Papers in Boiotian Topography and History John M. Fossey,2024-04-08 To coincide with the publication of his large monograph 'Topography and Population of Ancient Boiotia', we are reprinting a series of 15 of Professor Fossey's previously published papers. These papers, scattered across many periodicals, were written during the preparation of the monograph; the latter, in its turn, makes frequent reference to the papers. In this way, the two works complement each other; the papers also treat of detailed problems which could not have received the same full discussion in the monograph. The papers are divided into four sections: testimonia, Mykenaian Boiotia, Sites and History of Boiotia from Protohistoric to Classical Times, and Roman Boiotia.

International Air Guide: Air Atlas Imprimerie Crété S.A., Paris, France,2017-02-01 The International Air Guide was published in 1931, and it contains all international airports, aerodromes and airfields. Any large airport, but also any little-known airfield, is described in detail. In most cases, this description also includes a historical aeronautical chart and aerodrome map with reference to the corresponding coordinates, radio frequencies and special geographical blockades. For those who are interested in aeronautics and in aviation history, and for those, who want to locate vanished or abandoned

airfields, the International Airport Guide is a perfect tool.

Writing the North of the North / L'Écriture du Nord du Nord / Den Norden des Nordens (be-)schreiben Annie Bourguignon, Konrad Harrer, 2019-11-29 The expression "North of the North" refers both to an objective, geographical reality – the territories situated at the highest latitudes on our planet – and to a subjective, mental construction which came into being many centuries ago and has been developed, modified and differentiated ever since. The chapters in the present volume examine various aspects of that concept, analysing texts and works of art from a range of regions and periods. La notion de « Nord du Nord » renvoie tout autant à la réalité géographique objective que sont les territoires des latitudes les plus élevées de notre planète qu'à une construction mentale subjective qui s'est constituée, développée et modifiée au cours du temps. Les contributions du présent volume se proposent d'en explorer les multiples facettes en recourant à des textes et œuvres d'art d'époques et de provenances diverses. Der Begriff „Norden des Nordens“ verweist sowohl auf eine objektive geographische Wirklichkeit, nämlich die in den höchsten Breitengraden unseres Planeten gelegenen Territorien, als auch auf eine subjektive mentale Konstruktion, die im Laufe der Zeiten entstanden ist, sich fortentwickelt und ausdifferenziert hat. Die im vorliegenden Band enthaltenen Beiträge erforschen die vielfältigen Facetten dieses Begriffs anhand von Texten und Kunstwerken aus verschiedenen Regionen und Epochen.

Karnak et sa topographie (1) : les relevés modernes du temple d'Amon-Ré (1967-1984) Michel Azim, 1998-01-01 T00:00:00+01:00 Disposer d'un plan de grande précision, pour promouvoir l'étude d'un site monumental aussi complexe que le temple d'Amon-Ré, est une nécessité ressentie de longue date, à laquelle le Centre franco égyptien d'étude des temples de Karnak apporte, aujourd'hui, une réponse au travers d'un nouveau document en six planches, à l'échelle du 1/2 50e, qui donne une vision synthétique des ensembles monumentaux, tout en exprimant, avec une bonne précision, le détail des différents espaces internes et externes des édifices. Pour que les circonstances de son lever ne soient pas vouées à l'oubli, un chapitre est consacré aux commentaires de ses divers auteurs, topographes et architectes ; dans le même esprit, un autre relate les travaux préliminaires, réalisés par l'Institut géographique national, qui établit, dès 1967, une triangulation géodésique et un quadrillage sur le site, puis en dressa un premier plan au 1/500e par photogrammétrie aérienne. Au-delà du plan, l'étude de l'ensemble monumental demande que ses différents espaces, structures et éléments architectoniques, puissent être désignés de manière simple, et sans ambiguïté. Une nomenclature générale est proposée pour les répertorier : ce nouveau vocabulaire autorise toute forme d'interrogation par l'ordinateur, comme il facilite la communication entre les chercheurs. Sa conception est développée dans un troisième chapitre. Auparavant, faute d'un tel langage, chacun des savants attachés à l'étude de Karnak, depuis Champollion, a dû créer son propre système de référence, et il en est résulté, dans la littérature égyptologique, de multiples dénominations qui, souvent, se superposent : pour faciliter leur recoupement, un dernier chapitre les met en parallèle, avec la nouvelle nomenclature sous la forme de tableaux

synoptiques. Le présent volume constitue donc un outil de travail ; les volumes à venir, quant à eux, retraceront l'évolution archéologique du grand temple d'Amon-Rê, au travers de l'analyse des plans anciens, qui en furent dressés du XVI^e siècle à nos jours.

Le commentaire de carte topographique - 2e éd. Camille Tiano, Clara Loizzo, 2022-02-16 Ce manuel propose une méthodologie complète, étape par étape, du commentaire de carte topographique pour réussir les épreuves écrites et orales de différents concours et examens : comment lire les principales informations des cartes, les problématiser, construire un plan de commentaire, maîtriser les termes techniques des différents domaines géographiques, se familiariser avec les documents qui peuvent venir compléter la carte. 6 chapitres thématiques abordent les différents domaines de la géographie à mobiliser dans le commentaire de carte (topographie, hydrographie, paysages et végétation, géographie rurale, géographie urbaine, géographie industrielle, aménagement...), et 2 chapitres méthodologiques proposent des conseils précis pour l'élaboration du plan et la réalisation d'un croquis de synthèse. Une nouvelle édition proposant de nombreux nouveaux exemples et croquis originaux. Un ouvrage en tout en couleurs avec des ressources numériques (rapports du jury, abréviations IGN et glossaire).

Traite elementaire de topographie et de lavis des plans ... par. M. Tripon J. B. Tripon, 1846
