A Mattress Maker's Daughter Brendan Dooley, 2014-03-10 In explaining an improbable liaison and its consequences, A Mattress Maker's Daughter explores changing concepts of love and romance, new standards of public and private conduct, and emerging attitudes toward property and legitimacy just as the age of Renaissance humanism gives way to the Counter Reformation and Early Modern Europe.

**The Renaissance World** John Jeffries Martin, 2015-01-09 With an interdisciplinary approach that encompasses the history of ideas, political history, cultural history and art history, this volume, in the successful Routledge Worlds series, offers a sweeping survey of Europe in the Renaissance, from the late thirteenth to early seventeenth centuries, and shows how the Renaissance laid key foundations for many aspects of the modern world. Collating thirty-four essays from the field's leading scholars, John Jeffries Martin shows that this period of rapid and complex change resulted from a convergence of a new set of social, economic and technological forces alongside a cluster of interrelated practices including painting, sculpture, humanism and science, in which the elites engaged. Unique in its balance of emphasis on elite and popular culture, on humanism and society, and on women as well as men, The Renaissance World grapples with issues as diverse as Renaissance patronage and the development of the slave trade. Beginning with a section on the antecedents of the Renaissance world, and ending with its lasting influence, this book is an invaluable read, which students and scholars of history and the Renaissance will dip into again and again.

*Prospettive* Laurent Binet, 2024-09-17T00:00:00+02:00 Firenze, 1557. Pontormo sta lavorando da undici anni al suo capolavoro, gli affreschi del coro della basilica di San Lorenzo. Quando il pittore viene trovato assassinato proprio ai piedi del coro, il duca di Firenze Cosimo de' Medici incarica delle indagini il suo fiduciario, Giorgio Vasari, a sua volta celebrato artista e architetto. A lui il compito di mettere in fila una catena di misteri che scuote la corte di Cosimo: un pittore morto ammazzato, un quadro audace che sfida l'autorità del duca, un assassino che sembra svanito nel nulla. Vasari, alla ricerca di un aiuto, si rivolge al vecchio Michelangelo, ormai esule a Roma, ma la situazione a Firenze richiede discrezione, lealtà,

sensibilità artistica e astuzia politica. L'Europa, d'altronde, è una polveriera pronta a esplodere: con l'Italia contesa tra Francia e Spagna, il duca di Firenze deve affrontare le mire della regina di Francia, sua cugina Caterina, alleata con un suo vecchio nemico, il repubblicano Piero Strozzi. E mentre nei conventi della città si nascondono nostalgici di Savonarola, a Roma il papa ha condannato come immorali le nudità che Michelangelo ha dipinto nella Cappella Sistina. Laurent Binet trascina il lettore negli intrighi della Firenze dei Medici, tra potenti senza scrupoli che tramano nell'ombra e i segreti dei più grandi artisti del Rinascimento. In una città che è il centro del mondo, dove non ci si può fidare di nessuno, Giorgio Vasari deve risolvere un omicidio che può cambiare la storia: tutti giocano le proprie carte, tutti sono sospettati. "Laurent Binet è uno scrittore prodigo." Antonio D'Orrico, Sette - Corriere della Sera "Laurent Binet è un chiaro erede di Umberto Eco." The Observer "Vivace, spericolato, intelligente." The Times

**The Italian Academies 1525-1700** Jane E. Everson, Denis Reidy, Lisa Sampson, 2016-04-14 The intellectual societies known as Academies played a vital role in the development of culture, and scholarly debate throughout Italy between 1525-1700. They were fundamental in establishing the intellectual networks later defined as the 'République des Lettres', and in the dissemination of ideas in early modern Europe, through print, manuscript, oral debate and performance. This volume surveys the social and cultural role of Academies, challenging received ideas and incorporating recent archival findings on individuals, networks and texts. Ranging over Academies in both major and smaller or peripheral centres, these collected studies explore the interrelationships of Academies with other cultural forums. Individual essays examine the fluid nature of academies and their changing relationships to the political authorities; their role in the promotion of literature, the visual arts and theatre; and the diverse membership recorded for many academies, which included scientists, writers, printers, artists, political and religious thinkers, and, unusually, a number of talented women. Contributions by established international scholars together with studies by younger scholars active in this developing field of research map out new perspectives on the dynamic place of the Academies in early modern Italy. The publication results from the research collaboration 'The Italian Academies 1525-1700: the first intellectual networks of early modern Europe' funded by the Arts and Humanities Research Council and is edited by the senior investigators.

Leonardo's Lost Robots Mark Rosheim,2006-06-15 Leonardo's Lost Robots reinterprets Leonardo da Vinci's mechanical design work, revealing a new level of sophistication not recognized by art historians or engineers. By identifying his major technological projects, the book reinterprets Leonardo's legacy of notes, showing that apparently unconnected fragments from dispersed manuscripts actually comprise cohesive designs for functioning automata. Using the rough sketches scattered throughout almost all of Leonardo's notebooks, the author has reconstructed Leonardo's programmable cart, which was the platform for other automata: a Robot Lion, a Robot Knight, and a hydraulically powered automaton for striking a bell. Through a readable, lively narrative, Mark Rosheim explains how he reconstructed da Vinci's designs. In a foreword the world-renowned Leonardo scholar Carlo Pedretti interprets the significance of these reconstructions for our understanding of Leonardo's oeuvre.

