

On Death And Dying Summary

Susan K. Whitbourne, Stacey B. Whitbourne

Summary & Analysis of Being Mortal ZIP Reads, Author and physician Atul Gawande analyzes the diverse and problematic landscape of end-of-life care. By providing examples of the good and bad, Gawande shows that we as a society can do much better for the elderly and dying. What does this ZIP Reads Summary Include? Synopsis of the original bookA detailed look at our current medical approach to deathAn argument for a more palliative approach to death and dyingAn in-depth editorial reviewBackground on the authorAbout the Original Book: Gawande's book is a measured, insightful criticism of the medical model of end-of-life care. He convincingly shows that a palliative model of care not only improves the quality of our last days, but it even seems to prolong life better than its counterpart. Anyone interested in end-of-life issues, ethics, gerontology, or medicine will enjoy this book, but Gawande's anecdotal style makes this an appealing, approachable read for just about anyone. **DISCLAIMER:** This book is intended as a companion to, not a replacement for, *Being Mortal: Medicine and What Matters in the End*. ZIP Reads is wholly responsible for this content and is not associated with the original author in any way.

Summary of Death's Summer Coat - [Review Keypoints and Take-aways] PenZen Summaries, 2022-11-29 The summary of *Death's Summer Coat - What the History of Death and Dying Teaches Us About Life and Living* presented here include a short review of the book at the start followed by quick overview of main points and a list of important take-aways at the end of the summary. The Summary of *Death's Summer Coat* is an odd and at times gruesome look at the history of a topic that most of us try to avoid thinking about: death. Discover the ways in which death rites and the medical profession influence our relationship with the departed, as well as the fact that defining death is not as straightforward as one might initially believe it to be. *Death's Summer Coat* summary includes the key points and important takeaways from the book *Death's Summer Coat* by Brandy Schillace. Disclaimer: 1. This summary is meant to preview and not to substitute the original book. 2. We recommend, for in-depth study purchase the excellent original book. 3. Understanding the Sociology of Health Anne-Marie Barry, Chris Yuill, 2016-09-24 *Understanding the Sociology of Health*

continues to offer an easy to read introduction to sociological theories essential to understanding the current health climate. Up-to-date with key policy and research, and including case studies and exercises to critically engage the reader, this book shows how sociology can answer complex questions about health and illness, such as why health inequalities exist. To better help with your studies this book contains: · a global perspective with international examples; · a new chapter on health technologies; · online access to videos of the author discussing key topics as well as recommended further readings; · a glossary, chapter summaries and reflective questions to help you engage with the subject. Though aimed primarily at students on health and social care courses and professions allied to medicine, this textbook provides valuable insights for anyone interested in the social aspects of health.

Psychology of Hope C.R. Snyder, 2010-05-11 Why do some people lead positive, hope-filled lives, while others wallow in pessimism? In *The Psychology of Hope*, a professor of psychology reveals the specific character traits that produce highly hopeful individuals. He offers a test to measure one's level of optimism and gives specific advice on how to become a more hopeful person.

Older Adults' Views on Death Victor G. Cicirelli, PhD, 2006-05-26 This empirically-based study of older adults ranging in age from 70-90 years examines the influence of family relations, religious beliefs, age-related health changes, culture, and more on personal meanings of death, fears of death, and views of the dying process. Gerontologists will gain a more realistic understanding of all of the factors influencing an older individual's view of death and the dying process. These views impact the development of both effective interventions to provide appropriate emotional support and coping strategies to help persons deal with fears of approaching death.

Oke's Magisterial Synopsis George Colwell Oke, 1881

Stress and Coping in Nursing Roy D. Bailey, Margaret Clarke, 2013-11-11 Increasingly, stress as a concept is being used as an explanation of a wide variety of negative phenomena which are experienced by all people, but which include nurses in particular and their patients. Nursing has been identified as a 'high stress' profession and one can hardly pick up a nursing journal, or even read a newspaper article about nursing, without finding the word stress used liberally. Examples of its use are found in relation to sickness/absence rates, high level of nursing staff turnover, discontent in nursing, the effects of unemployment, the effects of overwork, having too much responsibility, having too little responsibility or control, the effects of constantly giving emotionally to others, the causes of illness, the effects of going into hospital, delayed healing, anxiety, depression and alcoholism. Given the heterogeneous nature of these phenomena, some of which are the diametric opposite of others and that they are clearly being attributed to the one concept, stress, then that concept must necessarily be of importance within people's lives. Or is it perhaps just a fashionable, global, but ultimately empty explanation? Roy Bailey and I believe that stress is an extremely important concept. Indeed, we would argue that it is a meta-concept rather

than a concept, which does indeed serve to explain many disparate phenomena.

