Aquatic Ecosystems Monitoring Prem Chandra Pandey,Prashant K. Srivastava,Sanjeev Kumar Srivastava,2024-11-29

This book collates traditional and modern applications of remote sensing in aquatic ecosystem monitoring. It covers conventional assessment methods like sampling, surveying, macroinvertebrates, and chlorophyll estimation for aquatic ecosystem health assessment. Advanced remote sensing technology provides timely spectral information for quantitative and qualitative assessment of water quality, shoreline changes, coral bleaching, and vegetation monitoring. The book covers different types of aquatic ecosystems like wetlands, rivers, lakes, saline, and the brackish lake. It also: Reviews the latest applications of remote sensing in the monitoring and assessment of aquatic ecosystems Includes traditional methods like cartography, sampling, surveying, phytoplankton assessment, river interlinking, and chlorophyll estimation Discusses the application of multi-source data and machine learning in monitoring aquatic ecosystems Discusses aquatic ecosystem management, services, threats, and sustainability Explores challenges, opportunities, and prospects of future Earth observation applications for aquatic ecosystem monitoring The book discusses space-borne, airborne, and drone geospatial data. The parts broadly cover aquatic ecosystem monitoring, vegetation management, advanced modeling practices, and challenges. It is meant for scientists, professionals, and policymakers working in environmental sciences, remote sensing, and geology.

Comprehensive Geographic Information Systems ,2017-07-21 Geographical Information Systems, Three Volume Set is a computer system used to capture, store, analyze and display information related to positions on the Earth's surface. Out in the World Amy B. Scher, Mark Jason Williams, 2024-07-09 This first-of-its-kind travel guide explores inclusive destinations around the world where LGBTQIA travelers and their allies can have an uncensored and memorable vacation experience. Full of fun and practical travel information, this comprehensive guidebook takes you from familiar destinations like Ojai, California, long known for its inclusivity, to surprising spots like Eureka Springs, Arkansas, a small town that has been welcoming to the LGBTQIA+ community for decades. With an eye toward memorable and meaningful experiences, each destination highlights what to see, where to eat, and where to stay—without focusing solely on gay bars and pride parades. Each robust itinerary—a guide to Curaçao’s beaches, Christmas in the Cotswolds, or a kitschy trip to Dollywood—provides all the information needed for a well-rounded vacation that also supports local LGBTQIA communities. With personality-focused chapters such as “Romantic Rendezvous,” “Boozy Trips and Trails,” and “Fun Haunts and Spooky Spirits” there is a destination in these pages for every type of traveler. Veteran travel writers Amy B. Scher and Mark Jason Williams offer can’t-be-ignored advice, including how to plan, ways to be safe while traveling, and important customs to honor while touring abroad. Here, at last, is the LGBTQIA guidebook you’ve been waiting for—and one that will inspire you to make that bucket list and go out in the world!

A Greek Folk Journey Terina Armenakis, 2019-10-31 Greece is famous for its glorious history, archaeological wealth, democracy and contribution to sciences, but it is also a land of rich folk heritage. A Greek Folk Journey acquaints you with this folk heritage by providing an insight into the abundance of customs, festivals and events to be found in all corners of the country, presented by the month. Ancient and more recent traditions live on in many of Greece's cities, towns or the smallest of villages, thanks to the dedication of local communities, cultural associations and local authorities. Many of the events have historic or religious backgrounds, others are contests or sporting competitions, including world-famous marathons, sailing regattas and chess tournaments. Interesting seasonal produce festivals also feature, such as cherry, watermelon, fig, mushroom, olive and wine festivals. Commercial and agricultural fairs, which have a local flavour and where entertainment and delicacies are offered to visitors, are described to entice you. And if that is not enough, A Greek Folk Journey serves up regional dishes, helping you to savour the flavours of glorious Greece.

Climate and Environmental Change in the Mediterranean Basin - Current Situation and Risks for the Future. Moncada,Rachid Mrabet,Shlomit Paz,Robert Savé,Maria Snoussi,Andrea Toreti,Athanasios T. Vafeidis,Elena Xoplaki,2020-11-17 The First Mediterranean Assessment Report (MAR1) prepared by the independent network of Mediterranean Experts on Climate and environmental Change (MedECC) founded in 2015 was published in November 2020. MAR1 assesses the best available scientific knowledge on climate and environmental change and associated risks in the Mediterranean Basin in order to render it accessible to policymakers, stakeholders and citizens. The report has been written by 190 scientists from 25 countries, all contributing in individual capacity and without financial compensation. The report includes a Summary for Policymakers (SPM), which comprises the key messages of the MAR1. The UNEP/MAP – Barcelona Convention Secretariat, through its Plan Bleu Regional Activity Center, and the Secretariat of the Union for the Mediterranean work in partnership to support MedECC, and to contribute to establish a sound and transparent scientific assessment process.

Modern Greece Elaine Thomopoulos,2021-11-05 A valuable resource, ideal for students doing research or general readers interested in knowing more about Greece, both its current state and its history. – Library Journal There's more to Greece than its legacy as the birthplace of democracy and Western Philosophy. Discover what life is like in this contemporary European nation. Thematic chapters examine topics such as government and politics, history, food, etiquette, education, gender, marriage and sexuality, media and popular culture, music, art, and more. Each chapter opens with a general overview of the topic and is followed by alphabetically arranged entries that home in even closer on the topic. Sidebars and illustrations appear throughout the text, and appendixes cover a glossary, facts and figures, holidays chart, and vignettes that paint a picture of a typical Day in the Life.

