composer's life and oeuvre through the lens of the Spanish Civil War, exile, and cultural translation. Through these different threads, a new and more nuanced understanding of Gerhard and the political and cultural milieu that influenced his work emerges.

Ernest Hemingway: critiques of four major novels Carlos Heard Baker, 1962

Student Companion to Ernest Hemingway Lisa Tyler, 2001-09-30 The fully-lived, yet tragically ended life of Ernest Hemingway has attracted nearly as much attention as his extensive canon of writings. This critical study introduces students to both the man and his fiction, exploring how Hemingway confronted in his own life the same moral issues that would later create thematic conflicts for the characters in his novels. In addition to the biographical chapter which focuses on the pivotal events in Hemingway's personal life, a literary heritage chapter overviews his professional developments, relating his distinctive style to his early years as a journalist. With clear concise analysis, students are guided through all of Hemingway's major works including *The Sun Also Rises* (1926), *A Farewell to Arms* (1929), *For Whom the Bell Tolls* (1940), and *The Old*

Man and the Sea (1952). Full chapters are also devoted to examining his collections of short fiction, the African Stories, and the posthumous works. Each chapter carefully examines the major literary components of Hemingway's fiction with plot synopsis, analysis of character development, themes, settings, historical context, and stylistic features. Alternate critical readings are also given for each of the full length works. An extensive bibliography citing all of Hemingway's writings as well as biographical sources, general criticism, and contemporary reviews will help students understand the scope of Hemingway's contributions to American Literature.

Hemingway on Love Robert W. Lewis, 2014-08-04 Love was a central theme of Ernest Hemingway's major works. And although his passages on sexual love and on romantic love may be widely remembered and frequently quoted, says Robert W. Lewis in this scholarly and detailed consideration, Hemingway's later work revealed his ultimate belief that brotherly love was the supreme love of mankind. Eros, Hemingway concluded, was a neutral value, neither good nor bad in itself, but yet capable of complementing agape in giving man pleasure. By examining the forms and essences of the various kinds of love, Hemingway worked out an explanation and tentative solution to the troubles of the human condition. The tradition of romantic love that had prevailed in Western literature had challenged sexual love and brotherly love and had been confused with them since the Middle Ages. Hemingway's early work was destructive of romantic love, says Lewis; the work of his

middle career was crucial in his exploration for the supreme love and the means to whatever peace and happiness man may achieve. By the time he wrote *The Old Man and the Sea*, his ethic was formulated and he could write conclusively of the trial and lesson of love in Western civilization in a way that reflected his discovery that true love must be a reciprocal blend of eros and agape between man and woman, man and man, and man and his world.

Chris Crawford on Interactive Storytelling Chris Crawford, 2004-10-06 As a game designer or new media storyteller, you know that the story is everything. However, figuring out how to tell it interactively-and in a way that keeps your audience coming back for more-can be challenging. Here to help you out (and to open your mind to ever more creative ways of producing those stories) is the man who created the cult publication *The Art of Computer Game Design* and who has devoted much of his career to that very topic: Chris Crawford. To highlight the path for future gains in the quest for a truly interactive story, Chris provides a solid sampling of what doesn't work, contrasting unsuccessful methodologies with those that hold promise for the future. Throughout you'll find examples of contemporary games that rely on different technologies-and learn the storytelling lessons to be garnered from each of the past methodologies. Within the context of interactive storytelling, Chris explores ways of providing conflict and challenge, the difference between low- and high-interactivity designs, the necessity to move beyond purely visual thinking (so that the player is engaged on multiple levels), and more.
