Tibet Michael Buckley, 2018-07-05 This new, thoroughly updated edition of Bradt's Tibet encompasses the wider region of ethnic Tibet with more detailed coverage of the Amdo and Kham regions than is found in other guides. It also includes essential information on new border openings and is particularly strong on map data, which is extremely difficult to find in Tibet itself, including new theme maps covering a range of topics, from Tibetan regions to the Three Parallel Rivers UN World Heritage Sites, sacred landscapes, permafrost and major river sources. Bradt's Tibet benefits from years of consistent research. Michael Buckley has been visiting and researching Tibet for more than 30 years and has a raft of books to his

name. Thanks to his knowledge and expertise, Bradt's Tibet offers a more extensive language appendix than is found in other guidebooks, plus essential guidelines on cultural etiquette (including a special section on hand gestures to use), local customs and travelling with minimum impact on Tibet's culture and environment. There is also an appendix on fauna and an extensive list of recommended further resources, including books, music, films and even virtual reality Exploring ethnic Tibet independently is a challenge. The 'land of snows' possesses the world's highest peaks (including Everest) and its deepest gorges as well as some of the wildest and roughest road routes in high Asia. Bradt's Tibet provides all the practical information you need to explore ethnic Tibet independently, whether motoring, mountain-biking or trekking. Tibet has always fascinated travellers and armchair travellers because it is so difficult to access due to its remoteness and extreme altitude. Now, under Chinese rule, Tibet is a sensitive destination for Westerners. Visitors need all the information that they can lay their hands on and this guidebook provides plenty. With flight routes and rail access to Tibet expanding, and new border crossings opening, Michael Buckley and Bradt's Tibet provide all of the information you need to make the most of a trip.

Madagascar Daniel Austin, Hilary Bradt, 2017-08-17 A new, thoroughly updated 12th edition of Bradt's Madagascar, the leading and most comprehensive guide to this unique island nation, written by Hilary Bradt, who first visited in 1976 and has returned roughly 35 times, and Daniel Austin, who has visited 12 times and continues to travel there annually. Bradt's Madagascar is by far the most thorough guide to the country in English and is written and updated by established experts whose unparalleled knowledge of Madagascar combines with contributions from over 50 experts in a book which has been the most authoritative guide to the country for three decades. It covers national parks and protected areas and includes itineraries to suit all interests and budgets, plus details of around 1,000 hotels and restaurants. Madagascar is like nowhere else on earth. It is fascinating not only zoologically and botanically, but culturally, linguistically, historically and geologically.

This vast island is the fourth largest in the world and also the oldest. This is part of the reason why it has evolved into an incredible hotspot for biodiversity, with a truly unique flora and fauna that is more than 80% endemic to the island, and with new species being described virtually on a daily basis. Madagascar is also the only place where you can see wild lemurs. Almost a quarter of the world's 450-or-so primates exist only here. With Bradt's Madagascar you can visit tropical rainforest and seek out its incredible flora and fauna; explore the otherworldly eroded limestone spires, most famously at Tsingy de Bemaraha National Park - Madagascar's most striking landscape; discover the beach-fringed islands around Nosy Be with their fabulous scuba diving, snorkelling, kayaking, whale-watching and fishing opportunities; and make the most of a host of adventuring and sporting possibilities, including surfing, windsurfing, kitesurfing, rock climbing, tree climbing, caving, river trips, mountain biking, distance running, quad biking, trekking and hiking. Also covered are the UNESCO World Heritage Site of Ambohimanga; the renowned Avenue des Baobabs, one of the country's most photographed scenes, and information on the best birdwatching spots: Madagascar has almost 300 avian species, with a high proportion of endemics, including five whole endemic families.