Brief Existential Psychotherapy for Life Stress Massimo Biondi, 2025-06-13 The book presents a detailed description of brief existential psychotherapy (BEP) based on an articulated model, integrating knowledge from existential psychotherapy, psychobiology of human stress, mind-body techniques, and principles of positive psychiatry and psychology. BEP is conducted according to a pragmatic method, centered on the view of one's existence, analysis, and response to critical life stress events, designing a route of acceptance and search for meaning in life. BEP does not substitute other psychotherapies or their indications. It is born for the short-term treatment of crises after severe life stress events, such as deaths of loved ones, losses, divorce, retirement, personal or collective emotional traumas, major violations of law, and detention in jail, with a particular emphasis on severe somatic diseases (cancer, myocardial infarction, stroke, degenerative diseases, and other subacute or chronic conditions that change life's perspective). The volume presents a methodology of BEP based on traditional clinical psychopathology, with a first step of medical and psychopathological assessment, establishing a categorical and a dimensional diagnosis. Then, subsequent steps are provided in a brief psychotherapy course, with a more common format of 12-20 sessions, 1hr duration. The issues and aims of treatment are transversal across different psychiatric diagnoses, meaning the intervention follows similar activity lines, independently from the specific categorical diagnosis. The intervention is dedicated to people with existential suffering, without psychopathological diagnosis, too. Medical therapy and psychopharmacological treatment are given according to patient needs; there is no preclusion toward the integration between psychotherapy and psychopharmacotherapy, as well as other techniques with evidence of efficacy. Moreover, in some cases, appropriate psychopharmacotherapy consents to psychotherapy, impossible otherwise. This volume will be an invaluable tool for psychotherapists, psychologists, psychiatrists, counselors, social workers, and other medical professionals.

Adult Development and Aging Susan K. Whitbourne, Stacey B. Whitbourne, 2025-04-01 Presents an integrative, student-friendly approach to understanding the impact of biological, psychological and social processes on individuals throughout the aging process Acclaimed for its depth, currency, and easily accessible presentation, *Adult Development and Aging*, helps students understand the aging process both in themselves and in those around them, approaching the subject from the biopsychosocial perspective: a model of adult development that takes into account the influences and interactions of complex biological, psychological, and social processes. Authors Susan Krauss Whitbourne and Stacey B. Whitbourne explore the latest concepts and applications in this important discipline. Based on Susan's classroom experience teaching her *Psychology of Aging* course, this engaging textbook integrates current research, real-world data, detailed explanations, and relatable examples to provide a balanced and accessible examination of the subject. Now in its eighth edition, this fully updated and revised textbook offers inclusive coverage of recent advances in neuroscience and genetics, cognitive functions, vocational development, sociocultural influences, mental health issues, health and prevention, and much more. *Adult*

Development and Aging: Biopsychosocial Perspectives, Eighth Edition, is an invaluable source of timely and relevant information for digital-native college learners and mature returning students alike, as well as for instructors and academic researchers in areas of adult aging and lifespan development. AN INTERACTIVE, MULTIMEDIA LEARNING EXPERIENCE This textbook includes access to an interactive, multimedia e-text. Icons throughout the print book signal corresponding digital content in the e-text. Two threads of video content in the enhanced e-text engage students more deeply with the material: Age Matters: Newly developed for the Eighth Edition, each chapter begins with an inviting video introduction to the chapter topic—outlining for students what they will read about, calling attention to key concepts, challenges, and pitfalls, and making connections with other chapters. Appearing with each chapter's summary, a longer and more personal Age Matters video lends real-world context to students' review of the chapter, with the authors offering insights drawn from their own work and life experience. Psychology Concepts: A series of videos offering brief overviews of topics in general psychology, such as understanding memory and understanding personality, that come to bear in the discussion of adult development and aging. Appearing throughout the enhanced e-text, interactive figures, diagrams, and tables facilitate study and help students retain important information. Even many of the simplest figures are interactive to encourage online readers to pause and absorb the information they present before scrolling on to additional reading. Each chapter includes a self-scoring practice quiz with feedback at both question- and quiz-level to help students prepare for higher-stakes assessments and exams.

