Return of the Western Sue Matheson, 2025 Transmitting the crisis that Frederick Jackson Turner and Theodore Roosevelt feared when the frontier closed, the Western has returned to reveal a cultural watershed at work in twenty-first century America, revitalized with horror, terror and the peccant. Darkened and dystopic, contemporary Westerns point to a national bankruptcy, upending the notion that regenerative, civilizing impulses direct nation-building. Exploring films like *Open Range* (2003), *Yahşi Batı* (2010), *The Keeping Room* (2015), *Little Woods* (2018), and *First Cow* (2019), as well as television series like *Justified* (2010-2015), *Longmire* (2012-2017), *Westworld* (2016-2022), and *Yellowstone* (2020 -), this thought-provoking collection examines re-constituted masculinities, feminine re-fashioning and new directions in Western filmmaking. Covering a wide range of aesthetic and thematic concerns, *Return of the Western: Refracting Genre, Representing Gender in the Twenty-First Century* reminds us how deeply this versatile genre is grounded in the American psyche.

American Western Stephen McVeigh, 2007-02-14 This wide-ranging book illuminates the importance of the Western in American history. It explores the interconnections between the Western in both literature and film and the United States in the 20th century. Structured chronologically, the book traces the evolution of the Western as a uniquely American form. The author argues that America's frontier past was quickly transformed into a set of symbols and myths, an American meta-narrative that came to underpin much of the 'American century'. He details how and why this process occurred, the form and function of Western myths and symbols, the evolution of this mythology, and its subversions and reconstructions throughout 20th-century American history. The book engages with the full range of historical, literary and cinematic perspectives and texts, from the founding Western histories of Theodore Roosevelt and Frederick Jackson Turner to the New Western history of Patricia Nelson Limerick and Richard White.

*The History of American Literature on Film* Thomas Leitch, 2019-06-13 From William Dickson's Rip Van Winkle films (1896) to Baz Luhrmann's big-budget production of *The Great Gatsby* (2013) and beyond, cinematic adaptations of American literature participate in a rich and fascinating history. Unlike previous studies of American literature and film, which emphasize particular authors like Edith Wharton and Nathaniel Hawthorne, particular texts like *Moby-Dick*, particular

literary periods like the American Renaissance, or particular genres like the novel, this volume considers the multiple functions of filmed American literature as a cinematic genre in its own right—one that reflects the specific political and aesthetic priorities of different national and historical cinemas even as it plays a decisive role in defining American literature for a global audience.

**Who Owns Our Bodies?** John Spiers, Ray Robinson, 2020-01-30 This book explores the controversial dilemmas which meet at the intersection of medicine philosophy and law - questions concerning killing and not killing which are faced daily in health care. They embrace euthanasia abortion the care of the elderly and the demented the care of the mentally ill children and those in a persistent vegetative state. *Who Owns our Bodies?* identifies a crisis both in ethics and in empowerment as people face often necessarily wretched choices. It seeks a framework of guidance for practical decision-making and focuses on two key issues. First who decides on an individual's quality of life and thus on their health care treatments? Second how can patients be empowered with a structure to enable choice self-realization self-reflection and self-responsibility? John Spiers with characteristic clarity and verve offers a fundamental choice between health care experienced as hierarchy and control and the alternative of choice and self-responsibility. He argues that health care must rely on patients deciding how much power they have not on professionals deciding how much to grant them.

*Native Americans in the Movies* Michael Hilger, 2015-10-16 Since the early days of the silent era, Native Americans have been captured on film, often in unflattering ways. Over the decades, some filmmakers have tried to portray the Native American on screen with more balanced interpretations—to varying degrees of success. More recent films such as *The New World*, *Flags of Our Fathers*, and *Frozen River* have offered depictions of both historical and contemporary Native Americans, providing viewers with a range of representations. In *Native Americans in the Movies: Portrayals from Silent Films to the Present*, Michael Hilger surveys more than a century of cinema. Drawing upon his previous work, *From Savage to Nobleman*, Hilger presents a thorough revision of the earlier volume. The introductory material has not only been revised with updated information and examples but also adds discussions of representative films produced since the mid-1990s. Now organized alphabetically, the entries on individual films cover all relevant works made over the past century, and each entry contains much more information than those in the earlier book. Details include film summary nation represented image portrayal production details DVD availability Many of the entries also contain comments from film critics to indicate how the movies were regarded at the time of their theatrical release. Supplemented by appendixes of image portrayals, representations of nations, and a list of made-for-television movies, this volume offers readers a comprehensive and up-to-date overview of hundreds of films in which Native American characters have appeared on the big screen. As such, *Native Americans in the Movies* will appeal not only to scholars of media, ethnic studies, and history but also to anyone interested in the portrayal of Native Americans in cinema.

Historical Dictionary of Westerns in Literature Paul Varner, 2010-09-20 When in 1902 Owen Wister, a member of the Eastern blueblood aristocracy and friend of novelist Henry James, became a best-selling novelist with the publication of *The Virginian*, few readers would have guessed that a new kind of American literature was being born. While Owen Wister was enjoying his success, Edwin S. Porter in New Jersey was filming the first cinema Western *The Great Train Robbery*, which would usher in a new era both of movies in general and of Western movies in particular. Both events would lead to a century of cultural fascination with stories of the old West. The *Historical Dictionary of Westerns in Literature* tells the story of the Western through a chronology, a bibliography, an introductory essay, and hundreds of cross-referenced dictionary entries on authors such as Owen Wister, Zane Grey, Max Brand, Clarence Mulford, Ernest Haycox, Luke Short, Dorothy Johnson, Louis L'Amour, and Cormac McCarthy.

Screen, Culture, Psyche John Izod, 2016-02-04 Screen, Culture, Psyche illuminates recent developments in Jungian modes of media analysis, and illustrates how psychoanalytic theories have been adapted to allow for the interpretation of films and television programmes, employing Post-Jungian methods in the deep reading of a whole range of films. Readings of this kind can demonstrate the way that some films bear the psychological projections not only of their makers but of their audience, and assess the manner in which films engage the writer's own psyche. Seeking to go beyond existing theories, John Izod explores the question of whether Jungian screen analysis can work for ordinary filmgoers - can what functions for the scholar be said to be true for people without a background in Jung's ideas? Through detailed readings of a number of films and programmes, John Izod builds on the work previously done by Jungian film analysts, and moves on to contemplate the level of audience engagement. Offering deep readings of films directed by Kubrick and Bernardo Bertolucci, as well as satirical comedy, documentaries and twenty-first century Westerns, the book explores the extent to which they manage to make the psychological impact on spectators that films of a similar kind have done on Jungian writers. The author concludes that the screen texts with the best likelihood of impacting the culture of the audience through their collective psychological force fall at opposite ends of the size and budget range: highly personal documentaries, and the most affecting of mainstream genre movies. This innovative text will be essential reading for psychoanalysts and therapists, as well as students and scholars of

film with an interest in understanding how screen products work psychologically to engage the viewer.
