*Peru World Bank, 2011-01-10* This Peru Country Program Evaluation for the World Bank Group, 2003-2009 is part of IEG's country program evaluation series. To date, IEG's in-depth country evaluations have comprised IEG-WB Country Assistance Evaluations (CAEs) and IEG-IFC Country Impact Reviews (CIRs). Both the CAEs and CIRs have involved comprehensive evaluations of the respective institutions' activities in a country. In a pilot approach, this evaluation was prepared by a single IEG team that looked at development interventions across the three WBG institutions. The evaluation draws on WBG documents, external literature, and on interviews with government officials, representatives of the private sector and civil society, nongovernmental organizations, bilateral and multilateral development partners, and Bank, IFC, and MIGA staff in Washington and in Peru. An IEG mission visited Peru in September 2009. IEG also cooperated with the Evaluation Office of the Global Environment Facility that was conducting a parallel evaluation in Peru.

*An Opportunity for a Different Peru* Marcelo Giugale, Vicente Fretes Cibils, 2007 For the first time in the republican history of Peru, the presidential transition takes place in democracy, social peace, fast economic growth and favorable world markets. In other words, there has never been a better chance to build a different Peru - a richer country, more equal and governable. There are multiple ways to achieve that goal. New reforms must stem from a widespread and participatory debate, one of a common vision conceived for and by Peruvians. This book aims at making a technical and independent contribution to such debate; it summarizes the knowledge available about the challenges to be faced by the new administration. The study does not recommend silver bullets, but suggests policy options. It is based on the analysis of the current reality and in six decades of relationships with Peru, in which the Bank has implemented more than 100 projects and

prepared more than 500 technical reports covering the wide range of development topics. When necessary, the study provides lessons that the Bank has learned elsewhere. The study provides a conceptual framework to the analysis of the country's 34 economic sectors and the two historical perspectives behind them. In doing so, it offers a comprehensive reform agenda that sheds light on possible priorities and courses of action.

Cobertura universal de salud para el desarrollo inclusivo y sostenible Akiko Maeda, Edson Araujo, Cheryl Cashin, Joseph Harris, Naoki Ikegami, Michael R. Reich, 2015-11-06 Las metas de la cobertura universal de salud son asegurar que todas las personas puedan tener acceso a los servicios de salud de calidad, proteger a todas las personas de los riesgos para la salud publica y del empobrecimiento debido a enfermedad, ya sea por pagos directos por atencion sanitaria o por perdida de ingresos cuando un miembro de la familia se enferma. Paises tan diversos como Brasil, Francia, Japan, Tailandia y Turquia han mostrado como la cobertura universal de salud puede servir como un mecanismo vital para mejorar la salud. Garantizar el acceso universal a los servicios de salud asequibles y de calidad sera una contribucion importante para acabar con la pobreza extrema para el 2030 en los paises de bajos ingresos y de ingresos medios, donde vive la mayor parte de los mas pobres del mundo. La cobertura universal de salud para el desarrollo inclusivo y sostenible sintetiza las experiencias de Bangladesh, Brasil, Etiopia, Francia, Ghana, Indonesia, Japan, Peru, Tailandia, Turquia y Viet Nam en cuanto a la implementacion de las politicas y estrategias para lograr y mantener la cobertura universal de salud. Estos paises representan condiciones geograficas y economicas diversas, pero todos se han comprometido con la cobertura universal de salud como una aspiracion nacional clave y estan acercandose a ella de maneras diferentes. En el libro se examinan las politicas de cobertura universal de salud de cada pais alrededor de tres temas comunes: la economia politica y el proceso de formulacion de la politica para adoptar, lograr y mantener la cobertura universal de salud; las politicas de financiacion sanitaria para mejorar la cobertura sanitaria; y los recursos humanos para las politicas de salud para lograr la cobertura universal de salud. Los hallazgos de estos estudios de pais tienen por objeto proporcionar enseñanzas que pueden ser utilizadas por los paises que aspiran a adoptar, lograr y mantener la cobertura universal de salud. Aunque el camino a la cobertura universal de salud es especifico para cada pais, los paises pueden beneficiarse de las experiencias de otros al conocer acerca de diferentes enfoques y evitar los riesgos previsibles.