Adult Development and Aging Susan K. Whitbourne, Stacey B. Whitbourne, 2020-04-14 The new edition of the leading textbook on the biopsychosocial processes of aging in adults, fully revised and updated. *Adult Development and Aging* helps student readers understand the aging process both in themselves and in those around them. Approaching the subject from the biopsychosocial perspective — an innovative model of adult development that takes into account the influences and interactions of complex biological, psychological, and social processes — authors Susan Krauss Whitbourne and Stacey B. Whitbourne explore the latest concepts and applications in this exciting academic discipline. Based on Susan's classroom experience teaching her Psychology of Aging course, this engaging textbook integrates current research, real-world data, detailed explanations, and relatable examples to provide a balanced and accessible examination of the subject. This fully updated and revised seventh edition offers inclusive coverage of recent advances in neuroscience and genetics, cognitive functions, vocational development, sociocultural influences, mental health issues, health and prevention, and much more. AgeFeeds provide key information for each chapter, while new graphics, charts, tables, and figures enhance the text's visual appeal and strengthen student comprehension and retention. Acclaimed for its depth, currency, and student-friendly presentation, this popular textbook: Uses a multidisciplinary approach for understanding adult aging and development Offers positive images of aging and the newest and most relevant research in the field Provides new and updated illustrations, references, quizzes, examples, and research Offers practical self-help tips and up-to-date links to online resources Includes

extensive supplementary teaching and learning material including a test bank, PowerPoint slides, and an instructor's manual *Adult Development and Aging: Biopsychosocial Perspectives*, 7th Edition is an invaluable source of topically relevant information for traditional college-age learners and mature returning students alike, as well as for instructors and academic researchers in areas of adult aging and lifespan development.

Communication and Aging Jon F. Nussbaum, Loretta L. Pecchioni, James D. Robinson, Teresa L. Thompson, 2013-05-13 This text employs a communication perspective to examine the aging process and the ability of individuals to adapt successfully to aging. It continues the groundbreaking work of the first edition, emphasizing a life-span approach toward understanding the social interaction that occurs during later life. The edition provides a comprehensive update on the existing and emerging research within communication and aging studies and considers such topics as notions of successful aging, positive and negative stereotypes toward older adults, and health communication issues. It raises awareness of the barriers facing elderly people in conversation and the importance such conversations have in elderly people's lives. The impact of nonrelational processes, such as hearing loss, are considered as they impact relationships with others and affect the ability to age successfully. The book is organized into 14 chapters. Each chapter is written so that the reader is presented with an exhaustive review of the pertinent and recent literature from the social sciences. As in the first edition, when the literature is empirically based, the communicative ramifications are then discussed. Readers of this volume will gain greater understanding of the importance of their communicative relationships and how significant they remain across the life span. Developed for students in communication, psychology, nursing, social gerontology, sociology, and related areas, *Communication and Aging* provides important insights on communication to all who are affected by the aging process.

Spirituality, Religion, and Aging Holly Nelson-Becker,2017-02-01 This highly integrative book was written for students, professionals in aging, religious leaders, and older adults themselves. Readers will gain the knowledge and skills they need to assess, engage, and address the spiritual and religious needs of older persons. Taking a fresh approach that breaks new ground in the field, the author discusses eight major world religions and covers values and ethics, theories, interventions, health and caregiving, depression and anxiety, dementia, and the end of life. Meditations and exercises throughout the book allow readers to expand and explore their personal understanding of spirituality. Referencing the latest research, the book includes assessments and skill-based tools designed to help practitioners enhance the mental health of older people.

Death, Society and Human Experience (1-download) Robert Kastenbaum,2015-07-22 Providing an understanding of the

relationship with death, both as an individual and as a member of society. This book is intended to contribute to your understanding of your relationship with death, both as an individual and as a member of society. Kastenbaum shows how individual and societal attitudes influence both how and when we die and how we live and deal with the knowledge of death and loss. Robert Kastenbaum is a renowned scholar who developed one of the world's first death education courses and introduced the first text for this market. This landmark text draws on contributions from the social and behavioral sciences as well as the humanities, such as history, religion, philosophy, literature, and the arts, to provide thorough coverage of understanding death and the dying process. Learning Goals Upon completing this book, readers should be able to: - Understand the relationship with death, both as an individual and as a member of society -See how social forces and events affect the length of our lives, how we grieve, and how we die -Learn how dying people are perceived and treated in our society and what can be done to provide the best possible care -Master an understanding of continuing developments and challenges to hospice (palliative care). -Understand what is becoming of faith and doubt about an afterlife
