A Novel Study Guide for The Garden of Abdul Gasazi by Chris Van Allsburg, 2004

The Important Books Joseph Stanton, 2005-08-18 The Important Books takes a look at some of the most significant and talked about authors, illustrators, and titles in the genre, including Maurice Sendak, Margaret Wise Brown, William Joyce, and Chris Van Allsburg. While focusing on those books that are distinguished by some degree of originality in both word and image, the author points out that the importance of picture books is not primarily pedagogical--they are not intended to serve as dumbed down versions of young adult or adult novels--and the audience for these great books is not solely children. Because the children's picture book is designed to provide the context for an intimate transaction involving the imaginations of both parent and child, there is a social value to the form that lends a special poignancy to the pleasure it provides.

Reading Power Adrienne Gear, 2013

Words about Pictures Perry Nodelman, 1990-08-01 A pioneering study of a unique narrative form, *Words about Pictures* examines the special qualities of picture books--books intended to educate or tell stories to young children. Drawing from a number of aesthetic and literary sources, Perry Nodelman explores the ways in which the interplay of the verbal and visual aspects of picture books conveys more narrative information and stimulation than either medium could achieve alone. Moving from baby books, alphabet books, and word books to such well-known children's picture books as Nancy Ekholm Burkert's *Snow White and the Seven Dwarfs*, Gerald McDermott's *Arrow to the Sun*, Maurice Sendak's *Where the Wild Things Are*, and Chris Van Allsburg's *The Garden of Abdul Gasazi*, Nodelman reveals how picture-book narrative is affected by the exclusively visual information of picture-book design and illustration as well as by the relationships between pictures and their complementary texts.

Becoming Bilingual Readers Bobbie Kabuto, 2021-11-29 Building on Bobbie Kabuto's groundbreaking 2010 book *Becoming Biliterate*, this book explores how identity impacts the development of bilingual readers and how reading practices are mediated by family and community contexts. Highlighting bilingual readers from Spanish, Greek, Japanese, and English language backgrounds, Kabuto offers an in-depth, interdisciplinary analysis of these readers' behaviors and identities through the original approach of Biographic Biliteracy Profiles. The Profiles serve as a culturally relevant assessment tool for developing meaningful narratives and can reveal how bilingual readers make sense of texts in the context of their home and school environments. An ideal approach for unpacking the complexity of bilingual reading behaviors and how they change across time, the Profiles allow readers to explore what a bilingual reader's identity means to becoming biliterate; the roles of code-switching and translanguaging; the influences of readers' families and communities; and how they all interact and shape readers' identities, behaviors, and meaning-making. Offering practical applications on observing and documenting bilingual readers, this book is an invaluable resource for scholars and students in courses on bilingualism, L2/ESL reading, and multilingualism.

The Essential Guide to Children's Books and Their Creators , Upon publication, Anita Silvey's comprehensive survey of contemporary children's literature, *Children's Books and Their Creators*, garnered unanimous praise from librarians, educators, and specialists interested in the world of writing for children. Now *The Essential Guide to Children's Books and Their Creators* assembles the best of that volume in one handy, affordable reference, geared specifically to parents, educators, and students. This new volume introduces readers to the wealth of children's literature by focusing on the essentials — the best books for children, the ones that inform, impress, and, most important, excite young readers. Cultivating a Child's Imagination Through Gardening Rosanne Blass, Nancy A. Jurenka, 1996-11-15 Lead children to literacy and learning along the garden path with books and activities designed to spark interest and imagination. Each of these 45 lessons focuses on a specific book about gardening and offers related activities—such as reading, writing, poetry, word play, music, dancing, and dramatics—to enhance creativity and build literacy skills. In addition, this resource lists more books to read with each lesson and concludes with an annotated bibliography of focus books. A great companion to *Beyond*

the Bean Seed. Grades K-6.

Once Upon a Crime Wanda Cassidy, Ruth Yates, 2005-01-01 Did Goldilocks wilfully trespass and destroy the property of the three bears? What crime did the wolf commit against the three little pigs, and is the wolf obligated to repair the pigs' homes? Was Peter Pan guilty of kidnapping? In *Once Upon a Crime*, students use familiar stories to experience what it is like to investigate a crime scene, uncover important facts, weave together an argument supported with evidence and witnesses, and present their findings in a trial that simulates a court hearing. They also learn about other ways of resolving conflict, such as mediation, negotiation, and restorative justice processes. Through these activities, children engage in critical thinking, hone their literacy skills, and learn about the role law plays in their lives and their rights and responsibilities as citizens. This book offers step-by-step instructions for conducting mock trials based on fairy tales and other multicultural stories. Five complete trial scripts are included for classroom use. Also included are ideas for adapting contemporary stories into civil and criminal trials, and mediation and negotiation activities. *Once Upon a Crime* complements the authors' previous book, *Let's Talk About Law in Elementary School*, which helps teachers integrate law-related ideas and pedagogical approaches into social studies, language arts, and science.

