Handbook on the History and Culture of the Black Sea Region Ninja Bumann,Kerstin S. Jobst,Stefan Rohdewald,Stefan Troebst,2024-12-30 Following the annexation of Crimea by the Russian Federation in spring 2014 – 160 years after the Crimean War – and the full-scale invasion of Ukraine in February 2022, the Black Sea region has again become the focus of world history. In this handbook, international scholars from various historical and cultural disciplines provide deep historical insights into the structures of conflict, cooperation, and interrelations between the Balkans, the Middle East, the Caucasus, and Eastern Europe in the space referred to as the Black Sea world. The trans-maritime communication and intra-regional circulations, spanning from Antiquity to the present day via, Byzantium, the Polish-Lithuanian Commonwealth, the Crimean Khanate, the Venetian, Safavid, Ottoman, and Romanov empires, two World Wars, and the Cold War, highlight the autonomy of this historical region in the larger transcontinental setting – designated in various times and varying languages as the Pontus Euxinus, the Mare Maggiore, the Kara Deniz, the Chernoe More, or the Black Sea. This voluminous edition sheds real light upon the history of the Black Sea region from antiquity until the end of the 20th century. Not only does this first-rate book provide a host of excellent historical essays across time, it also devotes considerable attention to important questions regarding how the Black Sea region is conceptualized and theorized. A very useful contribution. (James H. Meyer, Montana State University) In the wake of several research projects, monographs and journals, this is the first groundbreaking handbook on the cohesive history of the Black Sea as a historical meso-region. It gathers 39 excellent contributions that

provide the conceptual apparatus, survey the history of the region from a Greek to Byzantine to Ottoman lake, to conflicting rivalries, to its recent transformation from a quasi-Soviet to a quasi-NATO lake, examine the ideas that underpin the various national, ethnic and religious identities, research the different mobilities through migration, transport, infrastructure, and take stock of its turbulent history through conflicts and war.” (Maria Todorova, University of Illinois at Urbana-Champaign) Mostly the work of scholars from Central Europe and the Black Sea region, this massive volume focuses on the relationship between historical research and memory, in particular the difficulty of certain groups living in the region when confronted with empires and nation states, whose centers may be quite distant from the Black Sea. Attentive readers may thus view the present handbook not merely as a work of reference on history, memory and movement, but also as a testimony to the historical perspectives developed by a significant number of Central European and Black Sea scholars during the first quarter of the twenty-first century. (Suraiya Faruqi, Ibn Haldun University, Istanbul)

The Geopolitical Black Sea Encyclopaedia Dan Dungaciu, 2020-08-12 Today, we know what the Black Sea is not from a strategic perspective, but we do not know what it is. This strategic indecision is the explanation for all the conflicts, frozen or not, explicit or tacit, and all the political and geopolitical tensions that are now taking place in this space and that are becoming endemic. The story of the Black Sea continues... This text is the first encyclopaedia explicitly dedicated to the geopolitics of the Black Sea, written for Western audiences, an academic research which appeals to the wider academic community, PhD students, professors, and researchers, and to any reader interested in geopolitics, history, international relations, economy, sociology, history, and geography.

The Black Sea Emil Vespremeanu, Mariana Golumbeanu, 2017-11-24 This book underpins the geography of the Black Sea, covering topics such as morphology, morphography, geology, and history of the Black Sea. It also discusses environmental aspects affecting the population in the Black Sea's coastal settlements and looks to the future of the Black Sea region. This book covers a gap in research in the field of world regional geography of the Black Sea by providing a comprehensive methodology and terminology to readers, students and teachers in the field.

Blue Black Sea Giray Saynur Bozkurt, 2014-07-24 This book presents the opinions of experts and researchers from the Black Sea states with respect to history, security, politics, strategy, energy, and economy in the region, and explains various dimensions of the present international relations and problem areas from both theoretical and conceptual perspectives. Offering the reader a comprehensive approach that covers a wide range of affairs, it is hoped that this book will fill an important gap in international relations studies. While the added word “Blue” in the title indicates our shared aspirations for a clean and peaceful future, overall this book is intended to provide valuable academic assessments and share them with the wider world community, thus disseminating findings about the regional and global policies being pursued in the Black Sea region today.

The Black Sea Region Oleksandr Pavliuk,Ivanna Klympush-Tsintsadze,2016-07-08 The ring of countries bordering the Black Sea make up one of the unstable subregions of former Soviet republics, satellites and neighbours. The Art of the Genoese Colonies of the Black Sea Basin (1261-1475) Rafał Quirini-Popławski,2023-09-20 Rafał Quirini-Popławski offers here the first panorama of the artistic phenomena of the Genoese outposts scattered around the Black Sea, an area whose cultural history is little known. The artistic creativity of the region emerges as extraordinarily rich and colorful, with a variety of heterogeneous, hybrid and intermingled characteristics. The book questions the extent to which the descriptor Genoese can be applied to the settlements' artistic production; Quirini-Popławski demonstrates that, despite entrenched views of these colonies as centres of Italian and Latin culture, it was in fact Greek and Armenian art that was of greater importance.

