**Michael Shapiro**

A Walk in the Woods Bill Bryson, 1998 The longest continuous footpath in the world, the Appalachian Trail stretches along the East Coast of the United States, from Georgia to Maine, through some of the most arresting and celebrated landscapes in America. At the age of forty-four, in the company of his friend Stephen Katz (last seen in the bestselling *Neither Here nor There*), Bill Bryson set off to hike through the vast tangled woods which have been frightening sensible people for three hundred years. Ahead lay almost 2,200 miles of remote mountain wilderness filled with bears, moose, bobcats, rattlesnakes, poisonous plants, disease-bearing ticks, the occasional chuckling murderer and - perhaps most alarming of all - people whose favourite pastime is discussing the relative merits of the external-frame backpack. Facing savage weather, merciless insects, unreliable maps and a fickle companion whose profoundest wish was to go to a motel and watch *The X-Files*, Bryson gamely struggled through the wilderness to achieve a lifetime's ambition - not to die outdoors.

**A Walk in the Woods** Bill Bryson, 2012-05-15 God only knows what possessed Bill Bryson, a reluctant adventurer if ever there was one, to undertake a gruelling hike along the world's longest continuous footpath—The Appalachian Trail. The 2,000-plus-mile trail winds through 14 states, stretching along the east coast of the United States, from Georgia to Maine. It snakes through some of the wildest and most spectacular landscapes in North America, as well as through some of its most poverty-stricken and primitive backwoods areas. With his offbeat sensibility, his eye for the absurd, and his laugh-out-loud sense of humour, Bryson recounts his confrontations with nature at its most uncompromising over his five-month journey. An instant classic, riotously funny, *A Walk in the Woods* will add a whole new audience to the legions of Bill Bryson fans.

Wen,2012-02-16 ABOUT THE BOOK There was a time in my life when I wanted to be Bill Bryson, when I thought, If this is what a writer does, I want to be a writer. He has an uncanny knack for unearthing the hilarity in the most mundane and shoving it in your face, for meeting the most insufferable, strange, and fascinating people, for doling out the perfect amount of bitter sarcasm, and for otherwise educating readers in an incredibly entertaining way. He's the guy you want at your dinner party, who you'd trust as your precious phone-a-friend. I was in college the first time I stumbled upon the writer. I wandered into a small bookshop one sunny afternoon to kill some time. *A Walk in the Woods* was propped up in the travel writing section with a staff recommendation card that had "one of my ALL TIME faves" scrawled on it in thick black Sharpie ink. I half-wondered how a book with what I considered to be an unimpressive cover could be an ALL TIME fave, so I flipped to a random page and started reading. It's safe to say that within seconds I was smiling one of those broad, dopey smiles, and within minutes, giggling stupidly to myself. I'm pretty sure that I actually started to work up a sweat, as I stood there in the now deafeningly silent shop, reading in my overly warm university hoody, suppressing my would-be shrieks. I've learned since then that Bryson should be read in the privacy of one's own home. Where one can feel free to snort, chuckle, guffaw, and otherwise revel in a cathartic case of the giggles. I used to read passages of Bryson out loud to a roommate of mine and can recall one particular scene from *Notes From a Small Island* that left us both short of breath for minutes. But it was with Bryson's 1998 bestseller that I had my first affair, and which has become, albeit very unoriginally, one of my all time faves.

MEET THE AUTHOR Tiffanie Wen is a professional writer from the San Francisco Bay Area who's written for *Newsweek*, *Flux Hawaii*, *Ode Magazine* and more. When she's not working, she enjoys exploring new places around the world and spending time with her dogs, Rocky and Benny.

EXCERPT FROM THE BOOK After living in the UK for over 20 years, famed travel writer Bill Bryson relocated his family to Hanover, New Hampshire and discovered that the Appalachian Trail ran through his small town. He decided to hike the 2,100-mile long trail and acquired the company of his old friend Stephen Katz. Without taking notes on the trail, Bryson still managed to write the wildly popular travel book, published in 1998, that held a seemingly permanent residence on New York Times Bestseller list. *A Walk in the Woods* is quintessential Bryson, hilarious at times and frightening at others, he takes the layman out into the woods, without ever asking him to ever leave his home. In 2008, Robert Redford confirmed rumors that there are plans to develop *A Walk in the Woods* into a feature film, starring Redford as Bryson. Today, the book is still one of the most popular pieces of work written about the Appalachian Trail. Buy a copy to keep reading!

