Rising from the Ashes: Los Angeles, 1992. Edward Jae Song Lee, Latasha Harlins, Rodney King, and a City on Fire Paula Yoo, 2024-05-07 A Chicago Public Library Best of the Best Books of the Year The Horn Book Fanfare Best Books of the Year A Kirkus Reviews Best Book of the Year A Publishers Weekly Best Book of the Year A School Library Journal Best Book of the Year A YALSA Excellence in Nonfiction Award Finalist Award-winning author Paula Yoo delivers a comprehensive, kaleidoscopic account of what happened before, during, and after the 1992 Los Angeles uprising. (Horn Book Magazine, starred review) In the spring of 1992, after a jury returned not guilty verdicts in the trial of four police officers charged in the brutal beating of a Black man, Rodney King, Los Angeles was torn apart. Thousands of fires were set, causing more than a billion dollars in damage. In neighborhoods abandoned by the police, protestors and storeowners exchanged gunfire. More than 12,000 people were arrested and 2,400 injured. Sixty-three died. In *Rising from the Ashes*, award-winning author Paula Yoo draws on the experience of the city's Korean American community to narrate and illuminate this uprising, from the racism that created economically disadvantaged neighborhoods torn by drugs and gang-related violence, to the tensions between the city's minority communities. At its heart are the stories of three lives and three families: those of Rodney King; of Latasha Harlins, a Black teenager shot and killed by a Korean American storeowner; and Edward Jae Song Lee, a Korean American man killed in the unrest. Woven throughout, and set against a minute-by-minute account of the uprising, are the voices of dozens others: police officers, firefighters, journalists, business owners, and activists whose recollections give texture and perspective to the events of those five days in 1992 and their impact over the years that followed.

Becoming Christian Nancy L. Kuehl, 2014-10-06 The evolution of Christianity as it is known today began in Antioch, but as *Becoming Christian* reveals, it had once been quite different. While most histories gloss over the earliest period of Christianity to begin with the Christian establishment, this book uncovers the little-known history within the gap between 31 and 70 CE, when the Jesus Movement was headquartered in Jerusalem under the authority of James bar Joseph, the brother of Jesus, and the apostles served as missionaries carrying the teachings of Jesus throughout Judea, Galilee, and Samaria. By the year 66 CE, James and most of the apostles had died, along with much of their teaching. Paul's spiritual Jesus had gained a foothold among Gentiles in Antioch and throughout the West, including Rome, where it finally blossomed into a powerful political hierarchy. No longer was Jesus' humanity important to the church. With the death of James, the original movement fell into disarray and split into factions, each developing its own doctrines. Thus, there arose numerous Christianities during the first two centuries, many of which had become heretical. The Jesus Movement had now become irrelevant to the church, and as *Becoming Christian* reveals, by the third century it would be publicly eradicated for all time.

It identifies biblical figures and events and highlights Brooks' effective use of the sermon genre, and her express parallels between Christianity and Democracy. The work opens with a biographical chapter and Brooks' comments on religion, followed by analyses of her long poems, and more than thirty of her short ones. An illuminating interview with Nora Brooks Blakely about Brooks' religious background and philosophy is included.

Ironies Leaders Navigate, Second Edition Schuyler Totman, 2018-04-26 [EPI] . . . just as one cannot not communicate, you do not have the option of not using power. [/EPI] For every definition of leadership, you can find a definition of power that makes the same statement. Hence, every act of leadership is an act of power, and the better we understand power, the better we understand leadership. And we misunderstand power, scholars lament, in part by under-understanding power. We equate it merely with coercion and competition, but miss how power dynamics define leadership, education, coaching, teamwork, parenting, etc. Here is a brief, contextual, synergistic, occasionally ironic study of power, which provides numerous lenses through which to examine leadership settings, including how they differ. This study (in specific, framed pages) ultimately focuses on a unique leadership setting--the local church. It ponders distinct challenges faced by church leaders, and by The Church's Leader, Jesus Christ.

The Price of Fire Benjamin Dangl, 2010-09 New social movements have emerged in Bolivia over the "price of fire" - access to basic elements of survival like water, gas, land, coca, employment, and other resources. Though these movements helped pave the way to the presidency for indigenous coca-grower Evo Morales in 2005, they have made it clear that their fight for self-determination doesn't end at the ballot box. From the first moments of Spanish colonization to today's headlines, The Price of Fire offers a gripping account of clashes in Bolivia between corporate and people's power, contextualizing them regionally, culturally, and historically.

In Search of A Better World Payam Akhavan, 2017-09-09 A work of memoir, history, and a call to action, the CBC Massey Lectures by internationally renowned UN prosecutor and scholar Payam Akhavan is a powerful and essential work on the major human rights struggles of our times. Renowned UN prosecutor and human rights scholar Payam Akhavan has encountered the grim realities of contemporary genocide throughout his life and career. He argues that deceptive utopias, political cynicism, and public apathy have given rise to major human rights abuses: from the religious persecution of Iranian Bahá'ís that shaped his personal life, to the horrors of ethnic cleansing in Yugoslavia, the genocide in Rwanda, and the rise of contemporary phenomena such as the Islamic State. But he also reflects on the inspiring resilience of the human spirit and

the reality of our inextricable interdependence to liberate us, whether from hateful ideologies that deny the humanity of others or an empty consumerist culture that worships greed and self-indulgence. A timely, essential, and passionate work of memoir and history, *In Search of a Better World* is a tour de force by an internationally renowned human rights lawyer.

