People of the Bear Mother T. D. Austin, 2012-08 The most powerful shaman of the People of the Bear Mother invites a young woman to take her soul's great adventure by painting a new piece of animal art on the walls in the deepest chambers

of the awesome Great Cave. The time has come for Little Bear to make the life-altering choice to overcome her fear of the terrifying old shaman, and in doing so, unalterably change all the lives her soul will subsequently experience even as her lion eye reappears in each lifetime to identify her avatar. But before she may embark on her hero's journey, she must be initiated as hunter and then as Seer through trials, ordeals, and the revelations of her people's mythology expressed in the art of the Cave. The tale builds to an unexpected climax as one soul experiences many lifetimes in a hunting culture where being born female or male, homosexual or heterosexual, young or old are equally valid ways of being human. Inspired by the work of Joseph Campbell and the artwork of France's 35,000-year-old Chauvet Cave, the novel takes a fresh look at, and is a new take on, the life-ways and religion of our earliest ancestors through Little Bear's encounters with shamans, hunters, avatars, and painted caves. This story reveals that the spiritual messages hidden within this magnificent, incredibly ancient art are the same metaphysical beliefs of the New Age and the same universal human truths at the heart of every world religion and mystical philosophy. 2011 Book Competition Finalist Awards: USA Best Book Awards for New Age Fiction; IBA for Chick Lit-Women's Fiction; IBA for Gay-Lesbian Fiction.

**People of the Owl** Kathleen O'Neal Gear, W. Michael Gear, 2004-06-14 New York Times and USA Today bestselling authors W. Michael Gear and Kathleen O'Neal Gear are famous for writing novels about prehistoric America that are fast-paced, steeped in cultural detail, and smart. In *People of the Owl* they combine their distinctive trademark of high action with a rich psychological drama. Four thousand years ago, in what centuries later will be the southern part of the United States, a boy is thrust into manhood long before he's ready. Young Salamander would much rather catch crickets and watch blue herons fish than dabble in the politics of his clan. But when his heroic brother is killed, Salamander becomes the leader of America's first city. He inherits his brother's two wives, who despise him, and is forced to marry his mortal enemy's daughter to forge an alliance for the trade goods his people desperately need. Cast adrift in a stark wilderness of political intrigue where assassins are everywhere, young Salamander has no choice but to become a man and quickly. **The People Of The Wolf** Jack F. Reich, 2006-08 Ace Roberts was, in his own words, The Best Damn Fighter Pilot Ever Born! This Clark-Gable look-alike got his nickname by shooting down ten Jap Zeros in a P-40 Tomahawk in 1942 as an American mercenary for Chinese Generalissimo Chiang Kai Shek. He reinforced this reputation in the Korean War by shooting down ten Russian-built MiG- 15's in his F-86 Sabrejet. He was, in fact, a double ace, two times over. Ace was also very, very lucky! He survived three years of inhuman torture in Japanese prisoner-of-war camps in World War II; being shot down behind enemy lines in Korea and a year of aerial combat in MiG-Alley, high above the Manchurian skies. Women were irresistibly attracted by his devilish good looks and magnetic charm. These included Suzy, a pretty MASH nurse; An Liu, exotic confidant to Madame Chiang Kai Slick; and, if truth be known, Madame Chiang herself! But Ace had a penchant for taking chances. He chased two Chinese pilots across the Yalu River into Manchuria, shooting them down in violation of Air Force Regulations and getting cashiered from the service for this infraction. A year later, he vanished while flying an X-99 experimental jet over California's High Sierras, resulting in Madame Chiang's dispatching An Liu to assist in the search for her favorite American. Read LUCKYACE to find out if this intrepid airman can escape his latest rendezvous with death.

*Wolves* L. David Mech, Luigi Boitani, 2010-10-01 Wolves are some of the world's most charismatic and controversial animals, capturing the imaginations of their friends and foes alike. Highly intelligent and adaptable, they hunt and play together in close-knit packs, sometimes roaming over hundreds of square miles in search of food. Once teetering on the brink of extinction across much of the United States and Europe, wolves have made a tremendous comeback in recent years, thanks to legal protection, changing human attitudes, and efforts to reintroduce them to suitable habitats in North America. As wolf populations have rebounded, scientific studies of them have also flourished. But there hasn't been a systematic, comprehensive overview of wolf biology since 1970. In *Wolves*, many of the world's leading wolf experts provide state-of-the-art coverage of just about everything you could want to know about these fascinating creatures. Individual chapters cover wolf social ecology, behavior, communication, feeding habits and hunting techniques, population dynamics, physiology and pathology, molecular genetics, evolution and taxonomy, interactions with nonhuman animals such as bears and coyotes, reintroduction, interactions with humans, and conservation and recovery efforts. The book discusses both gray and red wolves in detail and includes information about wolves around the world, from the United States and Canada to Italy, Romania, Saudi Arabia, Israel, India, and Mongolia. *Wolves* is also extensively illustrated with black and white photos, line drawings, maps, and fifty color plates. Unrivalled in scope and comprehensiveness, *Wolves* will become the definitive resource on these extraordinary animals for scientists and amateurs alike. "An excellent compilation of current knowledge, with contributions from all the main players in wolf research. . . . It is designed for a wide readership, and certainly the language and style will appeal to both scientists and lucophiles alike. . . . This is an excellent summary of current knowledge and will remain the standard reference work for a long time to come."—Stephen Harris, *New Scientist* "This is the place to find almost any fact you want about wolves."—Stephen Mills, *BBC Wildlife Magazine*

*The People of Palestine* Elihu Grant, 2020-03-26 We thought that Palestine had passed into ancient history, but it has been a centre of modern events. No country in the world has a more continuously interesting and profitable story. Its present population is made of sturdy and able people. Three great religions call it Holy Land. It presents to view three distinct types of human society, the desert nomad who dwells in the tented encampment, the peasant villager who reminds us in so many ways of the people of the Bible, and the more foreign looking and mingled folk of the large cities. We have picked the village life as most suggestive of the quaint customs of the past. It has been gratifying to have those who know this life best, including villagers themselves, praise the accuracy and sympathy of the descriptions. The volume has not been compiled from books, but drawn from life. An additional chapter seeks to sum present conditions.

**People's Peace** Yasmin Saikia, Chad Haines, 2019-11-15 *People's Peace* lays a solid foundation for the argument that global peace is possible because ordinary people are its architects. Saikia and Haines offer a unique and imaginative perspective on people's daily lives across the world as they struggle to create peace despite escalating political violence. The

volume's focus on local and ordinary efforts highlights peace as a lived experience that goes beyond national and international peace efforts. In addition, the contributors' emphasis on the role of religion as a catalyst for peace moves away from the usual depiction of religion as a source of divisiveness and conflict. Spanning a range of humanities disciplines, the essays in this volume provide case studies of individuals defying authority or overcoming cultural stigmas to create peaceful relations in their communities. From investigating how ancient Jews established communal justice to exploring how black and white citizens in Ferguson, Missouri, are working to achieve racial harmony, the contributors find that people are acting independently of governments and institutions to identify everyday methods of coexisting with others. In putting these various approaches in dialogue with each other, this volume produces a theoretical intervention that shifts the study of peace away from national and international organizations and institutions toward locating successful peaceful efforts in the everyday lives of individuals.
