RJ Shavelson

KHYBORS: In the Beginning Michelle Levigne, 2024-10-03 Before the Commonwealth existed, there was an expanding, multi-galaxy civilization, that disintegrated. This is the story of its downfall, where colony worlds learned to survive by their own strength...or were abandoned to die. Three novellas in one volume explore the birth of the Khybors, whose descendants will impact the Downfall, the rebirth of civilization, the return to the stars, and the Commonwealth far into the future. *Khrystalis*: Kerin was the youngest child of two powerful, intelligent, gifted research scientists. When the military interfered yet again in her father's research, the resulting lab explosion filled Kerin's body with experimental bio-crystal, long before it was ready for human testing. She was changed. Bio-crystal was meant to aid the body in repairing itself, when medical science was incapable. As it penetrated down to the genetic level, Kerin learned to change herself, and to sense the world in totally new ways. When her gift reached out beyond her own biology, she stood poised between being the bearer of a great gift for humanity, or a threat that would change the universe. *Ambush*: The twins, Casta and Pol, should never have been born, and there were many enemies who would still try to destroy them as they reached adulthood. Hidden away on a remote colony world with their uncle, they were allowed to explore all their potential, develop all the gifts they could imagine. That potential was put to good use when their home was attacked and their uncle was kidnapped by enemies intent on destroying first their world, then civilization. Their favorite game was called *Ambush*, and now the game had become reality. The enemy would never know what hit them. When the smoke had cleared, they had regained more than their uncle. Now what they were had a name: Khybors. *Wing and Claw*: Lor and Jae led the Khybors, training them to be the frontrunners of exploration teams clearing alien worlds for colonization. They had learned young not to trust the powers-that-be when they spoke of peace and cooperation between the emerging groups of augmented Humans and the rest of the Human race. All the signs were there, that the enemies who had been quiet, hiding in the shadows for generations now, were ready to emerge and attack once again. The time had come to reach for the stars, for Khybors to flee to the furthest limits of explored and colonized space, and find a world where they could live in peace and safety. First, they had to rescue the people who dared to stand up for them and speak on their behalf, before their voices were silenced permanently.
