A Minute to Midnight David Baldacci, 2019-11-19 In this #1 New York Times bestselling thriller, FBI Agent Atlee Pine returns to her Georgia hometown to investigate her twin sister's abduction, only to encounter a serial killer. After a lifetime of torturous uncertainty, Atlee's unresolved anger finally gets the better of her on the job, and she finds she has to deal with the demons of her past if she wants to remain with the FBI. Atlee and her assistant Carol Blum head back to Atlee's rural hometown in Georgia to see what they can uncover about the traumatic night Mercy was taken and Pine was almost killed. But soon after Atlee begins her investigation, a local woman is found ritualistically murdered, her face covered with a wedding veil -- and the first killing is quickly followed by a second bizarre murder. Atlee is determined to continue her search for answers, but now she must also set her sights on finding a potential serial killer before another victim is claimed. But in a small town full of secrets -- some of which could answer the questions that have plagued Atlee her entire life -- and digging deeper into the past could be more dangerous than she realizes . . .

The Unidentified Colin Dickey,2020-07-21 Absolutely perfect for the current moment. --Buzzfeed America's favorite cultural historian and author of Ghostland takes a tour of the country's most persistent unexplained phenomena In a world where rational, scientific explanations are more available than ever, belief in the unprovable and irrational--in fringe--is on the rise: from Atlantis to aliens, from Flat Earth to the Loch Ness monster, the list goes on. It seems the more our maps of the known world get filled in, the more we crave mysterious locations full of strange creatures. Enter Colin Dickey, Cultural Historian and Tour Guide of the Weird. With the same curiosity and insight that made Ghostland a hit with readers and

critics, Colin looks at what all fringe beliefs have in common, explaining that today's Illuminati is yesterday's Flat Earth: the attempt to find meaning in a world stripped of wonder. Dickey visits the wacky sites of America's wildest fringe beliefs--from the famed Mount Shasta where the ancient race (or extra-terrestrials, or possibly both, depending on who you ask) called Lemurians are said to roam, to the museum containing the last remaining evidence of the great Kentucky Meat Shower--investigating how these theories come about, why they take hold, and why as Americans we keep inventing and re-inventing them decade after decade. The Unidentified is Colin Dickey at his best: curious, wry, brilliant in his analysis, yet eminently readable.

Too Hot to Handle? Rebecca Willis, 2020-03-25 Scientists are clear that urgent action is needed on climate change, and world leaders agree. Yet climate issues barely trouble domestic politics. This book explores a central dilemma of the climate crisis: science demands urgency; politics turns the other cheek. Is it possible to hope for a democratic solution to climate change? Based on interviews with leading politicians and activists, and the author's twenty years on the frontline of climate politics, this book explores why climate is such a challenge for political systems, even when policy solutions exist. It argues that more democracy, not less, is needed to tackle the climate crisis, and suggests practical ways forward.