**Migrantes peruanos a Canadá, Chile y España. Ciudadanía y redes familiares transnacionales** Varios Autores, 2015-07-01 Las migraciones de las personas peruanas a tres países representando mundos diversos: Canadá en América del Norte, España en Europa y Chile en América del Sur se han estudiado para mostrar las transformaciones que esta movilidad geográfica produce en los migrantes. En concreto para ver los cambios en las representaciones de los inmigrantes respecto a los derechos de la ciudadanía social. Igualmente se analiza cómo circula esta información a través de las redes transnacionales familiares de estas personas y el efecto que tienen estos nuevos conocimientos en los propios

migrantes y en sus parientes en origen.

**Los DESCA+ en el Perú** César Landa,2022-12-15 Este volumen recoge, en forma sistemática, el tratamiento sobre los clásicos y nuevos derechos económicos, sociales, culturales, ambientales, digitales y al territorio. La perspectiva que traza su autor, se apoya en la internacionalización del Derecho Constitucional, pero también en la constitucionalización del Derecho Internacional, todo ello en línea con las exigencias que ha planteado recientemente el jurista italiano Luigi Ferrajoli sobre la necesidad de una Constitución de la Tierra. Este proyecto que puede parecer utópico, sin embargo, parte de una idea básica de solidaridad internacional y nacional —ya no del individualismo ni de la soberanía estatal absoluta—, donde la finalidad es el bien común o el bienestar general como fundamento de la felicidad humana sin sacrificar las libertades políticas. Para ello, las libertades económicas no pueden ejercerse al margen del bienestar de todas las personas y, en particular, de las poblaciones más vulnerables. En este entendido, el Derecho Constitucional requiere no solo garantizar los viejos y nuevos derechos fundamentales, sino también, protegerlos desde una perspectiva global y local de cara a una Constitución de la Tierra. De acuerdo con ello, el ciudadano del siglo XXI goza de una ciudadanía cosmopolita que contribuye con su producción al actual orden económico y social globalizado desde sus localidades y/o migrando. CÉSAR LANDA ARROYO es doctor en Derecho por la Universidad de Alcalá de Henares (España), postdoctorado en la Universidad de Bayreuth y en el Max-Planck-Institut para el Derecho Público y Derecho Internacional (Alemania). Profesor Principal de Derecho Constitucional en la Pontificia Universidad Católica del Perú y en la Universidad Nacional Mayor de San Marcos. Ex Presidente del Tribunal Constitucional del Perú y ex Decano de la Facultad de Derecho de la PUCP. Vicepresidente de la International Association of Constitutional Law, comisionado de la International Commission of Jurist. Ex Ministro de Relaciones Exteriores del Perú.

[Legacies of State Violence and Transitional Justice in Latin America](#) Nina Schneider,Marcia Esparza,2015-10-22 Legacies of State Violence and Transitional Justice in Latin America presents a nuanced and evidence-based discussion of both the acceptance and co-optation of the transitional justice framework and its potential abuses in the context of the struggle to keep the memory of the past alive and hold perpetrators accountable within Latin America and beyond. The contributors argue that “transitional justice”—understood as both a conceptual framework shaping discourses and a set of political

practices—is a Janus-faced paradigm. Historically it has not always advanced but often hindered attempts to achieve historical memory and seek truth and justice. This raises the vital question: what other theoretical frameworks can best capture legacies of human rights crimes? Providing a historical view of current developments in Latin America's reckoning processes, Legacies of State Violence and Transitional Justice in Latin America reflects on the meaning of the paradigm's reception: what are the broader political and social consequences of supporting, appropriating, or rejecting the transitional justice paradigm?

*Health Insurance Handbook* Hong Wang,Kimberly Switlick,Christine Ortiz,Beatriz Zurita,Catherine Connor,2012-01-18  
Many countries that subscribe to the Millennium Development Goals (MDGs) have committed to ensuring access to basic health services for their citizens. Health insurance has been considered and promoted as the major financing mechanism to improve access to health services, as well to provide financial risk protection.

