**The Assassination of James Forrestal** David Martin, 2021-06-15 Using primarily information provided in the Navy's official investigation of the death of America's first Secretary of Defense, which had been kept secret for 55 years, *The Assassination of James Forrestal* thoroughly demolishes the widely believed view that Forrestal's fall from a 16th-floor window of the Bethesda Naval Hospital on May 22, 1949, was an act of suicide. The official report, in fact, did not conclude that Forrestal committed suicide. It concluded only that the fall caused his death and that no one in the U.S. Navy was responsible for it. A major reason why the suicide thesis is still widely believed is that the news of the release of the official report, which the author obtained through the Freedom of Information Act in 2004, has been effectively suppressed. Building upon what he has long made available on his DCDave.com web site, and in the manner of his 2018 book, *The Martyrdom of Thomas Merton: An Investigation*, co-authored with Hugh Turley, David Martin breaks through the wall of silence and misinformation. This meticulous examination of the violent death of the leading government critic of American support for the creation of the state of Israel is vital to an understanding of U.S. and world history since the mid-20th century.

**Betrayal at Bethesda** J. C. Hawkins, 2017-09-20 On May 22, 1949, former secretary of defense James Forrestal fell from the sixteenth floor of a building in Bethesda, Maryland. His death was investigated by the US Navy, but the official report listed no definitive cause. On May 2, 1957, US senator and staunch anti-Communist advocate Joseph McCarthy died of acute hepatitis. No cause was given and no autopsy was ever conducted. On November 22, 1963, President John F. Kennedy was assassinated while visiting Dallas, Texas. The ensuing investigation would inspire a controversy that would last well into the twenty-first century. Three of the most important men in the fight against global communism all died in sinister circumstances. In the span of fourteen years, Forrestal, McCarthy, and Kennedy, three men who were great friends during their lives, were all effectively removed from international politics. J. C. Hawkins refuses to believe this is a coincidence. His

new exposé, Betrayal at Bethesda, presents an alternate theory to all three deaths. The men were too closely connected in their policies and political careers for their deaths to be written off as unrelated. Hawkins not only challenges the historical record but also shows how each man died for the ideals they collectively held in such high esteem.

**The Chaos Conundrum** Aaron John Gulyas,2014-01-23 In The Chaos Conundrum, historian Aaron John Gulyas examines how the paranormal has intersected and influenced our culture in myriad ways, from the conspiracy beliefs of William Cooper and Exopolitics to the challenge that the stories of Gray Barker presented to our concept of self and time. He looks at the maelstrom of personalities, agendas, impressions, data, confusion, and contradictions that can be found in the world of the weird, and demonstrates how they have become an integral part of our lives, whether in the form of flying saucers, hauntings, religious revelations, psychic abilities, or dozens of other guises. Gulyas delves into the stories of the people who have attempted to create order out of the chaos. Along the way he recounts his own journey from enthusiastic believer in the shadow government and their underground bases to jaded academic skeptic, and then finally to someone who thinks there might just be something to the paranormal after all... but not what we have been led to expect or believe!

**Antarctica: the prison of fallen angels in Enoch's prophecy** Cinzia Palmacci,2023-09-21 Why do so many powerful people on Earth often go to Antarctica? What do they know about us that is important? Is Antarctica the kingdom of the antichrist? One thing is certain: the hybrid offspring of Lucifer for millennia have been interacting and working to pervert Creation and persecute humanity. We see this from the iniquitous laws of a ruling class in corrupt and evil-minded power. It is written that Enoch and the prophet Elijah will return for the final battle against the antichrist. And it doesn't seem to be that far off. Knowing is defending and reacting. Enjoy reading.

Eyewitness Thomas E. Devine,Richard M. Daley,1987 Devine presents the most comprehensive collection of research done to date on the great aviation mystery. He believes he witnessed the burning of Earhart's Electra on Saipan in 1944, torched apparently on order of the US Secretary of the Navy.

**Project Rainbow and the Philadelphia Experiment** David Hatcher Childress,2024-10-30 David Childress, popular author and star of the History Channel show Ancient Aliens, brings us the amazing story of the so-called Philadelphia Experiment and the many curious events that happened in its aftermath. The Philadelphia Experiment was an event claimed to have been witnessed by an ex-merchant mariner named Carl M. Allen at the United States Navy's Philadelphia Naval Shipyard on October 28, 1943. Allen described an experiment called Project Rainbow where the US Navy attempted to make

a destroyer class ship, the USS Eldridge, disappear and the bizarre results that followed. The story of the “Philadelphia Experiment” originated in late 1955 when Carl M. Allen sent an anonymous package marked “Happy Easter” containing a copy of Morris K. Jessup’s book *The Case for the UFO: Unidentified Flying Objects* to the US Office of Naval Research. The book was filled with handwritten notes in its margins, written with three different shades of blue ink, appearing to detail a debate among three individuals, only one of whom is given a name: “Jemi.” They commented on Jessup’s ideas about the propulsion for flying saucers, discussed alien races, discussed Project Rainbow and expressed concern that Jessup was too close to discovering their technology. He also sent letters to Jessup. Jessup was then discovered in Florida dead in his car with a hose wired to his exhaust pipe to bring the toxic fumes into the vehicle. It was ruled a suicide. Was Jessup murdered as many people believe? Was he part of Project Rainbow—an effort to teleport a battleship through time and space? Did the Defense Industrial Security Command (DISC), headed by Wernher von Braun, have something to do with his death? Why did the US Navy want a special annotated edition of Jessup’s book published called the Varo Edition?

