Erich von Däniken

Chariots of the Gods Erich von Daniken, 2019-06-27 All over the world there are fantastic ruins and objects that cannot be explained by conventional history, archaeology or religion. In the ground-breaking *Chariots of the Gods*, Erich von Daniken provides answers to these questions...why do religious texts often refer to Gods who descend from fiery chariots? Why do modern space launch sites look like constructions on the plains of Nazca in Peru? Was God an astronaut? By looking at human history and the ruins of ancient civilisations with an open mind, Erich von Daniken offers a new solution to these eternal mysteries in *Chariots of the Gods*. Why, for instance, do the world's sacred books describe Gods who came down from the sky in fiery chariots and always promised to return? How could an ancient Sanskrit text contain an account which could only be of a journey in an alien craft? Compare photographs of American space centre launch sites to the constructions on the plains of Nazca in Peru. In order to understand the mysteries which Erich von Daniken has catalogued we must go back to these ancient relics with an open mind. We must call in the resources and experience of sciences other than archaeology. *Chariots of the Gods* is a provocative attempt to explain some of the universe's most interesting mysteries. Erich von Daniken has spent a lifetime gathering evidence to prove that, before the dawn of recorded history, our ancestors were visited by an alien race. Erich von Daniken was responsible for popularising the ancient astronaut hypothesis of human development. Orthodox historians have been sceptical but a vast public have been drawn to his ideas by instinctive interest and wonder. His 26 books have sold over 60 million copies in over 40 languages.

Chariots of the Gods? Erich von Däniken, 1970 Presents the theory that earth has been visited by extraterrestrial beings.

Some Trust in Chariots: Sixteen Views on Erich Von Däniken's *Chariots of the Gods*? Edgar W. Castle, 1972

The Gods Never Left Us Erich von Däniken, 2017-11-20 The Long Awaited Sequel to the Worldwide Best-seller *Chariots of the Gods* When *Chariots of the Gods* was published 50 years ago, it began a worldwide change in humanity's view of the cosmos. In an era of the military space race, Erich von Däniken boldly proclaimed that Earth had been visited by more advanced beings early in our history. But prescientific man had no concept of space ships, so he called their vehicles chariots, and those driving the chariots became gods. Over the next five decades, von Däniken's more than 40 books built an ever-stronger case for Earth being visited by extraterrestrial visitors. And *Chariots* became an international best seller, with 30 million copies sold in more than two dozen languages. Also during that time, the case for ET visitations millennia ago was

being reexamined by contemporary UFO researchers, who found evidence of modern visitations. And von Däniken expanded his perspective to encompass the present. Now, he presents his long-awaited sequel to Chariots of the Gods, proclaiming that the gods never left us with all-new material to show that ancient aliens are still with us. The Gods Never Left Us contends that recent advancements in biotechnology, astrophysics, engineering, and artificial intelligence not only give us a fresh perspective on his ancient astronaut theory but actually validates it. We are--as a race--embarking on the exact same trajectory of our own interplanetary colonization, just as von Däniken suggested Earth itself was colonized. ETs are definitely at work today. And that affects all of us. Why do they do what they do? What could an extraterrestrial species possibly gain from observing us in the same way we look at ants? What have these strangers wanted for the past thousands of years? Can't they leave us alone? And what makes it so difficult for us to acknowledge the existence of these extraterrestrials? That is what this book deals with. Erich's newest book is a fascination journey from the ancient past into the present with a plethora of scientific evidence and documented research. As always, he adds his own to the point take on it all. Readers may also like that his newest work moves in a slightly different direction from his past books. A thoroughly enlightening and enjoyable Read. --Bruce Cunningham, Director, Ancient Mysteries International LLC & Publisher of Advanced Archaeology Review magazine

The Gold of the Gods Erich von Däniken, 2011-06-17 Erich von Däniken, whose books have enthralled millions of readers around the world, now presents astonishing new confirmation for his revolutionary theories. Erich von Däniken's The Gold of the Gods unveils new evidence of an intergalactic battle of the gods whose losers retreated to, and settled, Earth. He explores a vast, mysterious underworld of Ecuador---caves filled with gold and writings in solid gold that go back to the time of the Great Flood, bolstering von Däniken's theory of a prehistoric earthly era of the gods.