**Bill Bryson** Scott P. Richert, 2011 No one is born a famous writer, beloved and read by millions of teens and adults. Readers of the books in *Today's Writers and Their Works* will learn the story behind each writer's story: for example, how Amy Tan became a best-selling author with her first novel, even though she felt she could not write well; how Haruki Murakami closed his sports bar to fulfill his dream of writing full-time; how Bill Bryson's move to England facilitated his wry point of view. In addition to telling the writer's story, each book includes an in-depth examination of the most widely read works of each author. For literature lovers, aspiring writers, and those who have reports to write, there is no better source of information.

*From the Mist: A Life Restored by Nature* Patrick Walter Herzog, 2017-09 For years, the trail of his life led through dense

marshes, high mountain forests and steamy jungles. Then it stopped with just one word. Cancer. For the next seven years, Pat Herzog was pursued by chronic leukemia until undergoing life-threatening experimental treatment. Thereafter, he was relentlessly bushwhacked by fatigue and brain fog, skirting the edges of depression. Only by regaining his passion for nature was he finally able to overcome his fear of living. More than an authentic tale of illness, *From the Mist - A Life Restored By Nature* is a story of hardiness, faith and renewal. And it is tangible proof of the undeniable healing powers of nature....

**A Sense of Place** Michael Shapiro, 2009-05-01 In *A Sense of Place*, journalist/travel writer Michael Shapiro goes on a pilgrimage to visit the world's great travel writers on their home turf to get their views on their careers, the writer's craft, and most importantly, why they chose to live where they do and what that place means to them. The book chronicles a young writer's conversations with his heroes, writers he's read for years who inspired him both to pack his bags to travel and to pick up a pen and write. Michael skillfully coaxes a collective portrait through his interviews, allowing the authors to speak intimately about the writer's life, and how place influences their work and perceptions. In each chapter Michael sets the scene by describing the writer's surroundings, placing the reader squarely in the locale, whether it be Simon Winchester's Massachusetts, Redmond O'Hanlon's London, or Frances Mayes's Tuscany. He then lets the writer speak about life and the world, and through quiet probing draws out fascinating commentary from these remarkable people. For Michael it's a dream come true, to meet his mentors; for readers, it's an engaging window onto the twin landscapes of great travel writers and the world in which they live.

**Walking on the Wild Side** Kristi M. Fondren, 2015-12-11 The most famous long-distance hiking trail in North America, the 2,181-mile Appalachian Trail—the longest hiking-only footpath in the world—runs along the Appalachian mountain range from Georgia to Maine. Every year about 2,000 individuals attempt to “thru-hike” the entire trail, a feat equivalent to hiking Mount Everest sixteen times. In *Walking on the Wild Side*, sociologist Kristi M. Fondren traces the stories of forty-six men and women who, for their own personal reasons, set out to conquer America's most well known, and arguably most social, long-distance hiking trail. In this fascinating in-depth study, Fondren shows how, once out on the trail, this unique subculture of hikers lives mostly in isolation, with their own way of acting, talking, and thinking; their own vocabulary; their own activities and interests; and their own conception of what is significant in life. They tend to be self-disciplined, have an

unwavering trust in complete strangers, embrace a life of poverty, and reject modern-day institutions. The volume illuminates the intense social intimacy and bonding that forms among long-distance hikers as they collectively construct a long-distance hiker identity. Fondren describes how long-distance hikers develop a trail persona, underscoring how important a sense of place can be to our identity, and to our sense of who we are. Indeed, the author adds a new dimension to our understanding of the nature of identity in general. Anyone who has hiked—or has ever dreamed of hiking—the Appalachian Trail will find this volume fascinating. Walking on the Wild Side captures a community for whom the trail is a sacred place, a place to which they have become attached, socially, emotionally, and spiritually.