*Close Encounters of the Fatal Kind* Nick Redfern, 2014-06-23 From a journalist specializing in conspiracy theories, an examination of mysterious deaths and missing persons related to sightings of UFO phenomena. Everyone has heard of Close Encounters of the Third Kind. But what about close encounters of the fatal kind? The field of UFOs is rife with unsettling examples of suspicious deaths. Accounts of accidents that might not have been accidents after all, abound. Researchers and witnesses have vanished, never to be seen again. Conveniently timed heart attacks are reported. Out-of-the-blue suicides that, upon investigation, bear the distinct hallmarks of murder, are all too common. And grisly deaths at the hands of both extraterrestrials and government agents have occurred. Highlights of Close Encounters of the Fatal Kind include: The strange saga of the incredible melting man The UFO-related death of the first U.S. Secretary of Defense, James Forrestal The mysterious disappearances of military pilots and their connection to UFOs The connections between national security and the sudden deaths of UFO investigators Getting too close to the cosmic truth about alien abductions Roswell, and what the government really knows about UFOs can—clearly—be a deadly business The government’s latest admission of the existence of Area 51 is barely the tip of a very big iceberg.

*The Color of War* James Campbell, 2012-05-15 From the acclaimed World War II writer and author of *The Ghost Mountain Boys*, an incisive retelling of the key month, July 1944, that won the war in the Pacific and ignited a whole new struggle on the home front. In the pantheon of great World War II conflicts, the battle for Saipan is often forgotten. Yet historian Donald Miller calls it as important to victory over Japan as the Normandy invasion was to victory over Germany. For the Americans, defeating the Japanese came at a high price. In the words of a Time magazine correspondent, Saipan was war at its grimmest. On the night of July 17, 1944, as Admirals Ernest King and Chester Nimitz were celebrating the battle’s end, the

Port Chicago Naval Ammunition Depot, just thirty-five miles northeast of San Francisco, exploded with a force nearly that of an atomic bomb. The men who died in the blast were predominantly black sailors. They toiled in obscurity loading munitions ships with ordnance essential to the US victory in Saipan. Yet instead of honoring the sacrifice these men made for their country, the Navy blamed them for the accident, and when the men refused to handle ammunition again, launched the largest mutiny trial in US naval history. The Color of War is the story of two battles: the one overseas and the one on America's home turf. By weaving together these two narratives for the first time, Campbell paints a more accurate picture of the cataclysmic events that occurred in July 1944--the month that won the war and changed America.

**Alien Crash at Roswell** Jesse Marcel, 2013-08-15 The most enigmatic and universally known UFO incident in history needs only one name - ROSWELL. Roswell will never fade as it represents the true ushering in of the UFO phenomenon for time immemorial. Dwarfing Orson Wells' War of the Worlds in national and then international hysteria, Roswell was an unparalleled turning point for all of mankind because for the first time almost every man, woman and child on earth was faced with the reality that we are not alone in the universe. In early July, 1947 Major Jesse Marcel, commander of the most technologically advanced bomb group in the world, discovered the crash site of a downed UFO in the New Mexico desert following a harrowing and record breaking storm. Out of honor and duty to his country, Major Marcel was to become the scapegoat for the largest disinformation cover-up effort in world history. What he saw would be a secret he would keep for many years - knowledge about the crash itself and the ensuing battle to keep the incident covered-up by government and military factions. Roswell would be forever entwined in not just Major Marcel's life but that of his children and grandchildren for generations to come. Today Jesse Marcel III, the grandson of Major Jesse Marcel, tells his grandfather's story and reveals what has continued to haunt his family for over sixty years - the legacy of ROSWELL. Join Philip Coppens, star of the History Channel's Ancient Aliens series in this untold and unprecedented expose on the Roswell Incident.

**Andromeda: The Secret Files** David Hatcher Childress, 2021-11-01 David Childress, popular author and star of the History Channel show Ancient Aliens, brings us the amazing story of the German Andromeda craft, designed and built during WWII. Along with flying disks, the Germans were making long, cylindrical airships that are commonly called motherships—large craft that house several smaller disk craft. It was not until 1989 that a German researcher named Ralf Ettl, living in London, received an anonymous packet of photographs and documents concerning the planning and development of at least three types of unusual craft—including the Andromeda. Ettl went on to make several television documentaries based on the material in the packet and released most of the documents and photos to researchers in Austria and other parts of Europe. What the Ralf Ettl document dump shows us is what many have suspected for a long time: that WWII did not end in the manner in which we have been told, and a remnant of the Nazi military—particularly the SS—continued to operate aircraft and submarines around the world in the decades after the end of the war. Much of this

activity has been attributed to UFO activity, but Childress lifts the veil shrouding some of these cases and shows that Andromeda and Haunebu craft were involved in many of these incidents over the decades. Join Childress as he shows us the secret files involving the Andromeda, Haunebu, and Vril craft. Chapters include: Gravity's Rainbow; The Motherships; The MJ-12, UFOs and the Korean War; The Strange Case of Reinhold Schmidt; Secret Cities of the Winged Serpent; The Green Fireballs; Submarines That Can Fly; The Breakaway Civilization; more. Includes a 16-page color section. Over 120 photographs and diagrams.

