The Impact of Openness and Ambiguity Tolerance on Learning English as a Foreign Language Brygida Lika, 2024-01-09 This book highlights the importance of individual learner differences in learning English as a foreign language and reports the findings of a study which investigated the impact of two personality traits, which are, openness to experience and ambiguity tolerance, on target language attainment among Polish secondary school students. The book

provides an exhaustive overview of the theoretical issues and existing research related to personality, emphasizing the two traits under investigation, openness, and ambiguity tolerance, which are the focus of the empirical study reported later in the book. The empirical investigation explored relationships between openness to experience and ambiguity tolerance, as well as their impact on attainment in learning English as a foreign language. Moreover, it also aimed to shed light on the link between these traits and students' assessments (i.e., self-assessment and school grades). The findings of the study provide a basis for proposing specific profiles of foreign language learners with different levels of openness and ambiguity tolerance.

The Art of Exegesis Matthew E. Borrasso,2019-02-27 Although he loomed large during his lifetime, Martin Hans Franzmann has faded away in the minds of American Lutherans. Memories of him typically orbit around an appreciation for his hymnody. He was, however, more than a hymn writer. To only understand or appreciate his hymns is to only understand or appreciate a part of him. This book seeks to shine a light on a brilliant and gifted poet of the church by unpacking and analyzing his life and work. In so doing, it is hoped that he will loom large once again. Franzmann's hymns have endured for a reason, namely because he was singularly focused on teaching people to hear the voice of God in the text of the Scriptures.

Student Teaching K.J. Fasching-Varner,2014-02-07 The journey of becoming a teacher is a complicated, emotional, and often intricate endeavor. Much has been written about pre-service teachers but rarely do we understand the journey through their own voices. Join nine pre-service teachers as they share their experiences, challenges, and victories through a series of powerful narratives. Committed to making the process more transparent for those embarking on a similar journey, the chapter authors share honest, personal, and heartfelt viewpoints about what it means to become a teacher. The nine pre-service teachers in this volume all participated in a yearlong student teaching in the renowned Elementary Holmes Master of Arts in Teaching program at Louisiana State University. Putting to practice critical perspectives about what it means to teach in the 21st century, these authors expose their vulnerabilities with a range of literary approaches including metaphor,

reflective journaling, and storytelling. The volume is framed by teacher educator insights about the contexts and complexities of teaching. A must read for anyone preparing to student teach, or for those already student teaching, *Student Teaching: A Journey in Narratives* deals directly with the realities of learning to teach. Sometimes poetic, sometimes painful, these compelling personal narratives of novice teachers provide a poignant view of the struggles, fears, and celebrations developing teachers traverse on the journey to induction into the profession. Teacher educators and teacher candidates alike will find much to explore and discuss in these chapters. No stone of learning to teach is left unturned! – Lisa Delpit, Author of *Other People's Children: Cultural Conflict in the Classroom* and *Multiplication is for White People: Raising Expectations for Other People's Children*

Stakeholders' Perspectives on Assessment and Improvement of Quality in Early Childhood Education and Care: A World-Wide Kaleidoscope Antonia Elisabeth Enikoe Baumeister, Hui Li, Linda Joan Harrison, 2024-08-29 The key aims of early childhood education and care (ECEC) are to offer children from all social backgrounds a good start in their lives, to support parenting as well as families' workforce participation, and, thereby, to sustainably strengthen the national economy over current and future generations. High-quality ECEC has been shown to improve child outcomes and be a buffer against developmental risk factors. For these reasons, governments, ECEC providers, and researchers are placing an increasing focus on the frameworks and systems that underpin quality as well as the measures that assess quality. At the same time, however, research on ECEC as a multidisciplinary endeavor has shown that the aims and benefits of high-quality ECEC can only be reached when all stakeholders' needs are acknowledged and sufficiently met. For example, recent evidence suggests that the acceptability and social validity of quality assessment and improvement methods are contested among some stakeholders, and thus, the sustainability of these quality efforts may be in doubt. New challenges also include the ever-changing nature and circumstances affecting ECEC stakeholders, for example, the greater flows of refugee families and the impact of the Covid-19 pandemic. This Frontiers Research Topic will contribute to an updated knowledge base in order to inform governments, providers, and the scientific community about best practices and new solutions for conceptualizing, measuring, and improving ECEC quality. The aim of the proposed Research Topic is to generate a worldwide kaleidoscope of research studies that explore and discuss models for gathering the perspectives of multiple stakeholders and considering the meaningfulness of stakeholder views for conceptualizing, assessing, and improving quality in ECEC. We believe that greater attention needs to be given to the diversity of stakeholders who are invested in ECEC, including government regulatory authorities, service providers, educators, families, communities, and children. We also believe that wide-ranging stakeholder input will generate innovative methods for assessing and improving quality that keep pace with our rapidly changing information society. Two further foci are set on ECEC practices: (1.) that support participation, diversity, and inclusion of all children and families and (2.) that are suitable for developing countries and diverse populations within countries. In this, the

focus is not only on best practices but also on the limitations of practices. In soliciting research articles on ECEC stakeholder perspectives, we describe stakeholders as inclusive of government/non-government regulatory agencies, service providers, teachers and caregivers, families, communities, and children. Themes of interest include but are not limited to: • Assessment of quality in ECEC, including self-assessment approaches; • The design of and use of quality frameworks in ECEC; • Effects of quality and of quality improvement on children and families; • Drivers and indicators of quality improvement; • Acceptance and sustainability of quality efforts among ECEC stakeholders; • Policy expectations of quality rating and improvement systems (e.g., funding policy); • The role of teacher and caregiver professionalization; • All types of center-based and home-based ECEC. We are interested both in quantitative and qualitative research designs as well as in mixed-methods research. Cross-sectional, longitudinal, (quasi-)experimental and case study designs are welcome. The following article types are welcome: original research, empirical studies, systematic reviews, community case studies, policy briefs articles, and brief research reports.

Cultural Citizenship and Popular Culture Joke Hermes,2023-09-27 Written in an accessible and engaging style, this book uses a series of case studies to show how popular media are important to us, as a source of pleasure and entertainment, but also in communicating about the world with others. Social media platforms have changed how we talk about what we like and dislike in our popular media use. 'Cultural citizenship' shows how these discussions speak to 'belonging', to what we feel our rights and responsibilities are in today's polarized world. *Cultural Citizenship and Popular Culture* is based on audience-led research and does not privilege textual analysis as a starting point for taking popular media use's measure. Instead, it offers research tools to listen to others. This book offers scholars and students of media and creative industries a means to understand their professional position as one in which they engage with rather than assume to know what users of popular cultural texts and products think and feel.
