Embodied Narration Heike Hartung,2018-08-07 Do liminal embodied experiences such as illness, death and dying affect literary form? In recent years, the concept of embodiment has been theorized from various perspectives. Gender studies have been concerned with the cultural implications of embodiment, arguing to move away from viewing the body as a prediscursive phenomenon to regarding it as an acculturated body. Age studies have extended this view to the embodied experience of ageing, while drawing attention to the ways in which the ageing body, through its materiality and plasticity, restricts the possibilities of (de)constructing subjectivity. These current debates on embodiment find a strong counterpart in literary representation. The contributions to this anthology investigate how and to what extent physical borderline experiences affect literary form.

Cancer and Young Adult Literature Stephen M. Zimmerly, 2024-12-20 This collection specifically and solely focuses on Young Adult literature texts where cancer plays a prominent role, including widely-read texts like John Green's *The Fault in Our Stars*, Nicholas Sparks' *A Walk to Remember*, and Jesse Andrews' *Me and Earl and the Dying Girl*. The chapters present a variety of arguments, each developing a novel investigation into how these stories explore the effects cancer has on a person, a family, or on a relationship. As scientific studies continue to develop new understandings of the biology behind cancer, and new sociological studies continue to uncover how a cancer diagnosis impacts the fabric of our culture(s), these collected essays continue to investigate how authors have woven cancer into the stories we write for young people. A number of distinct avenues are taken here, arguing for new approaches in crafting narrative, deeper appreciation for family support networks (or their absence), and what literary criticism can uncover when applied to cancer narratives.

HandiLand Elizabeth A. Wheeler, 2019-08-21 *HandiLand* looks at young adult novels, fantasy series, graphic memoirs, and picture books of the last 25 years in which characters with disabilities take center stage for the first time. These books take what others regard as weaknesses—for instance, Harry Potter's headaches or Hazel Lancaster's oxygen tank—and redefine them as part of the hero's journey. *HandiLand* places this movement from sidekick to hero in the political contexts of disability rights movements in the United States, the United Kingdom, and Ghana. Elizabeth A. Wheeler invokes the fantasy of *HandiLand*, an ideal society ready for young people with disabilities before they get there, as a yardstick to measure how far we've come and how far we still need to go toward the goal of total inclusion. The book moves through the public spaces young people with disabilities have entered, including schools, nature, and online communities. As a disabled person and parent of children with disabilities, Wheeler offers an inside look into families who collude with their kids in shaping a better world. Moving, funny, and beautifully written, *HandiLand: The Crippest Place on Earth* is the definitive study of disability in contemporary literature for young readers.

Losing Streak Kristine Wyllys, 2014-09-15 Happiness doesn't come without a price. Rosemary Young knows the Lane. It's where she grew up, raising a brother barely younger than she was. It's where she served drinks, wearing a gaudy uniform in a low-lit bar to support her mama. It's where she fell for a boy from the wrong side of the tracks. Brandon Williams might've had a taste for gambling and been headed nowhere fast, but something about him made her almost forget every promise she ever made. These days when Rosie walks the Lane, it's on the orders of the man who owns it. The man who owns her—Joshua King. A bet gone wrong ties her to him, serving as the collateral Brandon didn't have. For Brandon the guilt is a white-hot brand, but Rosie can't bring herself to regret it completely. The safety of those she loves is worth the sacrifice. Now King's called Brandon back to town early and given Rosie one last job to do before they're free. Nothing—not even King—will keep Brandon from Rosie, not after three years of simply existing without her. And before it's all over, everything that had been done in darkness will come to light and nothing in their lives will ever be the same again. 67,000 words

Advances in Motivation Science Andrew J. Elliot, 2014-11-25 Elsevier are proud to introduce our brand new serial, *Advances in Motivation Science*. The topic of motivation has traditionally been one of the mainstays of the science of psychology. It played a major role in early dynamic and Gestalt models of the mind and it was fundamental to behaviorist theories of learning and action. The advent of the cognitive revolution in the 1960 and 70s eclipsed the emphasis on motivation to a large extent, but in the past two decades motivation has returned en force. Today, motivational analyses of affect, cognition, and behavior are ubiquitous across psychological literatures and disciplines; motivation is not just a hot topic on the contemporary scene, but is firmly entrenched as a foundational issue in scientific psychology. This volume brings together internationally recognized experts focusing on cutting edge theoretical and empirical contributions in this important area of psychology. - Elsevier's brand new serial focusing on the field of motivation science and research - Provides an overview of important research programs conducted by the most respected scholars in psychology - Special attention on directions for future research

Cinematic States Gareth Higgins, 2013-11-05 A Northern Irish writer explores his adopted homeland through film in this irreverent yet moving journey through each of the 50 states. Set among a personal backdrop of immigration memoir, he takes on American myths in their most powerful form—the motion picture—by setting out to determine if a Kansas yellow brick road really does lead to the end of the rainbow, and whether it first has to pass through Colorado's Overlook Hotel. Amid the

multipurpose woodchippers, friendly exorcists, and faulty motel showers, resurrected baseball players, and miracle-working gardeners, he examines what the stories we tell reveal about American lives and uses this to sum up what he has learned about the promises, failures, and hope that is America.

The Value Gap Courtney Brannon Donoghue, 2023-08-08 How female directors, producers, and writers navigate the challenges and barriers facing female-driven projects at each stage of filmmaking in contemporary Hollywood. Conversations about gender equity in the workplace accelerated in the 2010s, with debates inside Hollywood specifically pointing to broader systemic problems of employment disparities and exploitative labor practices. Compounded by the devastating #MeToo revelations, these problems led to a wide-scale call for change. The Value Gap traces female-driven filmmaking across development, financing, production, film festivals, marketing, and distribution, examining the realities facing women working in the industry during this transformative moment. Drawing from five years of extensive interviews with female producers, writers, and directors at different stages of their careers, Courtney Brannon Donoghue examines how Hollywood business cultures “value” female-driven projects as risky or not bankable. Industry claims that “movies targeting female audiences don’t make money” or “women can’t direct big-budget blockbusters” have long circulated to rationalize systemic gender inequities and have served to normalize studios prioritizing the white male-driven status quo. Through a critical media industry studies lens, The Value Gap challenges this pervasive logic with firsthand accounts of women actively navigating the male-dominated and conglomerate-owned industrial landscape.