Freshwater key biodiversity areas in the Mediterranean basin hotspot V. Barrios,Santiago Carrizosa,W.R.T. Darwall,Jörg Freyhof,C. Numa,K. Smith,2014-01-01 While the Mediterranean basin biodiversity hotspot is well known for its globally important biodiversity, its freshwater biodiversity has not been as widely recognized for its importance. Through this project, freshwater key biodiversity areas (KBAs) have now been identified, mapped and validated throughout much of the Mediterranean hotspot. It is now important to raise awareness of their status as validated freshwater KBAs and to develop plans for appropriate conservation actions at these sites, as this biodiversity is highly threatened largely due to the conflicting demands upon a diminishing supply of fresh water which is further exacerbated by the increased severity of drought across the region.

Recipe for a Livable Planet William Sutton,Alexander Lotsch,Ashesh Prasann,2024-10-16 The global agrifood system has been largely overlooked in the fight against climate change. Yet, greenhouse gas emissions from the agrifood system are so big that they alone could cause the world to miss the goal of keeping global average temperatures from rising above 1.5 centigrade compared to preindustrial levels. Greenhouse gas emissions from agrifood must be cut to net zero by 2050 to

achieve this goal. 'Recipe for a Livable Planet: Achieving Net Zero Emissions in the Agrifood System' offers the first comprehensive global strategic framework to mitigate the agrifood system's contributions to climate change, detailing affordable and readily available measures that can cut nearly a third of the world's planet-heating emissions while ensuring global food security. These actions, which are urgently needed, offer three additional benefits: improving food supply reliability, strengthening the global food system's resilience to climate change, and safeguarding vulnerable populations. This practical guide outlines global actions and specific steps that countries at all income levels can take starting now, focusing on six key areas: investments, incentives, information, innovation, institutions, and inclusion. Calling for collaboration among governments, businesses, citizens, and international organizations, it maps a pathway to making agrifood a significant contributor to addressing climate change and healing the planet.

Proceedings of the 2nd International Conference on Democracy and Social Transformation (ICON-DEMOST 2023) Naili Ni'matul Illiyyun, Endang Supriadi, Ririh Megah Safitri, Masrohatun Masrohatun, 2024-01-05 This is an open access book. Faculty of Social and Political Science, State Islamic University Walisongo Semarang, has been playing significant roles in building global peace and justice by conducting scientific research and creating a space for academic dialogue and discussion. This goal is in line with our vision to be a Research Faculty based on the unity of sciences for humanity and civilization. As part of the efforts to create a space for academic dialogue at a global level, we organize an international conference which aims to develop scientific knowledge, build institutional capacity, and strengthen international networking. The conference is also held to support State Islamic University Walisongo Semarang in achieving its vision to be an Islamic world-class university. The conference raises the issue of democracy and social transformation to capture the social and political dynamics. The selection of this topic is based on the idea that technological development is becoming a crucial issue within modern society in which people tend to experience alienation within the rapid social and political transformation. Democracy as a political system that ensures transparency, citizen participation, and human rights protection is now under threat. Having the fact that there is a growing tendency of using transactional politics to win political interests such as the use of money and identity in political processes, therefore, political analysts consider this situation as the regression of democracy. Rapid social and cultural transformation as a consequence of advanced technology creates problems in modern society. On one hand, technology has made the life of people easier. However, on the other hand, the sense of humanity's values and principles is declining. This situation can be observed in the decrease in social solidarity and the rise of individualism. Modernity that values productivity and economic growth has brought a negative impact on the life of human being and nature. The exploitative character of industrialization has created an ecological crisis. Advanced information technology has loosened social cohesivity and the rise of instrumental rationality has removed local genius or local wisdom from the life of society. Since the ultimate goal of humanity is respecting the dignity of human beings, hence, bringing back

humanity to the center of the development program is crucial, especially in the current social and political dynamics. In the political context, humanity means respecting the basic rights of the citizen and putting them as a subject of political development and not perceiving citizens as only an instrument to win political power. Based on the above background, this conference is organized. The overall goal of the conference is to mainstream humanity in the current social and political change. The conference is also expected to be an arena for scholars and experts in social and political science as well as practitioners and policymakers to meet and exchange ideas and perspectives for a better future of our society.

Les zones clés pour la biodiversité d'eau douce dans le hotspot du bassin méditerranéen Violeta Barrios, S. Carrizo, W.R.T. Darwall, Jörg Freyhof, Catherine Numa, K.G. Smith, 2015-01-01 Le hotspot (point chaud) de la biodiversité du bassin méditerranéen est bien connu pour l'importance que sa biodiversité revêt à l'échelle mondiale, mais l'importance de la biodiversité d'eau douce n'était pas reconnue précédemment. Dans le cadre de ce projet, les ZCB d'eau douce ont maintenant été identifiées, cartographiées et validées dans une grande partie du hotspot méditerranéen. à présent, il est important de faire prendre conscience de leur statut en tant que ZCB d'eau douce validées, et de mettre en place des programmes d'actions de conservation adaptées sur ces sites.