Technocracy and Democracy in Latin America Eduardo Dargent,2015 Praised by some as islands of efficiency in a sea of unprofessional, politicized, and corrupt states, and criticized by others for removing wide areas of policy making from the democratic arena, technocrats have become prominent and controversial actors in Latin American politics. Through an in-depth analysis of economic and health policy in Colombia from 1958 to 2011 and in Peru from 1980 to 2011, Technocracy and Democracy in Latin America explains the source of these experts' power as well as the leverage they have across state policy sectors in Latin America.

*A New Social Contract for Peru* Daniel Cotlear,2006-01-01 Using the accountability framework developed by the World Development Report 2004: Making Services Work for Poor People, this book analyzes the low-level equilibrium and the numerous reforms attempted in recent decades in Peru, and, based on this analysis, proposes interventions that would facilitate the creation of a new social contract for Peru.

### **OECD Development Pathways Multi-dimensional Review of Peru Volume 1. Initial Assessment**

Planes de beneficios en salud de América Latina Ricardo Bitrán,Úrsula Giedion,Ignez Tristao,Liliana Escobar,Oscar Cañón,Silvia Molins,Lucía Alonso,Jorge Fernández,Giota Panopoulou,Eduardo González-Pier,A. Lorena Prieto,Camilo Cid,Vilma Montañez,Martín Sabignoso,Luis Bolaño Prado,2014-05-23 Garantizar el derecho a la salud en igualdad de condiciones para todos es una meta hacia la que toda sociedad quiere avanzar, máxime en una región tan desigual como América Latina y el Caribe. La cobertura universal es un objetivo importante para la mayoría de los países; sin embargo, el contexto para lograr una cobertura universal es difícil: cada día aumenta la presión sobre el gasto en salud. Entonces, ¿qué

incluir o no incluir en un plan de beneficios en salud?

*Gerencia de programas sociales* Enrique Vásquez H., 2021-11-15 En esta publicación el autor comparte el resultado del análisis que efectuó con el fin de mejorar la gestión de programas sociales enfocados en problemas tales como el desempleo, la alimentación, la violencia contra la mujer, el acceso a servicios de salud y la calidad de vida de los adultos mayores. El libro puede ser especialmente útil para gestores sociales. Para bien o para mal, el Perú de hoy es distinto de aquel del año 2000 o del país del año 1990. Dentro de los males que aún persisten se encuentran las diferencias importantes entre ciudadanos, lo que constituye el centro de nuestra preocupación. ¿Por qué subsisten estas diferencias? Desde la mirada del autor, el Perú no desarrolló la capacidad de aprendizaje institucional que le habría permitido avanzar sobre la base del pasado. El querer refundar o reinstalar una solución sobre otra ha conducido a que el Estado no cumpla a cabalidad su rol de proteger los derechos a servicios sociales básicos de los más pobres, fundamentalmente. Por ello, el libro compila la experiencia de programas sociales y reconstruye la razón de ser y el aprendizaje de las instituciones públicas que pudieron haber contribuido a que las brechas se acorten, a que las tensiones se aminoren, y a que la polarización no llegue al nivel que tiene en la actualidad, y que hace del Perú un país de desencuentros más que de consensos.

[Social Assistance and Conditional Cash Transfers](#) Sri Wening Handayani, Clifford Buckley, 2009-07-01 The regional workshop, held on 23-24 July 2009 at the Asian Development Bank (ADB), brought together people from ADB, its developing member countries, partner development agencies, research institutes, and civil society organizations to share their views and experience on social protection and its modalities, especially the conditional cash transfers (CCTs). [Aproximaciones al Perú de hoy desde las ciencias sociales](#) Felipe Portocarrero Suárez, Alberto Vergara, 2019-12-05 Este libro cumple con un doble objetivo. Primero, se aboca a observar múltiples y recientes transformaciones de la realidad

peruana: las instituciones y las políticas públicas, la sociedad y su representación, las distintas caras de la desigualdad. Segundo, los académicos convocados en este volumen plantean sus recientes interpretaciones del país en un lenguaje accesible para la ciudadanía general: un libro académico que procura evitar los academicismos.