**Killing the Buddha on the Appalachian Trail** John Turner, 2024-10-01 The allure of the Appalachian Trail has drawn hikers from all around the world to walk its 2,193 miles from Georgia to Maine. In *Killing the Buddha on the Appalachian Trail* John Turner hikes those rugged miles with us on a journey that begins in the forested southern mountains but also winds through the history of the trail, its geology, its unique hiker culture and the hazards, physical demands, and glories of some of the most beloved and beautiful landscapes on America's eastern seaboard. The journey also takes us to some unexpected places - to Africa in the aftermath of a terrible war, into philosophical exploration about the ethics of hiking, and the author's own inner turmoil as he struggles with past failures. We are introduced to characters as varied, brave and determined as any cast of a Broadway musical, each of them contending with the challenge of climbing steep mountains day after day through rain, mud, cold, and heat. Throughout this epic trek, we walk alongside Turner to experience the daily hardships, the milestones reached, the hike-ending accidents and the little victories along the way to the great mountain at the northern terminus - Katahdin in Maine. Turner guides us to Katahdin through a background of Buddhist teaching that gives meaning to the fellowship, solitude, suffering and ultimate triumph of the men and women who seek to hike the entire Appalachian Trail--

**Walking with Jason** John F. Hunt, 2013-04 John Hunt is a kind and gregarious man. His eyes twinkle and his face beams. He is a retired businessman and still retains that drive. I met John the summer of 2000. He came for the graduation ceremony of the crew of students that Jason had led, and we talked. Jason had a difficult course which is common for new instructors. The next summer Jason emerged as a solid leader and had a wonderful course. Several months later while on a climbing vacation in British Columbia Jason took a tragic fall. His family's reaction was to create a foundation in Jason's name that supported his love of the outdoors. The Jason William Hunt Foundation had had tremendous impact on many people especially young people in transition who want to expand their horizons. This happens in an outdoor setting lead by instructors like Jason. It happens every summer at the Wilderness School. John's only son, Jason, will forever be twenty-four years old. My son John is twenty-five. Our sons like many young men seek adventure. Parents care deeply about their children and the fear of losing a child dwells in all of us. How does a parent cope with the tragic loss of their beloved child?

Walking with Jason is a quest to trace Jason's brief life as a young man. John becomes the youthful adventurer and visits Jason's world. John seemingly falls through the looking glass and discovers a mysterious and wonderful world inhabited by troubled adolescents, craggy Thru-hikers, idealistic outdoor leaders and others who visit nature's realm. Ultimately John's odyssey is a very personal journey of self-discovery and gives us a compass bearing on how to deal with the sudden loss of a child. I will forever be connected to Jason, Danielle, Amy, Rosemarie and John. Thank you for generous hearts and concern for youth. Tom Dyer, L.C.S.W. Instructor 1980 - 1983 Director Youth Wilderness School 1983-2009 Founding Director Wilderness School, East Hartland, CT 1990

*It's a Sprawl World After All* Douglas E. Morris, 2009-03-01 Suburbia has twisted the American dream into a nightmare. The United States now has the most rapes, assaults, murders, and serial killings per capita, by a wide margin, than any other first-world nation. *It's a Sprawl World After All* is the first book to link America's increase in violence and the corresponding breakdown in society with the post-World War II development of suburban sprawl. Without small towns to bring people together, the unplanned growth of sprawl has left Americans isolated, alienated, and afraid of the strangers that surround them. Suburbia has substituted cars for conversation, malls for main streets, and the artificial community of television for authentic social interaction. This has resulted in dramatically negative impacts on US society, including: • The transformation of America's community-oriented small-town sensibilities into an isolated society of strangers burdened by isolation, loneliness, and depression • The emergence of a culture of incivility characterized by extreme individualism and a callous disregard for others • Levels of violence so rampant as to be proclaimed "epidemic" by the Centers for Disease Control and Prevention (CDC) Advocating that urgent attention be paid to managing development by emulating the smart growth examples of European cities, the book's final section offers readers tools to rebuild community in their lives as well as in society at large. It offers practical solutions that can improve everyone's quality of life. Provocative and thoughtful, *It's a Sprawl World After All* also includes a helpful resource listing of organizations committed to making communities more sustainable. Douglas E. Morris is a freelance writer whose 14 years of experience living outside the United States in a number of safe urban areas has given him unique insights into cross-cultural urban comparisons. He has published numerous articles on the topic in the last seven years.