**Who Can Hold the Sea** James D. Hornfischer, 2023-05-02 A close-up, action-filled narrative about the crucial role the U.S. Navy played in the early years of the Cold War, from the New York Times bestselling author of *The Fleet at Flood Tide* "A lucid, fast-moving and fitting finale to [Hornfischer's] career."—*The Wall Street Journal* This landmark account of the U.S. Navy in the Cold War, *Who Can Hold the Sea* combines narrative history with scenes of stirring adventure on—and under—the high seas. In 1945, at the end of World War II, the victorious Navy sends its sailors home and decommissions most of its warships. But this peaceful interlude is short-lived, as Stalin, America's former ally, makes aggressive moves in Europe and the Far East. Winston Churchill crystallizes the growing Communist threat by declaring the existence of "the Iron Curtain," and the Truman Doctrine is set up to contain Communism by establishing U.S. military bases throughout the world. Set against this background of increasing Cold War hostility, *Who Can Hold the Sea* paints the dramatic rise of the Navy's crucial postwar role in a series of exciting episodes that include the controversial tests of the A-bombs that were dropped on warships at Bikini Island; the invention of sonar and the developing science of undersea warfare; the Navy's leading part in key battles of the Korean War; the dramatic sinking of the submarine *USS Cochino* in the Norwegian Sea; the invention of the nuclear submarine and the dangerous, first-ever cruise of the *USS Nautilus* under the North Pole; and the growth of the modern Navy with technological breakthroughs such as massive aircraft carriers, and cruisers fitted with surface-to-air missiles. As in all of Hornfischer's works, the events unfold in riveting detail. The story of the Cold War at sea is ultimately the story of America's victorious contest to protect the free world.

**The Scorpion and the Frog: a Natural Conspiracy** William A. Borst, 2004-11-22 To deny that conspiracies exist is to deny history. While there are several chapters on traditional conspirators, from the Masons through the Bilderbergers, the book unveils the ideas that have unified conspiracies into a coherent rendition of evil. This book is an intellectual history of the City of God versus the City of Man, in the ultimate culture war. It does not take a cadre of men in some secret room to

effect a unified conspiracy. Like the scorpion in the fable, their ideas become second nature to liberals, socialists, or communists and they act in accordance with their nature.

Zionism: The Real Enemy of the Jews, Volume 1 Alan Hart, 2010-08-13 The False Messiah is Volume I of a monumental history of the Israel-Palestine conflict, Zionism: The Real Enemy of the Jews, by a seasoned reporter with a vast first-hand knowledge of the Middle East. It is the first book to put the struggle for Palestine into its global context-to show how all the pieces of a complicated jigsaw puzzle fit together. It's also the first ever account of events to address the motives, needs, and dilemmas faced by all sides: diaspora Jews' real fear of Holocaust II; the Palestinian right to justice and self-determination; the legitimate anger of the Arab masses at American support for Zionism right or wrong; and the inevitable corruption and repression of the regimes of the existing Arab Order who, fearing harsher Israeli assaults, have tried to contain them. From the beginning, the conflict pitted a well-financed First World nation of European colonialists who held the upper hand in terms of military hardware, air power and capability against an essentially feudal Third World Arab nation. The False Messiah sheds new light on: · The early Zionist relations with UK, German and US governments. · Zionism's contribution to bringing the US into World War I. · Zionism's role (and that of domestic non-Zionist Jews) in the diversion of Jewish refugees, first from Russia, then from Germany, to Palestine rather than to the US, UK or elsewhere, sabotaging, inter alia, Truman's efforts to provide visas to the US for 100,000 Jewish immigrants. · Truman's belabored decision-making processes leading to his recognition of the State of Israel, against the advice of 3 US Secretaries of State and his Secretary of Defense who all asserted the US' best interest was alignment with the Arab world. · The expansion of the Israeli state beyond its UN-recognized borders immediately upon its creation, and how it was made possible by Israel's military superiority even from its pre-creation. At no point throughout its history, Hart contends, has Israel ever faced an "existential threat" to its existence. As a former BBC Panorama and ITN Middle East correspondent, Alan Hart knew and interviewed most of the main players in the Israel-Palestine conflict (Golda Meir, Moshe Dayan, Shimon Peres, Yasser Arafat and other PLO leaders, George Habash, Nasser, King Hussein of Jordan, King Feisal of Saudi Arabia, and many others). He also exhibits a wealth of research into a full spectrum of viewpoints.