The Hamlet Fire Bryant Simon, 2020-07-23 For decades, the small, quiet town of Hamlet, North Carolina, thrived thanks to the railroad. But by the 1970s, it had become a postindustrial backwater, a magnet for businesses in search of cheap labor and almost no oversight. Imperial Food Products was one of those businesses. The company set up shop in Hamlet in the 1980s. Workers who complained about low pay and hazardous working conditions at the plant were silenced or fired. But jobs were scarce in town, so workers kept coming back, and the company continued to operate with impunity. Then, on the morning of September 3, 1991, the never-inspected chicken-processing plant a stone's throw from Hamlet's city hall burst into flames. Twenty-five people perished that day behind the plant's locked and bolted doors. It remains one of the deadliest accidents ever in the history of the modern American food industry. Eighty years after the Triangle Shirtwaist Fire, industrial disasters were supposed to have been a thing of the past in the United States. However, as award-winning historian Bryant Simon shows, the pursuit of cheap food merged with economic decline in small towns across the South and the nation to devalue laborers and create perilous working conditions. The Hamlet fire and its aftermath reveal the social costs of antiunionism, lax regulations, and ongoing racial discrimination. Using oral histories, contemporary news coverage, and state records, Simon has constructed a vivid, potent, and disturbing social autopsy of this town, this factory, and this time that exposes how cheap labor, cheap government, and cheap food came together in a way that was destined to result in tragedy.

The Obituary Collector Gordon Bonnet, 2020-07-22 Malice and brilliance make a deadly combination. Dignified, silver-haired Parsifal Snowe is an enigma even to his closest associates. He has an air of omniscience, tempered by a courteous, self-effacing demeanor. How did such a man end up the leader of a motley crew of psychic detectives? *The Obituary Collector* takes us back to 2006 and the founding of Snowe Agency. Mr. Snowe is asked for help in a series of deaths in a psychiatric hospital, where each is preceded by a note containing clues in the form of literary quotes. Very quickly he sees that the killings are the work of a highly intelligent—but profoundly disturbed—mind. Is it one of the psychiatric patients? One would think so, but the hospital's staff all seem to have secrets and skeletons of their own, as well. When a fourth note is found, Mr. Snowe realizes the murders aren't over yet... and he has no hope of solving the case alone. Racing against time, he enlists the

aide of a trio of local psychics—Bethany Hale, Callista Lee, and Troy Seligman—and the administrative skills of the ultra-competent but eccentric Arabella Leidenfrost. Each is a talent in and of themselves, but together their complimentary abilities make them a formidable team. But will it be enough to stop a killer determined to destroy the patients and staff of Riverside Psychiatric Hospital?

Management Insights from Motivational Slokas Karanam Nagaraja Rao, Bharathi Devarakonda, In India, the Sanskrit literature is an abundant ocean of knowledge and the more we explore, the more we get. In this book, there are around 108 selected slokas, many of which are from Bhartruhari Niti Sataka, Vidura Niti, Kautilya's Arthashastra, Maha Bharatha, Pancatantra and few others. These slokas are basically for the rulers of the kingdoms and are also known as subhashitas (literal meaning is good words of advice). In olden days these Subhashitas were viewed with great respect. Kautilya opined that Subhashita is on par with other basic requirements like water and food. There are many books in English giving the literary meaning of these subhashitas / slokas. But, in this book, an attempt is made to interpret them from leadership and managerial perspectives. And again for the question, why from ancient wisdom, it is felt that people who want happiness in life are increasingly looking towards spirituality as an alternative to materialistic culture. They need some 'spiritual hooks' or 'skyhooks' to cling upon to justify their decisions. The slokas provide the ground on which spiritual thoughts can propel and proliferate. For those who cannot read Devanagari script, an English version of the sloka in I-Trance format is provided. This book is highly useful for practicing managers, leadership coaches, mentors and the CEOs. Though the title of the book refers managerial insights, the book includes psychological, sociological, and human centric perspectives of the business environment.

Content-Based Instruction in Foreign Language Education Stephen B. Stryker, Betty Lou Leaver, 1997-09-01 This book offers concrete and practical ideas for implementing content-based instruction—using subject matter rather than grammar—through eleven case studies of cutting-edge models in a broad variety of languages, academic settings, and levels of proficiency. The highly innovative models illustrate content-based instruction programs for both commonly and less-commonly taught languages—Arabic, Croatian, French, German, Indonesian, Italian, Russian, Serbian, and Spanish—and for proficiency levels ranging from beginners to fluent speakers. They include single-teacher and multi-teacher contexts and such settings as typical language department classrooms, specialty schools, intensive language programs, and university programs in foreign languages across the curriculum. All of the contributors are pioneers and practitioners of content-based instruction, and the methods they present are based on actual classroom experiences. Each describes the rationale, curriculum design, materials, and evaluation procedures used in an actual curriculum and discusses the implications of the approach for adult language acquisition.

Building from Waste Dirk E. Hebel, Marta H. Wisniewska, Felix Heisel, 2014-09-25 "Reduce, Reuse, Recycle, and Recover" is the sustainable guideline that has replaced the "Take, Make, Waste" attitude of the industrial age. Based on their background at the ETH Zurich and the Future Cities Laboratory in Singapore, the authors provide both a conceptual and practical look into materials and products which use waste as a renewable resource. This book introduces an inventory of current projects and building elements, ranging from marketed products, among them façade panels made of straw and self-healing concrete, to advanced research and development like newspaper, wood or jeans denim used as isolating fibres. Going beyond the mere recycling aspect of reused materials, it looks into innovative concepts of how materials usually regarded as waste can be processed into new construction elements. The products are organized along the manufacturing processes: densified, reconfigured, transformed, designed and cultivated materials. A product directory presents all materials and projects in this book according to their functional uses in construction: load-bearing, self-supporting, insulating, waterproofing and finishing products.
