Over one third of the world's imports and exports are channelled through the EG. The Community represents the The alphabetical index in Volume 1 to companies within each world's largest integrated market.

Financial Management: Principles and Applications J William Petty,Sheridan Titman,Arthur J Keown,Peter Martin,John D Martin,Michael Burrow,2015-05-20 The sixth edition of Financial Management provides students with an overview of financial management suited to the first course in finance. The focus of the text is on the big picture, providing an introduction to financial decision making grounded in current financial theory and the current state of world economic conditions. Attention is paid to both valuation and capital markets, as well as their influence on corporate financial decisions. The 10 basic principles of finance are introduced in the first chapter and woven throughout the text, to give students a solid foundation from which to build their knowledge of finance. The goal of this text is to go beyond teaching the tools of a

discipline or a trade and help students gain a complete understanding of the subject. This will give them the ability to apply what they have learnt to new and as yet unforeseen problems—in short, to educate students in finance.

Social Work in Rural Australia Jane Maidment,2020-07-22 Social work practice in a country town or small remote community several hours' drive from the nearest centre is very different from practice in the city. Social Work in Rural Australia offers an introduction to the challenges and rewards of professional practice in rural and remote areas. The authors explore the practical implications for social workers in non-urban regions, including teamwork with professionals from other fields, working with various sub-groups in communities and across distance with other social work colleagues, the diversity of rural livelihoods and lifestyles, and increasingly pressing environmental issues. Social work theories and case studies demonstrate how enabling practice can promote clients' and communities' ability to deal with some of the challenges of housing, youth unemployment, child protection, ageing, mental health, disability and the obstacles faced by Indigenous, migrant and refugee populations, in specific geographical settings. Social Work in Rural Australia encourages students and

practitioners towards a holistic and contextual engagement with rural communities in current and newly developing fields of social work practice. 'This accessible text integrates the theory and practice of social work in often overlooked rural and remote regions. The case studies offer students and practitioners practical insights and celebrate rural practice as both unique and enriching.' - Alana Johnson, 2010 Victorian Winner RIRDC Rural Women's Award, Family Therapist and Social Worker