**Orpheus in the Marketplace** Tim Carter,Richard A. Goldthwaite,2013-11-04 This record of Florentine musician Jacopo Peri's wide-ranging investments and activities in the marketplace enables the first detailed account of the Florentine economy in the late sixteenth and early seventeenth centuries, and opens a completely new perspective on one of Europe's principal centers of capitalism.

*The Prodigious Muse* Virginia Cox,2011-09-01 Winner, 2012 Book Award, Society for the Study of Early Modern WomenHonorable Mention, Literature, 2012 PROSE Awards, Professional and Scholarly Publishing Division of the Association of American Publishers In her award-winning, critically acclaimed Women's Writing in Italy, 1400-1650, Virginia Cox chronicles the history of women writers in early modern Italy—who they were, what they wrote, where they fit in society, and how their status changed during this period. In this book, Cox examines more closely one particular moment in this history, in many ways the most remarkable for the richness and range of women's literary output. A widespread critical notion sees Italian women's writing as a phenomenon specific to the peculiar literary environment of the mid-sixteenth century, and most scholars assume that a reactionary movement such as the Counter-Reformation was unlikely to spur its development. Cox argues otherwise, showing that women's writing flourished in the period following 1560, reaching beyond the customary feminine genres of lyric, poetry, and letters to experiment with pastoral drama, chivalric romance, tragedy, and epic. There were few widely practiced genres in this eclectic phase of Italian literature to which women did not turn their hand. Organized by genre, and including translations of all excerpts from primary texts, this comprehensive and engaging volume provides students and scholars with an invaluable resource as interest in these exceptional writers grows. In addition to familiar, secular works by authors such as Isabella Andreini, Moderata Fonte, and Lucrezia Marinella, Cox also discusses important writings that have largely escaped critical interest, including Fonte's and Marinella's vivid religious narratives, an

unfinished Amazonian epic by Maddalena Salvetti, and the startlingly fresh autobiographical lyrics of Francesca Turina Bufalini. Juxtaposing religious and secular writings by women and tracing their relationship to the male-authored literature of the period, often surprisingly affirmative in its attitudes toward women, Cox reveals a new and provocative vision of the Italian Counter-Reformation as a period far less uniformly repressive of women than is commonly assumed.

**Music, Patronage and Printing in Late Renaissance Florence** Tim Carter, 2024-10-28 This collection of reprinted essays starts from the author's doctoral research on Jacopo Peri and the rise of opera and solo song in late sixteenth- and early seventeenth-century Florence. It extends to broader issues concerning music and patronage in the city as they affected individual composers, patrons and institutions, and thence to the commerce of music printing and the book trade. It concludes with an attempt to suggest a broader view of these various issues as they impact upon musical life in the 'provinces' in Tuscany. There is a great deal of new documentary and other information here, but the aim is also to expand methodological horizons so as to prompt new ways of thinking about music in its contexts.

**Europa Triumphans** J. R. Mulryne, Helen Watanabe-O'Kelly, Margaret Shewring, Sarah Knight, 2010-02 A landmark in the study of early modern Europe, this two-volume collection makes available for the first time a selection of the most important texts from court and civic festival books. Festival entertainments were presented to mark such occasions as royal and ducal entries to capital cities, dynastic marriages, the birth and christening of heirs, religious feasts and royal and ducal funerals. Europa Triumphans represents the chronological and trans-European range of the court and civic festival. These festivals are considered not simply as texts, but as events, and are introduced by groups of scholars, each with a specialist knowledge of the political, social and cultural significance of the festival and of the iconography, spectacle, music, dance, voice and gesture in which they were expressed. To demonstrate the geographic spread and political significance of festivals, and to illustrate the range of aesthetic languages they deploy, the festivals included in these two volumes are grouped in the following sections: Henri III; Genoa; Poland-Lithuania; The Netherlands; The Protestant Union; La Rochelle; Scandinavia; and The New World. These texts provide many valuable insights into the variety of political systems and historical circumstances that formed them. Beautifully produced with 148 black-and-white and 23 colour illustrations, Europa Triumphans represents an invaluable reference source for the study of early modern Europe. It presents texts both in transcription and translated into English, and is supplemented with introductory essays and commentaries. Europa Triumphans is co-published by Ashgate and the Modern Humanities Research Association, in conjunction with the AHRB Centre for the Study of the Renaissance at the University of Warwick, UK.

**Music and Culture in Late Renaissance Italy** Iain Fenlon, 2002-12-05 Explores the role of music in the cultural, religious, and political upheavals of late Renaissance Italy, revealing how musical activity of all kinds was instrumentalized by those in power.
