The 16-bar Theatre Audition Michael Dansicker,2003 Many large theatre auditions call for a '16-bar' excerpt. Musical theatre professionals often complain that singing actors need help in choosing and constructing a 16-bar audition. This [four-volume] series solves that problem forever. Each excerpt has been given a thoughtful, graceful, and effective form, drawing from Broadway, Off-Broadway, standards, movie songs, and the occasional pop song.--Back cover.

Confederate Sheet Music E. Lawrence Abel,2015-06-14 During the American Civil War, songs united and inspired people on both sides. The North had a well-established music publishing industry when the war broke out, but the South had no such industry. The importance of music as an expression of the South's beliefs was obvious; as one music publisher said, The South must not only fight her own battles but sing her own songs and dance to music composed by her own children. Southern entrepreneurs quickly rose to the challenge. This reference book is distinguished by three major differences from previously published works. First, it lists sheet music that is no longer extant (and listed nowhere else). Second, it gives complete lyrics for all extant songs, a rich source for researchers. And third, a brief historical background has been provided for many of the songs. Each entry provides as much of the following as possible (staying faithful to the typography of each title page): the title as published, names of all lyricists, composers and publishers; dates of publication; cities of publication; and if applicable, the names of catalogs or magazines in which the song appeared. Music published in Southern cities under Federal occupation is excluded.

Recognising European Modernities Allan Pred,2014-02-25 For over a century, Europe has been characterised by a plurality of capitalist modernities. At any moment, each country possesses its own distinctly modern qualities which are

partly shaped through interrelationships with other countries. Each European commodity society has experienced successive, but different overlapping, periods of industrial modernity (large scale factories and urban growth), high modernity (social modernization promoted by social engineering) and hypermodernity (the acceleration of modernity, yielding new circumstances and sensibilities). Interrogating contemporary hypermodern Europe thus requires an exploration of industrial and high modern Europe. *Recognising European Modernities* explores a century of civilisation through a critical examination of the extreme case of Sweden. Using montage - relayering multiple pasts and on-going present - the book challenges the contemporary obsession with postmodernity, demanding a deeper, more connective understanding of the pleasures and dangers of the European present. The author visits three spectacular spaces: the Stockholm Exhibition of 1897, the Stockholm Exhibition of 1930 and the Globe, a contemporary multi-purpose arena. Analysis of these pivotal spaces reveals the on-going process of modernization as new forms of consumption are repeatedly entangled in changing discourses of power to be reworked and translated into cultural politics.

Religious Belief and Popular Culture in Southwark c.1880-1939 S. C. Williams,1999-05-27 This book challenges the domination of the institutional church as the overriding concern of nineteenth-century religious history by taking as its starting point the nature and expression of religious ideas outside the immediate sphere of the church within the wider arena of popular culture. It considers in detail how these beliefs formed part of a richly textured language of personal, familial, and popular identity in the day-to-day lives of the inhabitants of the London Borough of Southwark between c.1880 and the outbreak of the Second World War. The study highlights the persistence of patterns dismissed as alien to the industrial and urban environment. The interaction of folk idioms with institutional religious language and practice is also considered and

urban popular religion is identified as a distinctive system of belief in its own right. This study also pioneers a methodology for exploring belief and interpreting it as a popular cultural phenomenon. A wide range of source materials are drawn on including oral history. Centrality is given to understanding the ways in which individuals expressed and communicated their religious ideas.