Eyewitness to the Gods Erich von Däniken, 2019-10-01 The father of the ancient alien theory with more than 65 million books sold reveals everything he has withheld for years. In all his years of service, why didn't Erich von Däniken ever doubt his theory that inhabitants of other planets had come into contact with humanity ages ago, and that they still observe us today? How could von Däniken in all these years say firmly that the UFO phenomenon is real and that people are being abducted by aliens? Why does he repeatedly criticize the official historiography and our religions and thus accept scorn and hostility? The answers to these questions are: Because Erich von Däniken spoke to people who supported his theories. Because people who saw UFOs or were kidnapped by aliens trusted him. And because experts and insiders inaugurated secrets known to only a few people. In this book, the now 81-year-old presents selected eyewitnesses and insiders for the first time, reveals secrets and stories that he has hitherto kept private, and presents reports and revelations that leave one speechless!

Summary of Erich von Däniken's Chariots of the Gods Everest Media, 2022-04-30T22:59:00Z Please note: This is a

companion version & not the original book. Sample Book Insights: #1 The astronomers estimate that there are about 4,500 stars that can be seen with the naked eye. The telescope of a small observatory makes nearly two million stars visible, and a modern reflecting telescope brings the light from thousands of millions more to the viewer. But in the colossal dimensions of the cosmos, our stellar system is only a tiny part of an incomparably larger stellar system. #2 There are 18,000 planets in our galaxy that are similar to the earth, and it is estimated that two million different species of living creatures live on the earth. The idea that life can only exist and develop on a planet like the earth is no longer true. #3 The universe is estimated to be between eight and twelve milliard years old. Meteorites bring traces of organic matter under our microscopes. Bacteria millions of years old wake up to new life. Floating spores propelled by the light of a sun travel the universe and are captured by the gravitational field of a planet. #4 We took 400,000 years to reach our present state and stature. Who can produce concrete proof that another planet did not provide more favorable conditions for the development of other or similar intelligences. We are nothing but ants in the vast State of the universe.

Evidence of the Gods Erich von Däniken, 2012-11-22 Ancient humans had the natural urge to document the world in which they lived, a fact that is evident in the cave paintings and carvings that still exist today. Why do rock paintings from various sites around the world all seem to depict the same things? Did the peoples of the prehistoric world have contact with each another? Is it possible that some were transported to far-flung locations in what our ancestors could only have described as “flying chariots”? Erich von Däniken, one of the best-selling authors of all time and regarded by many as the father of the ancient alien theory, continues his mission to uncover Earth’s ancient past—this time with more than 150 extraordinary full-color photographs—in *Evidence of the Gods*. This extensively illustrated book features never-before-seen photographs from his unique archive, compiled throughout decades of searching around the world for traces of the cosmic gods whom he believes came to Earth thousands of years ago. *Evidence of the Gods* offers the best and most impressive evidence to date, along with concise explanations for the images, to bolster the case that von Däniken has already been making quite convincingly for years. *Evidence of the Gods* is his most convincing—and thoroughly entertaining—work yet. Did extraterrestrial visitors really leave their unmistakable traces on our planet thousands of years ago? The images will speak for themselves.

Chariots of what Gods? Hugh Kenneth Prentice, 197?

The Gods Were Astronauts Erich von Däniken, 2002 Why do nearly all the world's major religions share similar myths? Erich Von Däniken, author of the runaway international bestseller *Chariots of the Gods*, believes he knows: the winged deities populating ancient religious texts were in reality extraterrestrials. Fully illustrated with compelling color and black-and-white photographs, the book takes us from Myanmar to Peru's and Egypt's unexplained “landing strips.”

Chariots of the God's Von Daniken E., 2000

Twilight of the Gods Erich von Däniken, 2010-01-01 Dispels the prejudices and misconceptions that surround the Mayan Calendar, 2012, and the existence of extraterrestrial life.