One Million Children Robert E. Slavin, Nancy A. Madden, 2001 *One Million Children* describes the 'Success for All' and 'Roots & Wings' programmes in detail, presents the extensive research evaluating them, and discusses the implications of this research for policy and practice. 'Success for All' and 'Roots & Wings' are comprehensive restructuring programmes for primary schools designed to promote the idea that 'all children can learn'.

Using Picture Storybooks to Teach Literary Devices Susan Hall, 1990-01-02 The third volume of *Using Picture Storybooks to Teach Literary Devices* joins volumes 1 and 2 of this best-selling series to give teachers and librarians the perfect tool to teach literary devices to students in grades K-12. In this volume, 120 well-reviewed picture storybooks, published mainly in the last few years, are listed (sometimes more than once) under 41 literary devices. All-ages picture storybooks, which can be enjoyed by adults, as well as children, are included. For each device, a definition is given, and descriptions of appropriate storybooks, with information on how to use them, the art style used in the book, and a curriculum tie-in, are provided. Among the literary devices included are alliteration, analogy, flashback, irony, metaphor, paradox, tone, and 34 more. Indexes by author, title, art style, and curriculum tie-in add to this outstanding book's great value. Grades 4-12.

StoryCraft Martha Seif Simpson, Lynne Perrigo, 2015-11-17 While storytelling is a great favorite of preschoolers, many elementary age children are more drawn to crafts and other activities. *StoryCraft* is an award-winning library program that combines storytelling with crafts in an exciting and engaging activity for children in first through third grades. Each one-hour program includes storytelling, a craft, movement, activities, music, and discussion. This collection of *StoryCraft* programs presents 50 fun and educational theme-based sessions. Each includes suggestions for promotion, music, crafts, activities, and

stories. The sessions also include bibliographies to help direct young readers toward additional reading, as well as diagrams, detailed instructions, and supply lists for the crafts. The themes range from a Jungle Safari to Math Mayhem to a Western Roundup, all encouraging children to enjoy reading in a variety of ways. Each session has plenty of suggestions, so that the program can be customized. Helpful Hints for implementing the program can help any librarian, volunteer, or parent turn a ho-hum storytime into a dazzling StoryCraft time.

Reading Power, Revised & Expanded Edition Adrienne Gear, 2015-10-06 Ten years ago, Reading Power was launched in an elementary school in Vancouver. It has since evolved into a recognized approach to comprehension instruction being implemented across Canada, in the United States, United Kingdom, Sweden, and China. This ground-breaking approach showed teachers how to help students think while they read — connect, question, visualize, infer, and transform. Since the publication of the first edition of Reading Power, Adrienne Gear has continued to reflect on and refine her ideas about metacognition, comprehension instruction, and the Reading Power strategies. This revised and expanded edition shares these new understandings, and offers teachers new ideas, new lessons, and, of course, new anchor books to support the Reading Power principles. An ideal resource for teachers familiar to this strategic approach to teaching reading, or for those looking for new ways to connect thinking with reading.

Children's Literature in the Classroom Diane M. Barone, 2011-03-08 Many reading programs today overlook an essential component of literacy instruction—helping children develop an enduring love of reading. This authoritative and accessible guide provides a wealth of ideas for incorporating high-quality children's books of all kinds into K-6 classrooms. Numerous practical strategies are presented for engaging students with picturebooks, fiction, nonfiction, and nontraditional texts. Lively descriptions of recommended books and activities are interspersed with invaluable tips for fitting authentic reading experiences into the busy school day. Every chapter concludes with reflection questions and suggestions for further reading. The volume also features reproducible worksheets and forms.

Beatrix Potter's Peter Rabbit Margaret Mackey, 2002 Thirteen essays explore the timeless appeal of Peter's antics, and the impact of this extraordinary book on children worldwide. Contributors, each a respected scholar in the field of children's literature, examine details of Potter's life, her history as an artist, her accomplishments as a naturalist, and the contextual factors affecting her writing and illustrations. Others investigate the timelessness of this story, exploring its psychological and sociological truths and comparing Peter Rabbit to present day literature.

Show and Tell Dilys Evans, 2008-03-26 Looking at the wide variety of artistic genius in children's books, Show and Tell teaches the reader how to look for the perfect marriage of art and text, and is an invaluable guide for anyone interested in children's books and the art of illustration.
