Letting My Light Shine Nancy Petrey, 2018-04-27 Let your light so shine before men, that they will see your good works and give glory to your Father in heaven (Matt. 5:16). That is Nancy Petrey's life verse, which provides the title for this, her sixth book. Nancy is a recorded pianist, as well as serving as a church pianist. From age 5 to age 78, her life has been filled

with music. One of the major ways she has let her light shine for Jesus is through music, but there is much more to her story than music. Included are ministry times in churches with her husband Curtis and ministry as a Mizpah for Israel. Nancy recalls her musical exploits in high school, college, and in her career as a choral teacher in public schools, community musician, church choir director, composer, singer, and pianist. In varied settings, she learned to bloom where she was planted, even resorting to comedy routines. Nancy writes about her hearing impairment and the miracles God did for her. At the end of the book are some original musical compositions, all based on the Bible. Nancy lives in Petrey, Alabama. She became a widow two years ago. She and Curtis have four children and 17 grandchildren. This book will be of interest to anyone interested in music, and wants to read about a life lived as a witness for Jesus.

Hymns and Spirituals for Those Who Have Never Played Music: Play Piano, Xylophone, Melodica, Kalimba, Keyboard by Letter. Helen Winter, You have never played music before or you cannot read sheet music, but you want to play famous and inspiring hymns and spirituals. Don't worry! You will begin to play right away. We made our pictured sheet music as simple as possible. You'll play by letter-coded circles. No musical staff or notes. The easy-to-play songs and melodies were adapted especially for beginners. The melodies have been transposed to one octave and simplified. Also, the letter-coded notations have been added and complex notations and symbols have been reduced. Such simplification makes it possible for people to play melodies, especially those who can't read music or who have never played music before. Additionally, it makes it possible to play on the most primitive instruments, such as a child's xylophone, bell sets, chime bars, and even a kid's piano. You will be able to begin to play right away if the keys of your instrument have letter notations on the keys. Some percussion instruments already have them. They are printed by suppliers (for example, a simple xylophone or kalimba). For other instruments, you just need to get and apply stickers with letter notations. For most songs, just 8 stickers will be enough. You can create your own using post-it notes or stickers, or you can buy them. Write the notes with a marker - A B C D E F G and C of the next octave. Apply the stickers correctly. Find note C. Now apply the stickers alphabetically starting with C, then D E F G A B, and next C. Most songs from this book are possible to play on an 8-note instrument, so a one-octave instrument, for example, a 10-key kalimba, 8-key xylophone, small tongue drum, handbells, or even toy piano will be enough. But some songs here involve the neighboring with the main octave notes. For these songs, you will need a 2-3 octave instrument. It might be the kalimba with 17 keys, 15+ key xylophone, melodica, synthesizer, or piano. All of them need to have special note stickers for beginners. These transparent removable stickers are available on Amazon for 88/61/54/49 key instruments and they can really help in your musical experience. We don't use most musical symbols and notations here: the length of the notes, bars, beams, etc. This book is aimed at your first musical experience no matter what age you are. There is no wrong time or not enough preparation to take up spiritual pursuits. Musicologia Robin Maconie,2010-07-09 In Musicologia—meaning musical reasoning as distinct from a mere love of music—author and composer Robin Maconie takes aim against the fashionable misconception that music is empty of meaning, or auditory cheesecake. Fresh and penetrating insights draw attention to the influence of musical analogy in the history of science and philosophy from ancient Greece to modern times. Since music has always existed, it is an expression of human consciousness. The discoveries of Pythagoras, Zeno, Kepler, Newton, and Einstein would not have been possible without a tradition of musical acoustics. The story of Musicologia unfolds in thirty-one chapters from primordial considerations of silence, communication, selfhood, balance, and motion to focus on more recent and specific issues of chaos, order, relativity, and artificial intelligence, showing that even the most controversial aspects of modern art music form part of a wider endeavor to engage with universal propositions of science and philosophy.

Flying over 96th Street Thomas L. Webber,2010-05-11 Tommy Webber is nine years old when his father, a founding minister of the East Harlem Protestant Parish, moves the family of six from a spacious apartment in an ivy-covered Gothic-style seminary on New York City's Upper West Side to a small one in a massive public- housing project on East 102nd Street. But it isn't the size of the apartment, the architecture of the building, or the unfamiliar streets that make the new surroundings feel so strange. While Tommy's old neighborhood was overwhelmingly middle class and white, El Barrio is poor and predominantly black and Puerto Rican. In Washington Houses, a complex of over 1,500 apartments, the Webbers are now one of only a small handful of white families. Set during the late 1950s and early 1960s, *Flying over 96th Street: Memoir of an East Harlem White Boy* is the story of one boy's struggle with race, poverty, and identity in a city -- and a country -- grappling with the same issues. Tommy's classmates at the exclusive Collegiate School for Boys, which he attends on

scholarship, dare not venture above the city's Mason-Dixon Line of 96th Street into the unknown territory of muggers, gangs, and junkies. Tommy, however, slowly makes new friends on the local basketball courts and at church, and discovers a different East Harlem, one where an exuberant human spirit hides within the oppressive projects and drab tenements, fighting to break through the cracked sidewalks. Webber interweaves the nation's growing Civil Rights movement -- from watching on television the forced integration of Little Rock's Central High School to participating in the famous 1963 March on Washington -- with the subtler, more immediate changes he observes in the lives of his friends and neighbors. In simple yet compelling prose, lit by the candor and innocence of childhood, Webber brings to life his East Harlem: children playing under gushing fire hydrants; the piraguas man and his pushcart of rainbow-colored ices; Fourth of July barbecues on rooftops; heated games of 5-2 on the public school courts; streets teeming with ugliness, anger, and despair, but also alive with color, community, and hope.

What Genius Wrote This? Richard McNeill, 2018-02-27 A brisk and highly readable account of the author's adventures in journalism, spanning more than half a century. Richard McNeill grew up in South Africa but his career took him from Johannesburg to New York and London, where he spent 20 years on the Daily Express. "As it turned out, becoming an Editor with a capital E was the best thing that never happened to me," he writes. Instead he enjoyed a life of "enormous satisfaction" as a reporter, foreign correspondent, sub-editor, feature writer, magazine publisher, editorial consultant and celebrity profiler, while also pursuing his passion for typographical design. Back in South Africa he spent 11 years on the Johannesburg Sunday Times, and later helped produce South Africa's Daily Sun, the post-apartheid tabloid aimed at the emerging black market, turning it into the country's biggest-selling daily newspaper. He lives in Lake Michelle, Western Cape.