Signs of the Gods? Erich Von Däniken, 2011-06-15 Were human beings created by powers from outer space? Did extraterrestrial giants build the megaliths of Malta and the menhirs of Brittany? Was the Ark of the Covenant a machine built by the astronaut gods? In *Signs of the Gods?* Erich von Däniken travels far and wide around the globe to study the many strange phenomena that all point to one conclusion---that many thousands of years ago, Earth was visited by a race of superhuman powers and intelligence. The questions he addresses along the way include: ---Why are the religious sites in Greece all laid out in the same geometrical pattern---a pattern which is repeated throughout the world? ---Does the extraordinary longevity of the ancient Sumerian kings mean that the Land of the Two Rivers was ruled by a race of supermen? ---Could the first men have been produced by cloning? ---Do the great ruins of Zimbabwe point to an impossibly detailed knowledge of astronomy? Erich von Däniken's *Chariots of the Gods* provoked a worldwide storm of controversy. In *Signs of the Gods?* he produces powerful arguments to support his theory of astronaut gods, with evidence that is difficult to explain any other way. Hear what he has to say with an open mind---and you may find yourself agreeing with him. Show less

Odyssey of the Gods Erich von Däniken, 2011-10-15 Erich von Däniken's monumental *Chariots of the Gods* changed the way generations have looked at mythology, ancient history, and the possibility of advanced beings from other worlds visiting Earth. Now he tackles the history of Greece and again challenges our beliefs about how our civilization arose. Using painstaking archaeological research and evidence from the writings of Plato and Aristotle, he suggests that the Greek "myths" were, in fact, very much a reality, that the Greek "gods" were actually extraterrestrial beings who arrived on Earth many thousands of years ago. Many of you may find von Däniken's conclusions astounding, but they are argued with such vigor and clarity that you'll be forced to consider the implications of his findings for mankind. *Odyssey of the Gods* includes new, eye-opening information about: A revolutionary interpretation of the sites and legends of ancient Greece The conflict between "alien" gods and humans The true origin of centaurs, the Cyclops, and other "mythical" creatures A startling new explanation of the Atlantis legend

Chariots of the Gods? Erich von Däniken, 1974-01-01 Were visitors from outer space responsible for the fantastic and unexplained ruins left behind by ancient civilizations?

Enoch and the Return of the Gods Erich von Däniken, 2023-07-03 Who Was Enoch and Did He Speak the Language of Extraterrestrials? The bestselling author of *Chariots of the Gods*, Erich von Däniken, examines the great traditions of mankind—thousands of years old—for signs, traces, messages that point to early contact with extraterrestrial intelligences. The Gods were here. But when will they return? Or have they ever really left? The culmination of long-term research, *Enoch and the Return of the Gods* argues that we are very much in the minds and eyes of other cosmic life-forms and that, as a

result, many of the dramatic historical events and remarkable teachings of religious texts should be reinterpreted. The words of the Bible are at the center of his text-critical interpretations that pick apart the sense and nonsense of religious views. He also draws on ancient Jewish sagas and legends, reports from early historians, and Indian, Babylonian, and Persian traditions. As always, von Däniken finds support for a number of interesting questions: Did Adam and Eve witness a UFO? What will Judgment Day truly be? Why did extraterrestrials tinker with humanity's DNA? The Gods were here, and it is clear their influence remains to this day. This book was first published in 1998 under the title *The Return of the Gods*. This new edition features a new introduction by the author.

Children of Ezekiel Michael Lieb, 1998 Discusses the relationship between the biblical prophet Ezekiel's vision of wheels in the air and the present day end-of-time concept as seen in various religious sects.

Arrival of the Gods Erich von Däniken, 2011-06-01 Nazca, once only an isolated settlement in the midst of the Peruvian desert, is today the meeting place for archaeologists from around the world. From here you can fly over the celebrated Nazca pampa and appreciate the massive scale of the extraordinary markings on the surrounding landscape. Some of these lines are over twenty kilometers long! Drawing on over thirty years of study, Erich von Daniken examines the various theories that attempt to explain the Nazca phenomena in terms of religious ritual, ancient roads, and astrological symbols. With the help of numerous photographs taken by the author---half-hanging from a small airplane---he describes the many mysteries of Nazca and puts forward a startling revolutionary solution to one of archaeology's greatest enigmas.