The Bright Black Sea C. Litka,2015-09-15 Captain of a ship haunted by its past. When Wil Litang, the first mate of the tramp freighter Lost Star, reluctantly accepted the job as acting captain, little did he realize that the Lost Star had a mysterious and dangerous past. A past that had caught up with it. And a future filled with danger and discoveries that would eventually lead him to the real Lost Star. The Bright Black Sea is the first volume of the Lost Star Stories. The novel is set in the Nine Star Nebula - a compact nebula of nine stars and hundreds of planets, wrapped within vast fields of asteroids, gas, and dust. Drawing on the classic space opera motifs of space ships, space pirates, sentient robots, and uncharted worlds of wonder, C. Litka crafts an epic story full of mystery, danger, and romance. Join Captain Wil Litang and the crew of the Lost Star and escape to a wonder-filled future in the black and bright space of the Nine Star Nebula. The adventures of Captain Wil Litang continue in concluding volume of the Lost Star Stories - The Lost Star's Sea, an epic adventure novel written in the classic planetary romance motif made famous by Edgar Rice Burroughs. C. Litka writes old-fashioned novels with modern

sensibilities, humor, and romance. His lighthearted novels of adventure, mystery, and travel are set in richly imagined worlds and feature a colorful cast of well drawn characters. If you seek to escape, for a few hours, your everyday life, you will not find better company, nor more wonderful worlds to travel and explore, than in the novels of C. Litka..

The Colonies of Genoa in the Black Sea Region Evgeny Khvalkov, 2017-07-28 This book focuses on the network of the Genoese colonies in the Black Sea area and their diverse multi-ethnic societies. It raises the problems of continuity of the colonial patterns, reveals the importance of the formation of the late medieval / early modern colonialism, the urban demography, and the functioning of the polyethnic entangled society of Caffa in its interaction with the outer world. It offers a novel interpretation of the functioning of this late medieval colonial polyethnic society and rejects the widely accepted narrative portraying the whole history of Caffa of the fifteenth century as a period of constant decline and depopulation.

History in Black Yaacov Shavit, 2013-11-12 The development of Afrocentric historical writing is explored in this study which traces this recording of history from the Hellenistic-Roman period to the 19th century. Afrocentric writers are depicted as searching for the unique primary source of culture from one period to the next. Such passing on of cultural traits from the ancient model from the classical period to the origin of culture in Egypt and Africa is shown as being a product purely of creative history.

The Northern Black Sea in Antiquity Valeriya Kozlovskaya, 2017-07-03 The Northern Black Sea region, despite its distance from the centers of classical civilizations, played an integral role in the socioeconomic life of the ancient Greco-Roman world. The chapters in this book, written by experts on the region, explore topics such as the trade, religion, political culture, art and architecture, and the local non-Greek populations, from the foundation of the first Greek colonies on the North Pontic shores at the end of the seventh and sixth century BCE through the first centuries of the Roman imperial period. This volume closely examines relevant categories of archaeological material, including amphorae, architectural remains, funerary and dedicatory monuments, inscriptions, and burial complexes. Geographically, it encompasses the coastal territories of modern Russia and Ukraine. The Northern Black Sea in Antiquity embraces an inclusive and comparative approach while discussing new archaeological evidence, offering fresh insights into familiar questions, and presenting original interpretations of well-known artifacts.

It contains theoretical and empirical approaches towards various aspects of tourism concerning both innovations in tourism development and in foreign languages education. As a whole, the book presents innovative solutions and processes in tourism, including management and staff training, provoked by today’s opportunities and challenges for future tourism development. The first part is dedicated to issues in tourism innovation, ranging from those provoked from the changing global environment and tourism demand, through to social innovations concerning tourism products and human resources management. The second section of the book deals with traditions and innovations in foreign language education oriented to managers, operational staff and decision-makers in tourism.

Around the Black Sea William Eleroy Curtis, 1911 Author was a journalist. This volume is a collection of newspaper letters written in the summer and autumn of 1910. Curtis was a witness to some of the violence against Armenians taking place in Turkey and wrote two articles about that, as well as discussing similar violence in Romania and other places. He was fascinated by Muslim women and seemed to equate female liberation as simply the wearing of Parisian fashions rather than the veil. Curtis also wrote about the successes and failures of Christian missions to the region as well as religion-based political conflict within each nation. Florence Nightingale, oil, railroads, education, and much more make up this account from an eyewitness source.

Aquatic Invasions in the Black, Caspian, and Mediterranean Seas Henri J. Dumont, Tamara A. Shiganova, Ulrich Niermann, 2004-06-29 The Mediterranean, Black, and Caspian Seas, the rivers and canals that connect them, and the enormous volume of shipping in the region, represent a conduit for aquatic invasion, whose consequences are only now beginning to be understood. This book provides an up-to-date overview of jelly invasions in the Ponto-Caspian which have affected local ecosystems since the early 1980s, contrasting that with other biological invasions, in search of underlying principles.
